Modern Philosophy Vol 9 From The French Revolution To Sartre Camus And Levi Strauss:

The Philosophy Book Gregory Bassham, 2019-02-01 Philosophy explores the deepest most fundamental questions of reality and this accessible and entertaining chronology presents 250 milestones of the most important theories events and seminal publications in the field over the last 3 500 years The brief engaging entries cover a range of topics and cultures from the Hindu Vedas and Plato s theory of forms to Ockham s Razor Pascal s Wager Hume s A Treatise of Human Nature existentialism feminism Philosophical Zombies and the Triple Theory of Ethics Beautifully illustrated and filled with unexpected insights The Philosophy Book will appeal to a wide spectrum of readers **Sartre on Sin** Kate

Kirkpatrick, 2017-10-27 Sartre on Sin Between Being and Nothingness argues that Jean Paul Sartre s early anti humanist philosophy is indebted to the Christian doctrine of original sin On the standard reading Sartre s most fundamental and attractive idea is freedom he wished to demonstrate the existence of human freedom and did so by connecting consciousness with nothingness Focusing on Being and Nothingness Kate Kirkpatrick demonstrates that Sartre s concept of nothingness le n ant has a Christian genealogy which has been overlooked in philosophical and theological discussions of his work Previous scholars have noted the resemblance between Sartre s and Augustine s ontologies to name but one shared theme both thinkers describe the human as the being through which nothingness enters the world However there has been no previous in depth examination of this resemblance Using historical exegetical and conceptual methods Kirkpatrick demonstrates that Sartre s intellectual formation prior to his discovery of phenomenology included theological elements especially concerning the compatibility of freedom with sin and grace After outlining the French Augustinianisms by which Sartre s account of the human as between being and nothingness was informed Kirkpatrick offers a close reading of Being and Nothingness which shows that the psychological epistemological and ethical consequences of Sartre s le n ant closely resemble the consequences of its theological predecessor and that his account of freedom can be read as an anti theodicy Sartre on Sin illustrates that Sartre s insights are valuable resources for contemporary hamartiology **Political Philosophy** Anthony C.

Patton, 2017-11-10 **The Church Confronts Modernity** Thomas E. Woods, 2004 Thomas Woods discusses the Catholic intellectual critique of modernity during the period immediately before after the turn of the 19th century He shows how the nonpluralistic institution of Christianity responded to an increasingly pluralistic intellectual environment **Orthodoxy, Modernity, and Authenticity** Heather Bailey, 2020-10-21 Ernest Renan was one of the most renowned European intellectuals of the second half of the nineteenth century Yet the impact of his most popular work Life of Jesus has been underestimated when not altogether ignored While commonplace now the idea that Jesus was merely human was at one time a novelty with significant socio political cultural and religious implications A case study in the Russian encounter with modernity Orthodoxy Modernity and Authenticity The Reception of Ernest Renan s Life of Jesus in Russia demonstrates that Renan s book has had long lasting and broad appeal in Russia because it presents an alternative to a strictly materialist

worldview on the one hand and an Orthodox worldview on the other Renan offered his readers the possibility to accept the tenets of modernity while still retaining both an admiration for the importance of religion in history and a sense of religious feeling or even belief in a higher religious ideal Assessments of Renan's alternative belief system whether positive negative or mixed were often simultaneously evaluations of the moral socio political and spiritual condition of European society in general and Russian society in particular The interpretive history of Renan's Life of Jesus in Russia reveals a persistent disillusionment with a strictly materialist interpretation of history and of life The Political Spectrum Anthony C.

Patton, 2015-10-01 The Political Spectrum sets out to identify the timeless universal principles of political philosophy that shape how we live as a society from democracy in Ancient Greece and the aristocracies of the Enlightenment to the tribal lands of Pakistan and the modern state that is the United States of America Unlike most political philosophies that rest on traditional foundations such as rights private property or human nature The Political Spectrum focuses on the fundamental ideas dividing the left and the right today to identify a rational middle ground Tracing the most insightful ideas from great thinkers in the Western tradition The Political Spectrum identifies two fundamental institutions that all societies must manage in a rational way in order to survive Along the way the book explores the tension between liberty and the individual's duty to society and the proper roles of family and state Basing the analysis on the four pillars of political philosophy human nature institutions wealth and justice The Political Spectrum offers a vision for resolving the political divide in a way that promotes liberty and prosperity What values do we need to promote for the overall wellbeing of mankind Is there a correct position on the political spectrum that we imagine spanning from the far left to the far right We all seem to have an intuitive grasp of what left and right or progressive and conservative mean but most people would not agree on all the specifics Can a conservative ever support the right of a woman to have an abortion Can a liberal ever support the rights of a fetus This book aims to bring some clarity to the left right political spectrum as well as to identify which point along the spectrum is best positioned to promote liberty and sustainable prosperity in a modern state The author concludes that two essential principles would be a prohibition on deficit spending and upholding the sanctity of monogamous procreation **The Incorporeal**

Elizabeth Grosz, 2017-03-14 Philosophy has inherited a powerful impulse to embrace either dualism or a reductive monism either a radical separation of mind and body or the reduction of mind to body But from its origins in the writings of the Stoics the first thoroughgoing materialists another view has acknowledged that no forms of materialism can be completely self inclusive space time the void and sense are the incorporeal conditions of all that is corporeal or material In The Incorporeal Elizabeth Grosz argues that the ideal is inherent in the material and the material in the ideal and by tracing its development over time she makes the case that this same idea reasserts itself in different intellectual contexts Grosz shows that not only are idealism and materialism inextricably linked but that this belonging together of the entirety of ideality and the entirety of materiality is not mediated or created by human consciousness Instead it is an ontological condition for the development of

human consciousness Grosz draws from Spinoza's material and ideal concept of substance Nietzsche's amor fati Deleuze and Guattari's plane of immanence Simondon's preindividual and Raymond Ruyer's self survey or autoaffection to show that the world preexists the evolution of the human and that its material and incorporeal forces are the conditions for all forms of life human and nonhuman alike A masterwork by an eminent theoretician *The Incorporeal* offers profound new insight into the mind/body problem *Ernest Renan's Life of Jesus and the Orthodox Struggle Against the De-Christianization of Christ in Russia, 1863-1917* Heather Leigh Bailey, 2001 **Books in Print**, 1991 **Books in Print Supplement**, 2002

Subject Guide to Books in Print, 1993 *Choice*, 1976 *Arts & Humanities Citation Index*, 1990 **T&L**, the **Times Literary Supplement**, 1995 *Twentieth-century French Thought* Joseph Chiari, 1975 **How the French Think** Sudhir Hazareesingh, 2015-09-22 An award winning historian presents an absorbing account of the French mind shedding light on France's famous tradition of intellectual life Why are the French such an exceptional nation Why do they think they are so exceptional The French take pride in the fact that their history and culture have decisively shaped the values and ideals of the modern world French ideas are no less distinct in their form while French thought is abstract stylish and often opaque it has always been bold and creative and driven by the relentless pursuit of innovation In *How the French Think* the internationally renowned historian Sudhir Hazareesingh tells the epic and tumultuous story of French intellectual thought from Descartes Rousseau and Auguste Comte to Sartre Claude L. Strauss and Derrida He shows how French thinking has shaped fundamental Western ideas about freedom rationality and justice and how the French mind set is intimately connected to their own way of life in particular to the French tendency towards individualism their passion for nature their celebration of their historical heritage and their fascination with death Hazareesingh explores the French veneration of dissent and skepticism from Voltaire to the Dreyfus Affair and beyond the obsession with the protection of French language and culture the rhetorical flair embodied by the philosophes which today's intellectuals still try to recapture the astonishing influence of French postmodern thinkers including Foucault and Barthes on postwar American education and life and also the growing French anxiety about a globalized world order under American hegemony *How the French Think* sweeps aside generalizations and easy stereotypes to offer an incisive and revealing exploration of the French intellectual tradition Steeped in a colorful range of sources and written with warmth and humor this book will appeal to all lovers of France and of European culture *History of Modern Philosophy in France* Levy-Bruhl Lucien, 1901 *The Obstructed Path* Henry Stuart Hughes, 1968 The years of political and social despair in France from the great depression through the Nazi occupation Resistance and liberation to the Algerian War forced French intellectuals to rethink the values of their culture Their faltering attempts to break out of a psychological impasse are the subject of this thoughtful and compassionate book by a distinguished American historian In this first treatment of contemporary French thought to bridge philosophy literature and social science and to show its relation to comparable thinking in Germany Britain and the United States Hughes also assesses

the work of other writers in terms of their emotional biography and role in society Hughes found those who struggled to find meaning and purpose amid chaos to be among the most brilliant minds of their century They included the social historians Bloch and Febvre the Catholic philosophers Maritain and Marcel the proponents of heroism Martin du Gard Bernanos Saint Exupéry Malraux and DeGaulle and the phenomenologists Sartre and Merleau Ponty They also included the strangely assorted trio of Camus Teilhard de Chardin and Lévi Strauss who showed the way to a wider cultural community Yet in nearly every case these scholars achieved something quite different from what they set out to do For this self questioning generation the interchange between history and anthropology became most compelling and of greatest interest to the world outside The Obstructed Path blends H Stuart Hughes concern for the many ways in which historians define and practice their craft his lifelong interest in literature his fascination with the influence of Marx and Freud and his empathy with the varieties of Christian thought It also demonstrates his delicate grasp of singular personalities such as Bernanos Merleau Ponty Jean Paul Sartre and Lévi Strauss His profound insight into the flaws of many elaborate philosophical constructions and into the core of deep emotions bold images and searing passions that were often hidden in them bring us close to these thinkers and makes this an enduring work The Columbia History of Twentieth-century French Thought Lawrence D. Kritzman, Brian J. Reilly, M. B. DeBevoise, 2006 This valuable reference is an authoritative guide to 20th century French thought It considers the intellectual figures movements and publications that helped define fields as diverse as history psychoanalysis film philosophy and economics History of Modern Philosophy in France Lucien Lévy-Bruhl, 1971
