The Modern Chess Instructor: Elementary explanations for beginners [etc William Steinitz,1889      **The Modern Chess Instructor** Wilhelm Steinitz,1889      Modern Chess Openings ,1957      **Modern Chess Openings by R.C. Griffith and J.H. White** Richard Clewin Griffith,1911      *Modern Chess Openings* Reuben Fine,2008-11

PREFACE TO THE SIXTH EDITION In the Sixth Edition of this book there is a notable change which we are sure that all our supporters will appreciate While we were considering the advisability of bringing it out in the current year we were approached by Mr Reuben Fine with a suggestion that he should under take the task of revision and we gladly agreed Reuben Fine needs no introduction to those who are interested in the game of chess His past achievements had already made him famous and he added another glorious chapter to the story of his career just as he had finished his work for us by tying for the first place in the great A V R O Tournament towards the end of 1938 Naturally we gave our reviser a free hand in dealing with his task merely reserving to ourselves the editorial right of making such slight changes in his text as might seem to us necessary Mr Fine however scrupulously adhered to the traditions of Modern Chess Openings while availing himself fully of the privilege which must be con ceded to a master of his rank of expressing his personal opinions on the lines of play which are illustrated in the book and altering as he thought fit the introductions to the various openings In comparing this new edition with its predecessor we may note that it contains 332 pages and 1 215 columns as against 300 pages and 1 060 columns of seven years ago We have gladly got rid of the cumbrous device of Addenda which was forced upon us by circumstances of production in 1932 We have also in deference to Mr Fines wishes abandoned the use of starred columns to indicate what appears to be the best line of play for both sides In his preface the reviser explains the system adopted by him in appraising lines of play so no comment on it is needed from us The only difficulty which arose in the completion of this edition was caused by our desire to introduce new variations from the A V R O Tournament after the manuscript had been sent to the printers and was in process of being set up The printers work was held back sufficiently to permit the mention of the most important of these and it so happened that this delay made it possible to put in some of the novelties from the Hastings Tourna ment of 1938 39 and a few from the Leningrad Moscow Tournament this year In conclusion we should like to convey our personal thanks to Mr Fine for the admirable way in which he has carried out his revision on which point we think our readers will agree and to acknowledge how little he left us to do The manuscript was typed by his wife and the printers had no difficulty on the score of illegibility We desire also to express our gratitude to all who have helped us in the preparation of this new editi6n and especially to our assistants in the exacting work of reading the proofs with particular mention of Messrs F J Camm and R Hutter and Sir Gilbert Jackson T E EDITORS London Januar 1939 THE task of revising Modern Chess Openings has been both arduous and pleasant arduous because of the almost endless ramifications of modern opening theory which necessitated the examination of the openings of thousands of games pleasant because the result is a solution albeit an incomplete one to the complicated

labyrinth I have been guided by the principle of the earlier editions that this work is intended to be both modern and practical For that reason I have enlarged the sections on the Queens side openings and the Ruy Lopez as these are the sine qua non of contemporary tournaments although I have refrained from paying too much attention to any particular variation in these openings since the practical player must be acquainted with a great number of different lines I wish to express my grateful thanks to various friends who have helped me particularly to Mr Modern Chess Openings Richard Clewin Griffith,1946 Modern Chess Openings Richard Clewin Griffith,J. H. White,1911 *Modern Chess Analysis* Robin Smith,2004 Chess analysis is nearly as old as the game itself with many of the pioneering works by the giants of chess history being devoted to the analysis of positions openings and endings Personal computers and powerful chess software are having a profound effect on chess analysis and theory most grandmasters use them extensively However this book does far more than explain methods for computer assisted analysis Readers will develop a deeper understanding of the strengths and limitations of the human mind and a greater understanding of many areas of chess while working through the examples that Robin Smith presents The many topics in this wide ranging book include Schematic thinking Dynamic play vs quiet manoeuvring Fortresses King Hunts and King Drift The Problem of Exchanging Interactive Analysis *The Modern Chess Instructor* Steinitz,1889 **Modern Chess Openings** Richard Clewin Griffith,J.
