

The Rift Between America and Old Europe

THE DISTRACTED EAGLE

Peter H. Merkl

Rift Between America And Old Europe

Nicholas Kerton-Johnson

Rift Between America And Old Europe:

The Rift Between America and Old Europe Peter Merkl, 2005-11-17 This new book explains the recent rift between America and some of her oldest European allies especially with Germany and France Particular attention is devoted to the several competing interpretations of the Euro American rift for example that Europeans were taken aback when American neo conservative leaders scornfully rejected their well meant offers of post 9 11 assistance with expressions of disdain for the allies backward military technology and budgets The Bush administration s rejection of the Kyoto Treaty its environmental stance and its position on international treaties are also examined in detail Merkl s interpretation emphasizes America s neo imperial unilateralist posture and policies as contrasted to the Wilsonian internationalism that created the United Nations and established international rule of law backed up by the Security Council a web of international treaties and international courts including the International Court of Criminal Justice Today s American leaders thus oppose European champions of an American initiated international order while identifying themselves with the imperialist European doctrines and practices of another age

The United States and Europe John Baylis, Jon Roper, 2007-01-24 A penetrating new examination of the triangular political and cultural relationship between America Britain and continental Europe This relationship is both fraught and dynamic Post war reconstruction of Europe brought integration Creating a United States of Europe was a goal shared by many Americans Yet the contemporary War on Terror has redefined relationships between America Britain old and new Europe For Britain the Channel seems wider than the Atlantic although geopolitically it is part of Europe This book brings together experts from Britain Europe and America to explore the complexities of contemporary cultural and political relationships considering the challenges that have been met and those that have to be faced

The EU, the UN and Collective Security Joachim Krause, Natalino Ronzitti, 2012 This book examines the effectiveness of multilateralism in ensuring collective security and in particular the EU s role in this process In 1992 shortly after the end of the Cold War a Security Council Summit in New York reaffirmed the salience of the system of collective security and stated the determination of the Heads of State to maintain it as the prime international instrument for preserving peace Twenty years later however the record of collective security as well as of multilateralism has not been very encouraging The system of collective security as enshrined in the United Nations UN Charter failed repeatedly to accomplish its mandate in the 1990s and has led to controversial debates in the United States and Europe that reached a climax during the Iraq crisis in 2002 03 The volume draws upon both theoretical and empirical research to answer the following core questions What are the reasons that have made multilateralism either effective or ineffective in the field of peacekeeping peace preservation and peacebuilding How can multilateralism be made more effective How can attempts made by Europe to render UN multilateralism in the security area more efficient be assessed This book will be of much interest to students of peacebuilding peacekeeping EU policy the UN security studies and IR in general

European Security in a Global Context Thierry

Tardy,2010-06-09 This new edited volume examines contemporary European security from three different standpoints It explores security dynamics first within Europe second the interaction patterns between Europe and other parts of the world the United States Africa the Middle East China and India and finally the external perceptions of European security The first part of the book analyses the European security landscape The roles of EU NATO and the OSCE are given particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia's repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general **Cyber-Conflict and Global Politics** Athina

Karatzogianni,2008-09-11 This volume examines theoretical and empirical issues relating to cyberconflict and its implications for global security and politics Taking a multidimensional approach to current debates in internet politics the book comprises essays by leading experts from across the world The volume includes a comprehensive introduction to current debates in the field and their ramifications for global politics and follows this with empirical case studies These include cyberconflict cyberwars information warfare and hacktivism in contexts such as Sri Lanka Lebanon and Estonia the European Social Forum feminist cybercrusades and the use of the internet as a weapon by ethnoreligious and socio political movements The volume presents the theoretical debates and case studies of cyberconflict in a coherent progressive and truly multidisciplinary way The book will be of interest to students of cyberconflict internet politics security studies and IR in general Intra-State Conflict, Governments and Security Stephen M. Saideman,Marie-Joelle J. Zahar,2008-05-29 This

volume seeks to understand the central role of governments in intra state conflicts The book explores how the government in any society plays two pivotal roles as a deterrent against those who would use violence and as a potential danger to the society These roles come into conflict with each other as those governments that can best deter potential rebels are also those that can do the most harm to their citizens Therefore a balance must be achieved raising difficult tradeoffs for policy makers This volume marks a departure from studies of ethnic conflict and civil war in recent years which have focused on failed states in considering the idea that governments themselves may be the source of violence The contributors not only explore the balancing act that governments must perform but also on the positive and negative roles that the international community can play in these conflicts In doing so the book covers a range of cases from both advanced and newer democracies to the most conflict prone parts of the world **The West and the Global Power Shift** Riccardo Alcaro,John

Peterson,Ettore Greco,2016-06-28 This book assesses the state of transatlantic relations in an era of emerging powers and growing interconnectedness and discusses the limits and potential of transatlantic leadership in creating effective

governance structures The authors first resort to theory and history to understand the transatlantic relationship They then consider the domestic and systemic factors that might set the relationship between the United States and Europe on a different path Finally the authors locate the potential for transatlantic leadership in the context of the global power shift The world of the 21st century displays different power configurations in different policy domains This changing structure of power complicates the exercise of leadership Leadership requires not only greater power and authority but also persuasion bargaining and moral suasion all necessary strategies to build coalitions and manage conflicts between great powers

European Security in the Twenty-First Century Adrian Hyde-Price, 2007-02-12 Combining a sophisticated theoretical analysis with detailed empirical case studies this book provides an original view of the challenges and threats to a stable peace order in Europe The end of Cold War bipolarity has transformed Europe Using structural realist theory Adrian Hyde Price analyzes the new security agenda confronting Europe in the twenty first century Europe he argues is not primed for peace as mainstream thinking suggests rather it faces new security threats and the challenge of multipolarity This critical and original volume looks at European security after the Iraq War the failure of the EU constitution and the change of government in Germany Reflecting on the inherently competitive and tragic nature of international politics it concludes that realism provides the only firm foundations for an ethical foreign and security policy European Security in the Twenty First Century will appeal to students and scholars of international relations European politics and security studies

Globalization and Conflict Robert G. Patman, 2006-08-10 This volume highlights the gap between the new security environment and the notion of state centred national security favoured by Washington showing how a Cold War phenomenon known as the national security state in which defence and foreign policy interests essentially converge remains largely intact The conventional wisdom since the suicide attacks of 9 11 is that the world has been transformed and according to President Bush September 11 changed the strategic thinking of the US This book challenges these assumptions Indeed the Bush administration s National Security strategy of 2002 has reinvigorated and even extended the idea of national security Paradoxically the renewed emphasis on a distinctly state centred approach to security including the War on Terror has unfolded during an era of deepening globalization Drawing on the international expertise of fourteen specialists the book examines four inter related themes the impact of globalization on the concept of security the strategic outlook of the world s only superpower the US the new conflicts that have come to characterize the post Cold War era efforts to regulate the emerging patterns of conflict in the world Globalization and Conflict will be essential reading for students of strategic studies security studies and international relations

The EU and the European Security Order Rikard Bengtsson, 2009-09-10 This book attempts to conceptualise EU action in the field of regional security Drawing on constructivist theory the framework of the book focuses on the meeting or interface of actors a situation reflecting the mutual construction of self other and situation The analytical framework applied here to European security politics is potentially open ended as the theoretical

logic that informs the framework is general and abstract in character and not limited to state actors in an international setting The empirical aim of this book is to further our understanding of the EU as a security actor in a regional perspective The book thus links International Relations scholarship with that of EU studies By analyzing a number of different interfaces such as with Russia the US and other states we can learn more about the circumstances and preconditions and with what resources and power the EU acts in a regional security setting This book will be of great interest to students of European security EU policy IR theory and security studies in general Rikard Bengtsson is Assistant Professor of Political Science at Lund University Sweden He has a PhD in Political Science from Lund University Sweden *European Union and Strategy* Kjell Engelbrekt, Jan Hallenberg, 2010-09-13 This edited volume looks into the nature of the European Union as a strategic actor setting out to explore the paradox that the EU produces policies with strategic qualities but lacks the institutions and concepts to engage in strategic reasoning and action proper **Propaganda, the Press and Conflict** David R.

Willcox, 2005-09-19 An incisive analysis of the use of the press for propaganda purposes during conflicts using the first Gulf War and the intervention in Kosovo as case studies As the contemporary analysis of propaganda during conflict has tended to focus considerably upon visual and instant media coverage this book redresses the imbalance and contributes to the growing discourse on the role of the press in modern warfare Through an innovative comparative analysis of press treatment of the two conflicts it reveals the existence of five consistent propaganda themes portrayal of the leader figure portrayal of the enemy military threat threat to international stability and technological warfare As these themes construct a fluid model for the analysis and understanding of propaganda content in the press during conflicts involving British forces they also provide the background against which the author can discuss general issues regarding propaganda Amongst the issues which have become increasingly relevant to both recent academic debate and popular culture the author tackles the role of the journalist in war coverage the place of the press in a news market dominated by instant visual media and the effectiveness of propaganda in specific cultural and political context This book will appeal to advanced students and researchers in war studies media studies propaganda and psychology *Afghanistan, Arms and Conflict* Michael Vinay Bhatia, Mark Sedra, 2008-05-05 This is the first book to provide a comprehensive assessment of small arms and security related issues in post 9 11 Afghanistan It includes case studies which reveal the findings of in depth field research on hitherto neglected regions of the country and provides a distinctive balance of thematic analysis conceptual models and empirical research Exploring various facets of armed violence and measures to tackle it the volume provides significant insight into broader issues such as the efficacy of international assistance the shadow economy warlordism and the Taliban led insurgency In an effort to deconstruct and demystify Afghanistan s alleged gun culture it also explores some of the prevailing obstacles and opportunities facing the country in its transition period In so doing the book offers valuable lessons to the state builders of Afghanistan as well as those of other countries and regions struggling to emerge from periods of transition This book will be

of much interest to all students of Afghanistan small arms insurgency Asian Studies and conflict studies in general World of War William Nester,2024-01-16 World of War is an epic journey through America s array of wars for diverse reasons with diverse results over the course of its existence It reveals the crucial effects of brilliant mediocre and dismal military and civilian leaders the dynamic among America s expanding economic power changing technologies and the types and settings of its wars and the human financial and moral costs to the nation its allies and its enemies Nester explores the violent conflicts of the United States on land at sea and in the air with meticulous scholarship thought provoking analysis and vivid prose Conflict Prevention and Peace-building in Post-War Societies T. David Mason,James D. Meernik,2006-05-02 This

volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts

Governance in Post-Conflict Societies Derick W. Brinkerhoff,2007-01-24 This volume explores questions of rebuilding governance in post conflict societies from an interdisciplinary perspective focusing on three interconnected gaps that arise in fragile states deficits in legitimacy effectiveness and security Justifying America's Wars Nicholas

Kerton-Johnson,2010-09-13 This book examines the justifications for and practice of war by the US since 1990 and examines four case studies the Gulf War Kosovo Afghanistan and Iraq The author undertakes an examination of presidential speeches and public documents from this period to determine the focal points on which the respective presidents based their rhetoric for war The work then examines the practice of war in the light of these justifications to determine whether changes in justifications correlate with changes in practice In particular the justificatory discourse finds four key themes that emerge in the presidential discourses which are tracked across the case studies and point to the fundamental driving force in US motivations for going to war The four key themes which emerge from the data are international law or norms human rights national interest and egoist morality similar too but wider than exceptionalism This analysis shows that 9 11 resulted in a radical shift away from an international law and human rights focused justificatory discourse to one which was overwhelmingly dominated by egoist morality justifications and national interest This book will be of much interest to

students of US foreign policy humanitarian intervention Security Studies and IR theory Territory, War, and Peace John A. Vasquez, Marie T. Henahan, 2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war The book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and inter group violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author of *The Steps to War* 2008 with Paul Senese and *The War Puzzle Revisited* 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henahan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of *Foreign Policy and Congress An International Relations Perspective* and co editor of *The Scientific Study of Peace and War* *U.S. Conflicts in the 21st Century* Spencer C. Tucker, 2015-12-14 This three volume reference work provides an up to date presentation and analysis of the U S wars of the 21st century addressing their backgrounds causes courses and consequences It serves as an indispensable resource for students seeking to understand the role of the United States in the world today Addressing the U S conflicts in Iraq Afghanistan and the Global War on Terror from the year 2001 to the present this comprehensive three volume encyclopedia covers the significant individuals key events and important places involved in these recent military events Beginning with the rise of Al Qaeda in the 1990s and the attacks on September 11 2001 and covering events through ISIS s dramatic surge in Iraq and Syria the hundreds of detailed entries also examine historical trends nations and ethnicities involved in the conflicts influential figures and organizations economic political diplomatic and cultural influences wars campaigns and battles and important weapons systems The set s A Z organization makes it an easy to use ready reference for high school and college students Perspective essays on several controversial topics such as the use of torture and the effects of the Patriot Act serve to inspire readers to apply critical thinking A detailed chronology is provided to help students place all the important events that have occurred in the Afghanistan War Iraq War and War on Terror Each of the chronologically arranged primary documents is introduced with a brief overview to provide important background information and context **Transforming European Militaries** Gordon Adams, Guy Ben-Ari, 2006-09-27 A unique look at European Network Enabled Capabilities NEC and their implications for transatlantic co operation in future operations Gordon Adams and Guy Ben Ari identify the key requirements for

improvement of Europe's abilities as an international actor. They focus on national and collaborative as well as existing and planned networks. They clearly show the reader how with the removal of the risks of Soviet invasion European defence planners must now modify their strategies and capabilities to address new threats both at home and overseas. They also show why future operations within international coalitions will require network based capabilities that can interoperate. Europe possesses a technological and industrial base adequate to supply such capabilities and its defence strategies are gradually being modified to emphasize expeditionary forces operations within coalition settings. However much remains to be done. This volume tackles the key challenges facing European nations who need to operate alongside each other and with their North American allies more effectively and efficiently. This book will be of great interest to all students of European affairs and politics, international relations and military and strategic studies.

Rift Between America And Old Europe Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Rift Between America And Old Europe PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various

fields. It is worth noting that while accessing free Rift Between America And Old Europe PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Rift Between America And Old Europe free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Rift Between America And Old Europe Books

1. Where can I buy Rift Between America And Old Europe books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
