

A high-angle, close-up photograph of a workspace. In the upper left, a white ceramic mug is filled with dark coffee. To its right, a pair of thin-framed glasses lies on a dark, textured surface. Below these items, a newspaper is spread out, featuring the word "JOBS" in large, bold, black capital letters. A thick black diagonal line is drawn across the newspaper page, separating the headline from the columns of text below. The text in the columns is blurred and illegible. The overall lighting is soft, and the color palette is dominated by the dark surface, the white mug, and the black text.

[The Cambridge Handbook of the Changing Nature of Work](#) Brian J. Hoffman,Mindy K. Shoss,Lauren

A. Wegman, 2020-04-23 This handbook provides an overview of the research on the changing nature of work and workers by marshalling interdisciplinary research to summarize the empirical evidence and provide documentation of what has actually changed. Connections are explored between the changing nature of work and macro level trends in technological change, income inequality, global labor markets, labor unions, organizational forms, and skill polarization among others. This edited volume also reviews evidence for changes in workers including generational change or lack thereof that has accumulated across domains. Based on documented changes in work and worker behavior, the handbook derives implications for a range of management functions such as selection, performance management, leadership, workplace ethics, and employee well-being. This evaluation of the extent of changes and their impact gives guidance on what best practices should be put in place to harness these developments to achieve success.

Identity as a Foundation for Human Resource Development Kate Black, Russell Warhurst, Sandra Corlett, 2017-08-25 Human Resource Development (HRD) involves the design, delivery, and evaluation of learning and/or training interventions within organisations to improve the work performance of individuals and groups. This edited collection will demonstrate the potential of identity theorising for problematizing and reconceptualising HRD activities. Identity will thus be established as a foundation for enhancing HRD policy and practice. While identity has emerged as a key focus for theoretical debate and for empirical research within management and organisational studies, the potential of identity as a new paradigm for understanding learning and for examining HRD more broadly is still emergent. That identity has such potential can be seen in the increasing recognition that training and development for many contemporary occupations represents nothing less than a project of the self. Identity as a Foundation for Human Resource Development will complete a gap in the market providing sound, single source theoretical foundations from the latest trends in identity theorising, now a key area of organisation studies, and apply these to HRD policy and practice. The emphasis throughout will be on informing HRD policy and practice research and education. The book includes a chapter on resources and techniques for HRD educators. In short, the book will put identity to work for HRD scholars. The intended audiences are Human Resource Development scholars, academics, students, and professionals. This exciting new volume will provide a thoughtful theoretical analysis and operational practice for modern HRD.

Politics and Economic Development in North-East India Komol Singha, M. Amarjeet Singh, 2014-01-01 India's North Eastern Region is the home to different indigenous communities and socio-economic condition of these communities is relatively weaker than the average national level. Besides the weak physical, social and economic infrastructures etc., they are primarily the victims of human rights violations in one form or the other. Ethnic social and political problems have plagued and slowed down the region's development processes. Therefore, a multi-faceted mechanism is highly recommended to overcome the complex issues of these traditional communities. With these understandings, the present volume *Identity Politics and Economic Development in North East India* consists of 23 essays exploring the issues of socio-economic, political and cultural dimension of the region. Also, the essays try to explore the difficulties faced by the traditional communities, mainly community uprisings and human rights violations, and the contributors through their academic discourses explored some probable ways and means to overcome the difficulties.
