As gaining access to and conducting interviews especially with active jihadists often differs from standard interviews much of the data were collected in a gray zone between more formal interviewing and ethnographic research The empirical material which is based on interviews with active and former jihadists is unique Moreover the methodological reflections are unprecedented and the project offers new analytical insights into jihadism with a focus on how jihadism and jihadists change

America's War against Global Jihad William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington's counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad's words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats **Jihad's New Heartlands** Gabriel G.

The Apocalypse and the End of History Suzanne Schneider, 2021-09-07 In this authoritative accessible study historian Suzanne Schneider examines the politics and ideology of the Islamic State better known as ISIS Schneider argues that today s jihad is not the residue from a less enlightened time nor does it have much in common with its classical or medieval form but it does bear a striking resemblance to the reactionary political formations and acts of spectacular violence that are upending life in Western democracies From authoritarian populism to mass shootings xenophobic nationalism and the allure of conspiratorial thinking Schneider argues that modern jihad is not the antithesis of neoliberalism but rather a dark reflection of its inner logic The Apocalypse and the End of History is written with the sensibility of a political theorist and based on extensive research into a wide range of sources from Islamic jurisprudence to popular recruitment videos contemporary apocalyptic literature and the Islamic State s Arabic language publications The book explores modern jihad as an image of a potential dark future already heralded by neoliberal modes of life Surveying ideas of the state violence identity and political community Schneider argues that modern jihad and neoliberalism are two versions of a politics of failure the inability to imagine a better life here on earth

Ancient Religions, Modern Politics Michael A. Cook, 2016-12-06 Why Islam is more political and fundamentalist than other religions Why does Islam play a larger role in contemporary politics than other religions Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life If so what is it Ancient Religions Modern Politics seeks to answer these questions by examining the roles of Islam Hinduism and Christianity in modern political life placing special emphasis on the relevance or irrelevance of their heritages to today s social and political concerns Michael Cook takes an in depth comparative look at political identity social values attitudes to warfare views about the role of religion in various cultural domains and conceptions of the polity In all these fields he finds that the Islamic heritage offers richer resources for those engaged in current politics than either the Hindu or the Christian heritages He uses this finding to explain the fact that despite the existence of Hindu and Christian counterparts to some aspects of Islamism the phenomenon as a whole is unique in the world today The book also shows that fundamentalism in the sense of a

determination to return to the original sources of the religion is politically more adaptive for Muslims than it is for Hindus or Christians A sweeping comparative analysis by one of the world s leading scholars of premodern Islam Ancient Religions Modern Politics sheds important light on the relationship between the foundational texts of these three great religious traditions and the politics of their followers today

Heaven on Earth Richard Landes,2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a cultural universal but also an extremely

adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad Heaven on Earth both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today
