technical writing is given all the importance and predominance it usually occupies in any course on technical communication. The section on report writing is extremely useful as a guide for teachers for teaching students the formatting and writing essentials in documenting reports. There is a section on professional speaking too which enriches the content of the book. On the whole, the book is of continuing usefulness and relevance in any technical English course and will be used by teachers and students alike for many years to come.

Dr Indrajit Bose, Assistant Professor of English, GNIT Kolkata: Dr Konar's book acts as a comprehensive guide to the students of professional technical as well as basic courses to hone their language skills. The language of the book is persuasive, fluid, and student-friendly, which makes it useful even to the first-generation learners of English. The scope of this book extends from word building to report writing and covers almost all the thrust areas of language training in a nutshell. Hence, it deserves a shelf space in the library of any institution.

Ayushman Banerjee, Assistant Professor in English, Haldia Government College, Kolkata: This is one of the best books on Communication available in the market. Dr Nira Konar is a brand by herself whenever English Language Teaching (ELT) comes into discussion. This compact edition discusses in detail the various aspects of language ranging from Vocabulary, Grammar, Syntax to effective communication in business. The book gives a clear reading of LSRW skills such as writing, reading, listening, and public speaking. It further confers different means of effective communication: situational dialogues, body language, and group discussions. The book follows the present MAKAUT curriculum of English for B.Tech 1st year 2nd Semester (HM/HU 201/HM/HU 291) thoroughly. It not only gives an overview of the Theory syllabus but also provides details of Language Laboratory activities as well. Communication Skills for Professionals enables the readers to express themselves clearly and communicate effectively at the workplace. This book not only deals with the rudiments of communication but also gives insights into the body language and provides important tips on how to be successful at interviews and group discussions. Primarily intended for students of engineering and technology, the book will also be useful for Management students and the students of all disciplines who want to acquire the skill in corporate communication and excel in their respective professional areas.

Sohini Datta, Assistant Professor, Department of Management, IEM Sector V, Salt Lake, Kolkata: Easy and in-depth writing on the subject is the aim of this book. The author has put in here the fruits of teaching the students from the wide-ranging and first-hand knowledge of business speaking and writing and listening in a friendly way. It is enriched with extensive references. On every page of the book, the students will see how a simpler style of English is balanced with their need.

M. Altmann, 1997 This collection of papers and abstracts stems from the third meeting in the series of Sperlonga workshops on Cognitive Models of Speech Processing It presents current research on the structure and organization of the mental lexicon and on the processes that access that lexicon The volume starts with discussion of issues in acquisition and consideration of questions such as What is the relationship between vocabulary growth and the acquisition of syntax and How does prosodic information concerning the melodies and rhythms of

the language influence the processes of lexical and syntactic acquisition From acquisition the papers move on to consider the manner in which contemporary models of spoken word recognition and production can map onto neural models of the recognition and production processes The issue of exactly what is recognised and when is dealt with next the empirical findings suggest that the function of something to which a word refers is accessed with a different time course to the form of that something This has considerable implications for the nature and content of lexical representations Equally important are the findings from the studies of disordered lexical processing and two papers in this volume address the implications of these disorders for models of lexical representation and process borrowing from both empirical data and computational modelling The final paper explores whether neural networks can successfully model certain lexical phenomena that have elsewhere been assumed to require rule based processes
