Oil and World Power (Routledge Revivals) Peter Odell, 2013-10-14 The oil industry is the world's largest commercial enterprise Its extent is global international issues are consistently influenced by considerations of oil production and consumption while the international communications networks of the larger oil companies rival those of many nations In this the eighth edition of *Oil and World Power* published in 1986 Peter Odell explains the complexities of this gigantic empire and its influence on the world The far reaching chapters discuss the U S A the Soviet Union O P E C Japan and the oil consuming countries of the developing world Evaluating the changing patterns of oil supply and the dramatic fall in oil prices in 1986 Odell proposes a number of forward thinking conclusions surrounding the relationship between oil in global politics and economic development This is an exceptionally interesting and relevant work of great value to those with an interest in the oil industry global power and international economic development

Oil and World Power Peter R. Odell, 1979

The United States and the Control of World Oil Edward H. Shaffer, 2016-03-02 This volume originally published in 1983 analyses the extent to which American dominance in world affairs is based on the control of oil resources and the changes which will inevitably take place with the end of the oil era The author concludes that the USA will be forced to take part in a struggle to control both the new sources of energy and the new technology which must be developed to make use of them

Oil and Development in the Arab Gulf States Walid I. Sharif, 2023-10-12 *Oil and Development in the Arab Gulf States* 1985 brings together in one volume the manifold sources of information on the Arab Gulf region especially the impact of oil revenues on its economic political and social development It provides a balanced core of primary and secondary sources on various aspects of the economics of Arab oil between 1973 and 1983

Energy Capitals Joseph A. Pratt, Martin V. Melosi, Kathleen A. Brosnan, 2015-03-23 Fossil fuels propelled industries and nations into the modern age and continue to powerfully influence economies and politics today As *Energy Capitals* demonstrates the discovery and exploitation of fossil fuels has proven to be a mixed blessing in many of the cities and regions where it has occurred With case studies from the United States Canada Mexico Norway Africa and Australia this volume views a range of older and more recent energy capitals contrasts their evolutions and explores why some capitals were able to influence global trends in energy production and distribution while others failed to control even their own destinies Chapters show how local and national politics social structures technological advantages education systems capital infrastructure labor force supply and demand and other factors have affected the ability of a region to develop and control its own fossil fuel reserves The contributors also view the environmental impact of energy industries and demonstrate how in

the depletion of reserves or a shift to new energy sources regions have or have not been able to recover economically The cities of Tampico Mexico and Port Gentil Gabon have seen their oil deposits exploited by international companies with little or nothing to show in return and at a high cost environmentally At the opposite extreme Houston Texas has witnessed great economic gain from its oil natural gas and petrochemical industries Its growth however has been tempered by the immense strain on infrastructure and the human transformation of the natural environment In another scenario Perth Australia Calgary Alberta and Stavanger Norway have benefitted as the closest established cities with administrative and financial assets for energy production that was developed hundreds of miles away Whether coal oil or natural gas the essays offer important lessons learned over time and future considerations for the best ways to capture the benefits of energy development while limiting the cost to local populations and environments
