Reconstructing Modernism Ashley Maher, 2020-03-12 Reconstructing Modernism establishes for the first time the centrality of modernist buildings and architectural periodicals to British mid century literature Drawing upon a wealth of previously unexplored architectural criticism by British authors this book reveals how arguments about architecture led to innovations in literature as well as to redesigns in the concept of modernism itself While the city has long been a focus of literary modernist studies

architectural modernism has never had its due Scholars usually characterize architectural modernism as a parallel modernism or even an incompatible modernism to literature Giving special attention to dystopian classics Brave New World and Nineteen Eighty Four this study argues that sustained attention to modern architecture shaped mid century authors political and aesthetic commitments After many writers deemed modernist architects to be agents for communism and other collectivist movements they squared themselves and literary modernist detachment and aesthetic autonomy against the seemingly tyrannical utopianism of modern architecture literary aesthetic qualities were reclaimed as political qualities In this way Reconstructing Modernism redraws the boundaries of literary modernist studies rather than simply adding to its canon it argues that the responsibility for defining literary modernism for the mid century public was shared by an incredible variety of authors Edwardians modernists satirists and even anti modernists *The New Monthly Magazine and Literary Journal* ,1882 **The American Crucible** Robin Blackburn,2013-08-06 For over three centuries slavery in the Americas fuelled the growth of capitalism But the stirrings of a revolutionary age in the late eighteenth century challenged this peculiar institution and set the scene for great acts of emancipation in Haiti in 1804 in the United States in the 1860s and Brazil in the 1880s Blackburn argues that the anti slavery movement helped forge the political and social ideals we live by today 5: *Poetry* Kolski Horwitz,2001-12-29 Poems by Kobus Moolman Mphutlane wa Bofelo Clinton du Plessis Gillian Schutte and Lionel Murcott another unholy assemblage of voices and hands and thoughts All five have since matured and continued to publish but these relatively early examples of their work certainly show how well formed they were and that subsequent work has been a relatively natural progression **An Old Testament Theology** Bruce K. Waltke,2011-04-19 The Old Testament is more than a religious history of the nation of Israel It is more than a portrait gallery of heroes of the faith It is even more than a theological and prophetic backdrop to the New Testament Beyond these the Old Testament is inspired revelation of the very nature character and works of God As renowned Old Testament scholar Bruce Waltke writes in the preface of this book the Old Testament s every sentence is fraught with theology worthy of reflection This book is the result of decades of reflection informed by an extensive knowledge of the Hebrew language the best of critical scholarship a deep understanding of both the content and spirit of the Old Testament and a thoroughly evangelical conviction Taking a narrative chronological approach to the text Waltke employs rhetorical criticism to illuminate the theologies of the biblical narrators Through careful study he shows that the unifying theme of the Old Testament is the breaking in of the kingdom of God This theme helps the reader better understand not only the Old Testament but also the New Testament the continuity of the entire Bible and ultimately God himself **Exporting Democracy** Sophia Z Kovachevich,2022-05-05 The world is in ferment The situation of today s world is at its worst There is trouble in every part of the world We were supposed to have peace and prosperity at the end of the Great Wars And for a few decades we did The Cold War kept peace of sorts and no major wars were fought But it all changed with the collapse of the USSR We lost the balance of power and only USA

dominated At the moment there are wars all over the world on every continent it is the super powers attacking small nations The excuses are taking democracy to those countries by force through war or war on terror We are terrorising small nations in the name of ending terror by bringing not only terror but also death destruction and annihilation in our wake This book sets out to comprehensively look at the reasons behind the present condition of the world today It looks to uncover if there is any real democracy in the world today and the types of democracy available to us Not everything is suited to everyone We certainly do not want totalitarian rule in the name of democracy But that is the way we are going It is time to stop Take stock and decide do we want a better world or do we want to destroy this world Perhaps we are the final throes of our civilisation and don't even realise it
