Modern Competing Ideologies:

Modern Competing Ideologies L. Earl Shaw, 1973 Competing Ideologies in Greek Culture, Ancient and Modern Evy Johanne Håland, 2019-04-04 By using both modern and ancient sources this volume explores the relationship between official religion and popular belief in Greece as illustrated by the relations between competing ideologies or the relationship between ideology and mentality It shows that the communicative aspect of the religious festival is central and allows the reader to get to know other sides of Greece than the picture that today dominates the news resulting from the economic crisis with which the country has struggled for several years **Competing Ideologies in the Late Ottoman Empire and Early Turkish Republic** Ahmet Seyhun, 2021-01-14 The second constitutional period of the Ottoman Empire and the early decades of the Turkish republic were a hotbed of new and competing ideas which were to dramatically shape the development of the modern nation that followed This book includes translations of and introductions to some of the key Turkish writers of the age including Namik Kemal Ziya G kalp Abdullah Cevdet and Ahmed Riza The writings of these Turkist Westernist and Islamist Ottoman and early republican thinkers are presented with contextualizing introductions which allow readers to access the primary texts which show the Turkish intellectual milieu out of which Mustafa Kemal s ideas were to emerge and ultimately dominate and will be of interest to students and scholars of Ottoman and Turkish History The Routledge Handbook of Ethnic Conflict Karl Cordell, Stefan Wolff, 2016-01-22 A definitive global survey of the interaction of ethnicity nationalism and politics this handbook blends rigorous theoretically grounded analysis with empirically rich illustrations to provide a state of the art overview of the contemporary debates on one of the most pervasive international security challenges today Fully updated for the second edition the book includes a new section which offers detailed analyses of contemporary cases of conflict such as in Ukraine Kosovo the African Great Lakes region and in the Kurdish areas across the Middle East thus providing accessible examples that bridge the gap between theory and practice The contributors offer a 360 degree perspective on ethnic conflict from the theoretical foundations of nationalism and ethnicity to the causes and consequences of ethnic conflict and to the various strategies adopted in response to it Without privileging any specific explanation of why ethnic conflict happens at a particular place and time or why attempts at preventing or settling it might fail or succeed The Routledge Handbook of Ethnic Conflict enables readers to gain a better insight into such defining moments in post Cold War international history as the disintegration of the Soviet Union and Yugoslavia and their respective consequences the genocide in Rwanda and the relative success of conflict settlement efforts in Northern Ireland By contributing to understanding the varied and multiple causes of ethnic conflicts and to learning from the successes and failures of their prevention and settlement the Handbook makes a powerful case that ethnic conflicts are neither unavoidable nor unresolvable but rather that they require careful analysis and thoughtful and measured responses *International Relations and the Limits of Political Theory* Howard Williams, 2016-07-27 This book shows how the traditional concerns of

political theory push it increasingly into the study of international relations This is done first by demonstrating how many of the issues usually dealt with by political theory such as democracy and justice arise within an increasingly global context and secondly by considering how international issues such as colonialism and war are best illuminated by building on the work of political theorists The book suggests that political theory and international relations theory can now both be successfully engaged in as a joint enterprise only

Pahlavi Iran and the Politics of Occidentalism Zhand Shakibi, 2019-12-12 Zhand Shakibi presents a new interpretation of the political and social dynamics of the last decade of the Shah's rule that challenges the binary view of pro West Shah and anti West Ayatollah by drawing attention to the Pahlavi state's reaction to the intellectual and societal backlash against cultural and moral Occidentalism in its last decade Revising the dominant historiography of the Pahlavi ideological and discursive approach to the West this book draws attention to the changes in the attitude of the Shah the Empress and state intellectuals towards the position and imagery of the West in state conceptions of the authenticity of Iranian national culture and identity Drawing on a wide range of primary sources Shakibi presents the multi faceted relationship of the Pahlavi state to the West and the institutions that were created to manage this such as the

Rastakhiz Party This study argues that the Pahlavi state having recognized this backlash attempted to limit the threat to its legitimacy by reformulating intellectual discourses of anti West Occidentalism and incorporating them into the ideology of the Rastakhiz Party In so doing it played a critical role in exacerbating societal sensitivities about the spread of Western influences

Protestant Liberty James M. Forbes, 2022-08-15 Tensions between Protestantism and Catholicism dominated politics in nineteenth century Canada occasionally erupting into violence While some liberal politicians and community leaders believed that equal treatment of Protestants and Catholics would defuse these ancient quarrels other Protestant liberals perceived a battle for the soul of the nation *Protestant Liberty* offers a new interpretation of nineteenth century liberalism by re-examining the role of religion in Canadian politics While this era's liberal thought is often characterized as being neutral toward religion James Forbes argues that the origins of Canadian liberalism were firmly rooted in the British tradition of Protestantism and were based on the premise of guarding against the advance of supposedly illiberal faiths especially Catholicism After the union of Upper Canada with predominantly French Catholic Lower Canada in 1840 this Protestant ideal of liberty came into conflict with a more neutral alternative that sought to strip liberalism of its religious associations in order to appeal to Catholic voters and allies In a decisive break from their Protestant heritage these liberals redefined their ideology in secular materialist terms by emphasizing free trade and private property over faith and culture In tracing how the Confederation generation competed to establish a unifying vision for the nation *Protestant Liberty* reveals religion and religious differences at the centre of this story
