

The book cover features a painting by Paul Serusier depicting four Breton women in a garden. One woman on the left is reaching for a flower on a tree, while another stands in the center holding a basket. A third woman is seated in the foreground, and a fourth is partially visible on the right. The scene is set under a large tree with a lattice trellis in the background. The painting style is characteristic of the Pont-Aven school, with visible brushstrokes and a rich, somewhat muted color palette.

Paul Sérusier Peintre De La Bretagne:

Bretons and Britons Barry Cunliffe, 2021-05-13 What is it about Brittany that makes it such a favourite destination for the British To answer this question Bretons and Britons explores the long history of the Bretons from the time of the first farmers around 5400 BC to the present and the very close relationship they have had with their British neighbours throughout this time More than simply a history of a people Bretons and Britons is also the author's homage to a country and a people he has come to admire over decades of engagement Underlying the story throughout is the tale of the Bretons' fierce struggle to maintain their distinctive identity As a peninsula people living on a westerly excrescence of Europe they were surrounded on three sides by the sea which gave them some protection from outside interference but their landward border was constantly threatened not only by succeeding waves of Romans Franks and Vikings but also by the growing power of the French state It was the sea that gave the Bretons strength and helped them in their struggle for independence They shared in the culture of Atlantic facing Europe and from the eighteenth century when a fascination for the Celts was beginning to sweep Europe they were able to present themselves as the direct successors of the ancient Celts along with the Cornish Welsh Scots and Irish This gave them a new strength and a new pride It is this spirit that is still very much alive today **Paul Sérusier,**
