Inspiring Thoughts Of Sonia Gandhi Mishra,2010-08 **Dirty Entanglements** Louise I. Shelley,2014-07-28 Using lively case studies this book analyzes the transformation of crime and terrorism and the business logic of terrorism My Memoirs Majeed Memon - Sr.Advocate,2025-02-13 My Memoirs offers a profound look into his remarkable legal career and unique professional journey coinciding with significant times in our country s history The book delves into his experiences in the courtroom empathy for the common man and his impactful tenure in the Rajya Sabha Additionally the book also aims to hook its readers through Mr Memon s insights and narratives from some of India s most historic and influential legal cases Mr Memon s unique dual identity as both a legal luminary and a poet A reflective piece on Indian judicial history filled with personal anecdotes and professional milestones *The Bollywood Reader* Dudrah, Rajinder,Desai, Jigna,2008-10-01 Provides a road map of the scholarship on modern Hindi cinema in India with an emphasis on understanding the interplay between cinema and colonialism nationalism and globalization This book attends to issues of capitalism nationalism orientalism and modernity through understandings of race gender and sexuality religion and politics **Menace to Society** Roy Godson,2017-12-02 One of the more dangerous contemporary threats to the quality of life is the collaboration of the political establishment with the criminal underworld the political criminal nexus PCN This active partnership increasingly undermines the rule of law human rights and economic development in many parts of the world States in transition are especially at risk Despite the magnitude of the threat there is little understanding of the security threats by the PCNs and

how and why political criminal relationships are formed and maintained Menace to Society is the first attempt to develop an analytical framework for making generalizations about this contemporary scourge Case studies of Colombia Hong Kong Taiwan Italy Mexico Nigeria Russia and Ukraine and the United States by leading scholars and practitioners included here answer such key questions as How do PCNs get established How is a PCN maintained and destroyed What do the participants want from each other in a PCN What can be learned from those who have successfully countered the PCN The findings indicate that political economic and cultural factors play a significant role in the formation and evolution of PCNs When the institutions of the state are weak as in Nigeria and Colombia it is difficult for the state to prevent political criminal collaboration A lack of checks and balances either from civil society or opposition political parties such as described in the cases of Mexico and Russia is a key factor Cultural patterns tend to facilitate this kind of collaboration Markets and economics too bear on the PCN issue The supply and demand for illegal goods and services not only drugs in many countries creates a market controlled by criminals who need political help to run their business Menace to Society will be critical reading for security planners foreign and military policymakers and political scientists

Parliament. House of the People, India. Parliament. Lok Sabha, 2003-12 The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and

narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly
