H. R. Horsley, Stephen Llewelyn, 1997-12-02 This fifth volume of New documents illustrating early Christianity is different in conception from its predecessors It focuses on several questions concerning the linguistic analysis of the New Testament from the particular perspective of the usefulness of the documentary sources for such study Back cover Latin Linguistics Wolfgang David Cirilo de Melo, 2023-12-18 Latin Linguistics is intended as an

overview of the main areas of linguistics geared specifically to the scholar of Latin The book consists of eight chapters an introduction followed by discussions of phonology morphology syntax variation linguistics pragmatics and sociolinguistics with a final chapter discussing texts from three different periods to demonstrate how linguistic analysis can deepen our understanding of Latin Most introductions to phonology cover a range of theories such as Autosegmental Phonology or Optimality Theory these contribute relatively little to our understanding of Latin as such On the other hand a Latinist needs to know how we can reconstruct pronunciation what the limits of reconstruction are and how closely orthography mirrors pronunciation My chapter on phonology deals with these aspects The same can be said mutatis mutandis for the other chapters What makes this book unique then is the fact that it covers a wide range of topics in a deliberately selective way tailored to the needs of Latinists

Community Rick Wadholm Jr., Meghan D.

Musy,2022-04-12 Community provides a constructive collection of essays offering biblical and theological reflections on the topic of community in honor of the Mennonite Old Testament scholar August H Konkel s seventieth birthday As such Community follows the trajectory of Gus s own myriad contributions to scholarship that have been intentionally engaged both on behalf of and as a lively and constructive member of such community These essays present forays across the spectrum of biblical and theological studies that intersect with the many contributions of Gus s life work **Magic in the Biblical World** Todd Klutz,2004-03-01 The category magic long used to signify an allegedly substantive type of activity distinguishable from religion has nearly been dismantled by recent historical and social scientific approaches to religious studies While recognising and at times reinforcing this stance the essays in this collection show that there is still much to be learned about the cultural context of early Judaism and Christianity by analysing ancient texts which either use magic as a category for purposes of deviance labelling or promote behaviour of a broadly magico religious variety Through sustained engagement with texts ranging from Exod 7 9 and Acts 8 to the Testament of Solomon and the Late Antique alchemical treatise known as the Cyranides this volume focuses chiefly on materials that challenge the familiar boundaries between miracle and magic and medicine yet it also heightens awareness of the way unsuspecting use of a sick sign e g magic can impede critical understanding of texts and their respective contexts of production and reception Journal for the Study of the New Testament Supplement Series Volume 245 **Nautica Talmudica** Daniel Sperber,2023-08-14 *An Index to Novum Testamentum Volumes 1-35* Watson E. North,2020-07-22 In this book Wendy E S North investigates whether or not the author of John could have crafted his Gospel with knowledge of the Synoptics Unlike previous approaches which have usually treated the Gospel according to John purely as a piece of literature this book undertakes a fresh approach by examining how John s author reworks material that can be identified within his own text and also in the Jewish Scriptures An assessment of these

techniques allows North then to compare the Gospel of John with its Synoptic equivalents and to conclude at last that John indeed worked with the knowledge of the Synoptic texts at certain points      *Lexical Dependence and Intertextual Allusion in the Septuagint of the Twelve Prophets* Myrto Theodorou, 2012-05-24 This book explores various aspects of intertextuality in the LXX Twelve Prophets with a special emphasis on Hosea Amos and Micah Divided into five parts the first introduces the topic of intertextuality discusses issues relating to the Twelve Prophets and their translator and concludes with various methodological considerations Chapter two deals initially with the lexical sourcing of the prophets in their Hellenistic milieu and tests proposed theories of influence from the Pentateuch The rest of the book examines specific cases from the books of Hosea Amos and Micah The third chapter deals with standard expressions used by the translator even in places where the Hebrew does not correspond The fourth chapter investigates the use of catchwords that the Greek translator identified in his Hebrew Vorlage and that function for him as links between two or more texts Finally the fifth chapter examines cases where the translator understands the text to be alluding to specific biblical stories events and characters of particular interest in Hellenistic Judaism      **Eubulus** Eubulus, 2004-08-05 This is the first modern critical edition of the fragments of Euculus
