White, 2022-09-22 This book reflects on how people over time have viewed the abandoned Roman city of Wroxeter in Shropshire It responds to three main artistic outputs poetry images and texts It explores what locals and visitors thought of the site over time and considers how access to the site has altered impacting on who visits and what is understood **Catalogue** Bernard Quaritch (Firm), 1906 The British Library General Catalogue of Printed Books 1976 to 1982 British Library, 1983 **The Connoisseur** ,1907 The Library World ,1904 *The Amateur Photographer & Photography* ,1927 **The Journal of the Photographic Society of London** ,1856 Containing the transactions of the Society and a general record of photographic art and science *The Photographic News* Sir William Crookes, George Wharton Simpson, 1907 *Making Dystopia* James Stevens Curl, 2018-08-23 In *Making Dystopia* distinguished architectural historian James Stevens Curl tells the story of the advent of architectural Modernism in the aftermath of the First World War its protagonists and its astonishing almost global acceptance after 1945 He argues forcefully that the triumph of architectural Modernism in the second half of the twentieth century led to massive destruction the creation of alien urban landscapes and a huge waste of resources Moreover the coming of Modernism was not an inevitable seamless evolution as many have insisted but a massive unparalleled disruption that demanded a clean slate and the elimination of all ornament decoration and choice Tracing the effects of the Modernist revolution in architecture to the present Stevens Curl argues that with each passing year so called iconic architecture by supposed star architects has become more and more bizarre unsettling and expensive ignoring established contexts and proving to be stratospherically remote from the aspirations and needs of humanity In the elite world of contemporary architecture form increasingly follows finance and in a society in which the haves have more and more and the have nots are ever more marginalized he warns that contemporary architecture continues to stack up huge potential problems for the future as housing costs spiral out of control resources are squandered on architectural bling and society fractures This courageous passionate deeply researched and profoundly argued book

should be read by everyone concerned with what is around us Its combative critique of the entire Modernist architectural project and its apologists will be highly controversial to many But it contains salutary warnings that we ignore at our peril And it asks awkward questions to which answers are long overdue
