Nunca Mas A Report By Argentinas National Commission On Disappeared People:

The Memory of the Argentina Disappearances Emilio Crenzel, 2012-01-30 This book is an examination of the history of the Nunca Mas report issued by Argentina's National Commission on the Disappearance of Persons established to investigate the disappearances perpetrated by state in the 1970s. Given the canonical nature of Nunca Mas it sheds light on Argentina's social memory of its violent past.

Nunca Más Argentina. Comisión Nacional sobre la Desaparición de Personas, Report of the Argentinian National Commission on the Disappearance of Persons. The commission has presided over hearings of thousands of cases of abduction, disappearance, torture, and executions. Every individual case was documented in a numbered file. It compiled over 50,000 pages of documentation. A shocking summary was published as an official report in Spanish in 1984. Faced with the thousands of testimonies and horrific facts, the commission concluded with a set of recommendations to pursue legal action against the responsible. The report of the commission is also available online in Spanish. While the report explicitly states that the documented cases are by no means exhaustive and that many cases were most probably left unreported till this date, this report is the most extensive document available publicly.

approach that incorporates into the analysis of international relations the role of identities ideas and perceptions as well as of material forces and understands that the former are affected and changed during interaction It also uses to securitization theory to explain how issues come or cease to be considered security matters through social constructions Social Inequality & The Politics of Representation Celine-Marie Pascale,2013 This anthology critically analyzes how cultures around the world make social categories of race class gender and sexuality meaningful in particular ways The collection uses a wide range of readings to examine how contemporary issues of race class gender and sexuality are constructed mobilized and transformed Unlike many books in this area the U S is not analytical center **Praxis** Friedrich Kratochwil,2018-08-16 Presents a shift from the accepted international relations standard of theorizing by analyzing policy decisions made in non ideal conditions within a broader framework of practical choices emphasizing both historicity and contingency as exemplified by changing practices in the international arena **The Politics of Truth and Reconciliation in South Africa** Richard Wilson,2001-05-02 The South African Truth and Reconciliation Commission TRC was set up to deal with the human rights violations of apartheid during the years 1960 1994 However as Wilson shows the TRC s restorative justice approach to healing the nation did not always serve the needs of communities at a local level Based on extended anthropological fieldwork this book illustrates the impact of the TRC in urban African communities in Johannesburg While a religious constituency largely embraced the commission s religious redemptive language of reconciliation Wilson argues that the TRC had little effect on popular ideas of justice as retribution This provocative study deepens our understanding of post apartheid South Africa and the use of human rights discourse It ends on a call for more cautious and realistic expectations about what human rights institutions can achieve in democratizing countries *The South America Handbook* Patrick Heenan,Monique Lamontagne,2014-01-27 First Published in 2002 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter discussing the region s economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region s economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index The Coming World Government: Tragedy & Hope? numerous illegal measures states use from unlawful imprisonment and curtailing of civil liberties to torture in the name of responding to terrorism At the same time it considers how trade and industrial activities terrorize people by depriving them of the natural resources they need to survive and by exposing communities to life threatening hazardous conditions

Human Rights and Statistics Thomas B. Jabine, Richard Pierre Claude, 1992 Violations Judith Dueck *Negotiating Gendered Discourses* Jane L. Christie, 2015-11-25 It has been argued that the first presidential campaign of Michelle Bachelet in Chile and Cristina Fernandez de Kirchner in Argentina used a rhetoric of newness Some political observers have said that as the first women to successfully run for the highest office in these countries they were presented as the new faces of democracy These observers argued that gender was not a determining factor in their electoral success but the focus on this first women frame did generate heavily gendered criticisms of these two candidates *Negotiating Gendered Discourses* addresses these views by asking how the gender factor is negotiated when women from the Southern Cone of Latin America run for high political office In particular Jane L Christie examines how Bachelet and Fernandez positioned themselves in relation to the numerous women led social movements and in doing so reveals points of intersection between these contemporary political discourses and existing sources of female authority when negotiating complicated ideological debates about human rights the economy and women's rights

National Identities and Socio-Political Changes in Latin America Antonio Gomez-Moriana, Mercedes Duran-Cogan, 2013-10-31 This study frames the social dynamics of Latin American in terms of two types of cultural momentum foundational momentum and the momentum of global order in contemporary Latin America

Responding to Human Rights Violations, 1946-1999 Katarina Tomaševski, 2021-10-05 This volume maps out the response of states to human rights violations It covers the period 1946-1999 and offers a complete and unmatched record for this period Its starting point is that such responses are not established and accepted state practice

Traditional if unwritten norms of states behaviour developed through centuries of silence and inaction the prevalent reaction to human rights violations by another state remains the absence of any response Furthermore this book probes into evidence of active and passive complicity by reviewing aid to countries in which violations have been taking place and diplomatic initiatives undertaken to shield violators from public opprobrium Since international law is generated through state practice the book highlights the ongoing tussle between the pre 1946 heritage of silence and inaction and the 1946 1999 haphazard pattern of responses to violations **The Palgrave Encyclopedia of Peace and Conflict Studies** Oliver P.
