Introduction to African American Studies Talmadge Anderson,James Benjamin Stewart,2007 There is an ongoing debate as to whether African American Studies is a discipline or multidisciplinary or interdisciplinary field Some scholars assert that African American Studies use a well defined common approach in examining history politics and the family in the same way as scholars in the disciplines of economics sociology and political science Other scholars consider African American Studies multidisciplinary a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses be they anthropological psychological historical etc to study the African world experience In this model the boundaries between traditional disciplines are accepted and researches in African American Studies simply conduct discipline based an analysis of particular topics Finally another group of scholars insists that African American Studies is interdisciplinary an

enterprise that generates distinctive analyses by combining perspectives from d **InfoWorld** ,1995-09-25 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects Resources in education ,1986-04 Exercises in Small-arms and Field Artillery United States. Navy Department. Bureau of Ordnance,1852 **The United Nations and Human Rights** Frédéric Mégret,Philip Alston,2020-04-02 The very concept of human rights implies governmental accountability To ensure that governments are indeed held accountable for their treatment of citizens and others the United Nations has established a wide range of mechanisms to monitor compliance and to seek to prevent as well as respond to violations The panoply of implementation measures that the UN has taken since 1945 has resulted in a diverse and complex set of institutional arrangements the effectiveness of which varies widely Indeed there is much doubt as to the effectiveness of much of the UN s human rights efforts but also about what direction it should take Inevitable instances of politicization and the hostile or at best ambivalent attitude of most governments has at times endangered the fragile progress made on the more technical fronts At the same time technical efforts cannot dispense with the complex politics of actualizing the promise of human rights at and through the UN In addition to significant actual and potential problems of duplication overlapping and inconsistent approaches there are major problems of under funding and insufficient expertise The complexity of these arrangements and the difficulty in evaluating their impact makes a comprehensive guide of the type provided here all the more indispensable These essays critically examine the functions procedures and performance of each of the major UN organs dealing with human rights including the Security Council and the International Court of Justice as well as the more specialized bodies monitoring the implementation of human rights treaties Significant attention is devoted to the considerable efforts at reforming the UN s human rights machinery as illustrated most notably by the creation of the Human Rights Council to replace the Commission on Human Rights The book also looks at the relationship between the various bodies and the potential for major reforms and restructuring *The brazilian CFIA model as a mechanism for enhancing protection and respect for socio-economic rights* Marina Martins Martes,2023-09-28 This research evaluates whether the new model of investment agreement developed by Brazil CFIA is a mechanism for enhancing protection and respect for social and economic rights The research starts by exploring the origins of investment treaties their development and main characteristics It examines why investment treaties and socio economic rights are related by mapping cases in which investment treaties have already impaired the protection of such rights The research then analyzes how these two issues shall be jointly handled It considers international organizations initiatives to regulate business and human rights and investment treaties frameworks that foster sustainable development as well as new investment agreements models developed by different countries and then suggests criteria for evaluating whether an investment treaty is adequate from the socio economic rights standpoint Finally this research investigates the CFIA model brings a brief historical overview evaluates CFIAs wording and examines how some CFIAs institutional

mechanisms consider corporate social responsibility issues In conclusion this research asserts that the CFIA model can be a mechanism for enhancing protection and respect for socio economic rights but some concerns particularly related to safeguarding States regulatory space and providing for stronger obligations to investors and States to protect human rights need to be addressed
