Nicaragua A New Kind Of Revolution:

Nicaragua Philip Zwerling, Connie Martin, 1985 Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process A Hispanic Heritage, Series III Isabel Schon, 1988 The books listed are intended to provide students in kindergarten through high school with an understanding and appreciation of the people history and art and political social and economic problems of Argentina Bolivia Chile Colombia Costa Rica Cuba Ecuador El Salvador Guatemala Honduras Mexico Nicaragua Panama Peru Puerto Rico Spain Venezuela and the Hispanic heritage people of the US Annotation copyrighted by Book News Inc Portland OR *Revolution, Revival, and Religious Conflict in Sandinista Nicaragua* Calvin L. Smith, 2007-03-31 This interdisciplinary study breaks new ground by exploring relations between Protestants mainly Pentecostals and the Sandinistas in revolutionary Nicaragua which to date have received scant attention It challenges the view that most Protestants supported the Sandinistas in fact the majority vigorously opposed them and establishes why many believed Nicaragua was heading towards communism or totalitarianism Meanwhile the Sandinistas expressed irritation with Pentecostalism s otherworldliness and support for Israel Pentecostals were harassed even brutally repressed in the northern highlands leading many to join the Contras That a minority of Protestants supported the Sandinistas caused further problems Pentecostals and Sandinistas were ideological rivals offering an alternative vision to the poor revolution or revival As Pentecostalism exploded a collision between the two was inevitable After-School Theatre Programs for At-Risk Teenagers Philip Zwerling, 2024-10-15 Where intervention programs such as D A R E and Scared Straight have failed to adequately address the problems of at risk teenagers inexpensive and easily implemented after school

theatre programs may offer promising new possibilities This book suggests that low cost non coercive theatre programs can demonstrably lower the incidence of youth violence drug use teen pregnancy truancy and gang membership The author considers the problems facing today s teenagers discusses the history of using theatre for social change in the United States and Britain and takes an in depth look at three U S theatre programs An appendix provides an alphabetical directory of 106 after school theatre programs in the U S including contact information and a brief description of each program Beyond El Barrio Gina M. Pérez, Frank Guridy, Adrian Burgos, 2010-10-24 Freighted with meaning el barrio is both place and metaphor for Latino populations in the United States Though it has symbolized both marginalization and robust and empowered communities the construct of el barrio has often reproduced static understandings of Latino life they fail to account for recent demographic shifts in urban centers such as New York Chicago Miami and Los Angeles and in areas outside of these historic communities Beyond El Barrio features new scholarship that critically interrogates how Latinos are portrayed in media public policy and popular culture as well as the material conditions in which different Latino o groups build meaningful communities both within and across national affiliations Drawing from history media studies cultural studies and anthropology the contributors illustrate how despite the hypervisibility of Latinos and Latin American immigrants in recent political debates and popular culture the daily lives of America s new majority minority remain largely invisible and mischaracterized Taken together these essays provide analyses that not only defy stubborn stereotypes but also present novel narratives of Latino o communities that do not fit within recognizable categories In this way this book helps us to move beyond el barrio beyond stereotype and stigmatizing tropes as well as nostalgic and uncritical portraits of complex and heterogeneous range of Latino o lives A Call to Conscience Roger Craft Peace, 2012 Unlike earlier U S interventions in Latin America the Reagan administration s attempt to overthrow the Sandinista government of Nicaragua during the 1980s was not allowed to proceed quietly Tens of thousands of American citizens organized and agitated against U S aid to the counterrevolutionary guerrillas known as contras Believing the Contra War to be unnecessary immoral and illegal they challenged the administration s Cold War stereotypes warned of another Vietnam and called on the United States to abide by international norms A Call to Conscience offers the first comprehensive history of the anti Contra War campaign and its Nicaragua connections Roger Peace places this eight year campaign in the context of previous American interventions in Latin America the Cold War and other grassroots oppositional movements Based on interviews with American and Nicaraguan citizens and leaders archival records of activist organizations and official government documents this book reveals activist motivations analyzes the organizational dynamics of the anti Contra War campaign and contrasts perceptions of the campaign in Managua and Washington Peace shows how a variety of civic groups and networks religious leftist peace veteran labor women s rights worked together in a decentralized campaign that involved extensive transnational cooperation Sandinista Narratives Jean-Pierre Reed, 2020-10-21 Sandinista Narratives is an analysis of the role of agency in the

Nicaraguan Revolution and its aftermath Jean Pierre Reed argues that the insurrection in Nicaragua was shaped by political contingency action specific subjectivity and popular culture He also examines how Sandinista ideology contributed to state building in Nicaragua while tracing the role of post revolutionary Sandinismo as a political identity Radical Thought In Central America Sheldon B Liss,2019-07-11 Central American pensadores have interpreted the theories of Marx and other scholars of revolution in diverse ways In this book Sheldon Liss examines the political theory and ideology of some of Central America s most important radical thinkers including non Marxists and demonstrates how they have challenged the tenets of imperialism and capitalism Chapters on individual Central American countries begin with brief historical introductions that emphasize the rise of radical activities and organizations Individual essays based on published writings interviews and scholarly analyses of their works then establish each writer s personal ideology social and political goals and theories of society state and institutions of power Liss also examines their relationship to social and political movements and contributions to the national intellectual life of the past and present In addition Liss discusses the writers understanding of the role of the United States in the Americas and beliefs about national struggles for independence By focusing on political and social theory and on intellectual history this book also provides the background critical for understanding recent developments and changes in Central America *The Heart of the Mission* Cary Cordova,2017-05-04 An illustrated in depth examintion of the avant garde and politically radical Latino art of San Francisco s Mission District In *The Heart of the Mission* Cary Cordova combines urban political and art history to examine how the Mission District a longtime bohemian enclave in San Francisco has served as an important place for an influential and largely ignored Latino arts movement from the 1960s to the present Well before the anointment of the Mission School by art world arbiters at the dawn of the twenty first century Latino artists writers poets playwrights performers and filmmakers made the Mission their home and their muse The Mission home to Chileans Cubans Guatemalans Mexican Americans Nicaraguans Puerto Ricans and Salvadorans never represented a single Latino identity In tracing the experiences of a diverse group of Latino artists from the 1940s to the turn of the century Cordova connects wide ranging aesthetics to a variety of social movements and activist interventions The book begins with the history of the Latin Quarter in the 1940s and the subsequent cultivation of the Beat counterculture in the 1950s demonstrating how these decades laid the groundwork for the artistic and political renaissance that followed Using oral histories visual culture and archival research she analyzes the Latin jazz scene of the 1940s Latino involvement in the avant garde of the 1950s the Chicano movement and Third World movements of the 1960s the community mural movement of the 1970s the transnational liberation movements in Nicaragua and El Salvador and the AIDS activism of the 1980s Through these different historical frames Cordova links the creation of Latino art with a flowering of Latino politics *The Oxford Handbook of Central American History* Robert H. Holden,2022 Leading scholars of Central America offer critical analyses of major themes in the historiography of this seven country region of Latin America Chapters engage both the

novice's search for basic orientation and context and the experienced scholar's interest in evaluative critiques of the historical literature

Reordering of Culture Alvina Roberta Ruprecht, Cecilia Taiana, 1995 Political economic and social barriers among Latin America, the Caribbean and Canada are giving way to global forces and the global dreams they inspire. This collection of original articles and essays examines popular culture, literature, theatre, belief systems, indigenous practices and questions of identity, exile and alienation. The interconnectedness and distinction of cultural production throughout the Americas, transplanted interests, the mediation of African and European influences and the expression of shifting identities all reflect the development of a new American neighbourhood.

The CIA on Campus Philip Zwerling, 2011-09-05 Former CIA Personnel Director F W M Janney once wrote: "It is absolutely essential that the Agency have available to it the greatest single source of expertise: the American academic community." To this end, the Central Intelligence Agency has poured tens of millions of dollars into universities to influence research and enlist students and faculty members into its ranks. This collection of nine essays from diverse academic fields explores the pernicious penetration of intelligence services into U.S. campus life to exploit academic study, recruit students, skew publications, influence professional advancement, misinform the public and spy on professors. With its exhaustive list of CIA misdeeds and myriad suggestions for combatting the subversion of academic independence, this work provides a wake-up call for students and faculty across the country.

Mae Mallory, the Monroe Defense Committee, and World Revolutions Paula Marie Seniors, 2024-04-01 This book explores the significant contributions of African American women radical activists from 1955 to 1995. It examines the 1961 case of African American working class self-defense advocate Mae Mallory, who traveled from New York to Monroe, North Carolina, to provide support and weapons to the Negroes with Guns Movement. Accused of kidnapping a Ku Klux Klan couple, she spent thirteen months in a Cleveland jail facing extradition. African American women radical activists Ethel Azalea Johnson of Negroes with Guns, Audrey Proctor Seniors of the banned New Orleans NAACP, the Trotskyist Workers World Party, Ruthie Stone and Clarence Henry Seniors of Workers World founded the Monroe Defense Committee to support Mallory. Mae's daughter Pat, aged sixteen, also participated and they all bonded as family. When the case ended, they joined the Tanzanian, Grenadian and Nicaraguan World Revolutions. Using her unique vantage point as Audrey Proctor Seniors's daughter, Paula Marie Seniors blends personal accounts with theoretical frameworks of organic intellectual, community feminism and several other theoretical frameworks in analyzing African American radical women's activism in this era. Essential biographical and character narratives are combined with an analysis of the social and political movements of the era and their historical significance. Seniors examines the link between Mallory Johnson and Proctor Seniors's radical activism and their connections to national and international leftist human rights movements and organizations. She asks the underlying question: Why did these women choose radical activism and align themselves with revolutionary governments linking Black human rights to world revolutions? Seniors's historical and personal account of the era aims to recover Black women radical activists' place in

history Her innovative research and compelling storytelling broaden our knowledge of these activists and their political movements

Revolution And Foreign Policy In Nicaragua Mary Vanderlaan, 2019-06-18 Since the revolution in 1979 Nicaragua has faced economic dislocation a growing debt chronic hard currency shortages a counter revolutionary war economic and diplomatic pressure from the US and regional isolation In spite of these challenging problems the Sandinista leadership maintaining a broad array of international contacts continues

Nicaragua's Other Revolution Michael Dodson, Laura Nuzzi O'Shaughnessy, 2000-11-09 The 1979 rebellion in Nicaragua was the first in modern Latin America to be carried out with the active participation and support of Christians Like all revolutions the Nicaraguan Revolution has provoked controversy and hostility and the Christian presence has been a focal point in the debate In this work Michael Dodson and Laura Nuzzi O'Shaughnessy offer a detailed study of the religious sources of the revolution set against the background of the revolutionary traditions of the United States Nicaragua's Other Revolution places the experience of the Nicaraguan Revolution in a historical framework that extends back to the Protestant Reformation and in an institutional framework that encompasses the whole of Nicaraguan politics Examining the broad process of religious change this work explores how that process interacted with the political struggles that culminated in the revolution Dodson and O'Shaughnessy conclude that the religious values and attitudes arising out of postconciliar renewal in the church contributed powerfully to demands for revolutionary change in Nicaragua In England and America the Protestant Reformation gave a tremendous boost to demands for democratic changes in society and politics This work shows that something similar happened in Catholic Central America in the post Medellin period Changes in religious thought and action were part of and served to reinforce and stimulate a wider movement for social and political change Without denying the importance of Marxism the authors demonstrate that other important influences are at work there Originally published in
