evolved along with the dimensions and variables that better represent its spatial distribution. This is one of the original points of the book: the temporal study of the living conditions of the Argentine population empirically and spatially, emphasizing their territorial representation. Although the book maintains the same socioeconomic dimensions (education, health, and housing), the tour through the different chapters offers a historical window that allows the reader to know what the forms of information collection were like in different historical moments. This book is written for geographers and members of the scientific community interested in the study of the well-being of the population. It also allows us to observe the evolution of the quality of life from the 19th century to the 21st, so it may be of interest to historians as well.

***Science and Catholicism in Argentina (1750–1960)*** Miguel de Asúa, 2022-05-09. *Science and Catholicism in Argentina 1750–1960* is the first comprehensive study on the relationship between science and religion in a Spanish-speaking country with a Catholic majority and a Latin pattern of secularisation. The text takes the reader from Jesuit missionary science in colonial times through the conflict-ridden 19th century to the Catholic revival of the 1930s in Argentina. The diverse interactions between science and religion revealed in this analysis can be organised in terms of their dynamic of secularisation. The indissoluble identification of science and the secular, which operated at rhetorical and institutional levels among the liberal elite and the socialists in the 19th century, lost part of its force with the emergence of Catholic scientists in the course of the 20th century. In agreement with current views that deny science the role as the driving force of secularisation, this historical study concludes that it was the process of secularisation that shaped the interplay between religion and science, not the other way around.

***Argentina's Radical Party and Popular Mobilization, 1916–1930*** Joel Horowitz, 2010-11-01. **Transformations and Crisis of Liberalism in Argentina, 1930–1955** Jorge A. Nállim, 2014-08-14. Nállim chronicles the decline of liberalism in Argentina during the volatile period between two military coups: the 1930 overthrow of Hipólito Yrigoyen and the deposing of Juan Perón in 1955. While historians have primarily focused on liberalism in economic or political contexts, Nállim instead documents a wide range of locations where liberalism was claimed and ultimately marginalized in the pursuit of individual agendas. Nállim shows how concepts of liberalism were espoused by various groups who invented traditions to legitimize their methods of political, religious, class, intellectual, or cultural hegemony. In these deeply fractured and corrupt processes, liberalism lost political favor and alienated the public. These events also set the table for Peronism and stifled the future of progressive liberalism in Argentina. Nállim describes the main political parties of the period and deconstructs their liberal discourses. He also examines major cultural institutions and shows how each attached liberalism to their cause. Nállim compares and contrasts the events in Argentina to those in other Latin American nations and reveals their links to international developments. While critics have positioned the rhetoric of liberalism during this period as one of decadence or irrelevance, Nállim instead shows it to be a vital and complex factor in the metamorphosis of modern history in Argentina and Latin America as well.

*A Woman, a Man, a Nation* Jeffrey M. Shumway, 2019-11-01 In 1837 Mariquita Sánchez de Mendeville was so fed up with governor Juan Manuel de Rosas that she chose to leave her beloved city of Buenos Aires Leaving was especially hard because Mariquita felt that she had played an influential role in transforming Buenos Aires from a Spanish colonial outpost into a brilliant capital in a world of republics

Juan Manuel de Rosas's version of order alienated Mariquita who chose self-imposed exile in Montevideo over living under Rosas's stifling rule. The struggle went on for nearly two decades until Mariquita finally came home for good in 1852 while Rosas went into exile. Mariquita's and Juan Manuel's lives corresponded with the major events and processes that shaped the turbulent beginnings of the Argentine nation, many of which also shaped Latin America and the Atlantic World during the Age of Revolution 1750-1850. Their lives provide an overarching narrative for Argentine history that both scholars and students will find intriguing.
