Liebermann, 1980      **Latin American Art at The Museum of Modern Art** Miriam M. Basilio Gaztambide, 2025-06-13 This book sheds light on an as yet unstudied aspect of The Museum of Modern Art's MoMA preeminent role in establishing the definition of the problematic term Latin American art in the United States from the 1930s to the present through its collection displays In examining the shifting categorization of Latin American works according to stylistic and geographic taxonomies we gain a greater understanding of the organization of the Museum's collections as a whole during the 1940s and 1950s This book is the first to document these institutional precedents crucial for the understanding of the articulation of a Modernist canon and its contested legacy today The MoMA is widely recognized as the preeminent institution that defined 20th century art through its collection shaping our understandings of the history of art with its hierarchies and exclusions as they sediment over time MoMA's holdings of art from Latin America shed light on a key period when the stylistic categories that have since come to be accepted by many today as the Modernist canon developed MoMA's collection displays suggest ways in which artists from areas of the world formerly excluded can be incorporated within today's increasingly global museums MoMA's approach may be compared to initiatives adopted by several museums since the 2000s creating geographically defined curatorial positions as a way to redress gaps in collecting art from Latin America and other areas of the world In this book author Miriam M Basilio Gaztambide offers a closer study of the history of collection displays as a means to understand canon formation in modern art museums This work will be of interest to those researching Latin American American modern and contemporary art and curatorial and museum studies      **Catalog of the Library of the Museum of Modern Art: Neu** Museum of Modern Art (New York, N.Y.). Conant,2006-02-28 The complex and coherent development of Japanese art during the course of the nineteenth century was inadvertently disrupted by a political event the Meiji Restoration of 1868 Scholars of both the preceding Edo 1615 1868 and the succeeding Meiji 1868 1912 eras have shunned the decades bordering this arbitrary divide thus creating an art historical void that the former view as a period of waning technical and creative inventiveness and the latter as one threatened by Meiji reforms and indiscriminate westernization and modernization Challenging Past and Present to the contrary demonstrates that the period 1840 1890 as seen progressively rather than retrospectively experienced a dramatic transformation in the visual arts which in turn made possible the creative achievements of the twentieth century The first group of chapters takes as its theme the diverse cultural currents of the transitional period particularly as they applied to art The second section deals with the inconsistent yet determinedly pragmatic courses pursued by artists entrepreneurs and patrons to achieve a secure footing in the uncertain terrain of early

Meiji Further chapters look at how painters and sculptors sought to absorb and integrate foreign influences and reinterpret their own stylistic mediums      *Exhibiting Italian Art in the United States from Futurism to Arte Povera* Raffaele Bedarida, 2022-06-28 This volume explores how Italian institutions dealers critics and artists constructed a modern national identity for Italy by exporting literally and figuratively contemporary art to the United States in key moments between 1929 and 1969 From artist Fortunato Depero opening his Futurist House in New York City to critic Germano Celant launching Arte Povera in the United States Raffaele Bedarida examines the thick web of individuals and cultural environments beyond the two more canonical movements that shaped this project By interrogating standard narratives of Italian Fascist propaganda on the one hand and American Cold War imperialism on the other this book establishes a more nuanced transnational approach The central thesis is that beyond the immediate aims of political propaganda and conquering a new market for Italian art these art exhibitions publications and the critical discourse aimed at American audiences all reflected back on their makers they forced and helped Italians define their own modernity in relation to the world s new dominant cultural and economic power The book will be of interest to scholars working in art history social history exhibition history and Italian studies      **New York Magazine** ,1980-09-15 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea      **New York Magazine** ,1980-07-28 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea      **New York Magazine** ,1973-05-14 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea      *Collecting as Modernist Practice* Jeremy Braddock, 2012-02-15 Winner of the Modernist Studies Association Book Prize of the Modernist Studies Association In this highly original study Jeremy Braddock focuses on collective forms of modernist expression the art collection the anthology and the archive and their importance in the development of institutional and artistic culture in the United States Using extensive archival research Braddock s study synthetically examines the overlooked practices of major American art collectors and literary editors Albert Barnes Alain Locke Duncan Phillips Alfred Kreymborg Amy Lowell Ezra Pound Katherine Dreier and Carl Van Vechten He

reveals the way collections were devised as both models for modernism's future institutionalization and culturally productive objects and aesthetic forms in themselves. Rather than anchoring his study in the familiar figures of the individual poet, artist, and work, Braddock gives us an entirely new account of how modernism was made, one centered on the figure of the collector and the practice of collecting. *Collecting as Modernist Practice* demonstrates that modernism's cultural identity was secured not so much through the selection of a canon of significant works as by the development of new practices that shaped the social meaning of art. Braddock has us revisit the contested terrain of modernist culture prior to the dominance of institutions such as the Museum of Modern Art and the university curriculum so that we might consider modernisms that could have been. Offering the most systematic review to date of the Barnes Foundation, an intellectual genealogy and analysis of *The New Negro* anthology, and studies of a wide range of hitherto ignored anthologies and archives, Braddock convincingly shows how artistic and literary collections helped define the modernist movement in the United States. **Manet and Modern Beauty**

Gloria Groom, 2019-06-25 This stunning examination of the last years of Édouard Manet's life and career is the first book to explore the transformation of his style and subject matter in the 1870s and early 1880s. The name Manet often evokes the provocative, heroically scaled pictures he painted in the 1860s for the Salon, but in the late 1870s and early 1880s the artist produced quite a different body of work: stylish portraits of actresses and demimondaines, luscious still lifes, delicate pastels, intimate watercolors, and impressionistic scenes of suburban gardens and Parisian cafés. Often dismissed as too pretty and superficial by critics, these later works reflect Manet's elegant social world, propose a radical new alignment of modern art with fashionable femininity, and record the artist's unapologetic embrace of beauty and visual pleasure in the face of death. Featuring nearly three hundred illustrations and nine fascinating essays by established and emerging Manet specialists, a technical analysis of the late Salon painting *Jeanne*, a selection of the artist's correspondence, a chronology, and more, *Manet and Modern Beauty* brings a diverse range of approaches to bear on a little-studied area of this major artist's oeuvre.
