Rights Persons:

Rights and Persons Abraham Irving Melden, 1980-01-01 **The UN Convention on the Rights of Persons with Disabilities in Practice** Lisa Waddington, Anna Lawson, 2018 A timely examination of the UN Convention on the Rights of Persons with Disabilities this first thorough comparative analysis contrasts the approaches of thirteen jurisdictions to reveal a legal area of growing importance The UN Convention on the Rights of Persons with Disabilities Great Britain. Parliament. Joint Committee on Human Rights, 2009 The UN Convention on the Rights of Persons with Disabilities builds on existing human rights treaties including the International Covenant on Civil and Political Rights and the International Covenant on Economic Social and Cultural Rights The UN Handbook for Parliamentarians on the Convention stresses that it is not intended to create new rights but clarifies the obligations and legal duties of States to respect and ensure the equal enjoyment of all human rights by all persons with disabilities Its purpose is to Promote protect and ensure the full enjoyment of all human rights and fundamental freedoms by all persons with disabilities and to promote respect for their inherent dignity The UK was among the first countries to sign the Convention on 30 March 2007 The findings of our recent inquiry on the rights of adults with learning disabilities showed that although UK law and policy on the treatment of adults with learning disabilities takes a human rights based approach the day to day experiences of people with learning disabilities are not so positive Ratification will send a strong signal to all people with disabilities in the UK and abroad that the Government takes equality and the protection of their human rights seriously The Government first publicly stated that reservations to the Convention were being considered in its response to our Report on the treatment of adults with learning disabilities in May 2008 more than a year after it signed the Convention Despite the Committee s call for a full explanation of the government s views on the compatibility of domestic law with the Convention the were then provided with little detail on the reservations being considered or the Government s approach to the process The Committee considers that progress towards ratification of the Convention by the UK has so far lacked transparency and has unfortunately alienated disabled people and their organisations This is unacceptable in the light of the clear Convention commitment which the Government intends to make to the involvement of disabled people in the development of policies and laws which affect them This approach undermines the previous role that the UK Government has played in championing equality for disabled people and their leading role in negotiating the terms of the UNCRPD *HUMAN RIGHTS LAW AND PRACTICE* JATINDRA KUMAR DAS, 2016-07-01 The book written with a rich teaching and research experience of the author emphasises the critical evaluation of contemporary human rights law and practice with special reference to India It also evaluates the ongoing discourse on various issues relating to life liberty equality and human dignity and their reflections in international human rights law referring the state practices through constitutional guarantees judicial decisions as well as through enacting appropriate legislations This lucid and comprehensive book is logically organised into nine chapters Beginning with the theoretical foundations of human rights

law referring to origin development and theories of human rights at preliminary level the book proceeds to International Bill of Human Rights demonstrating various facets of civil and political rights as well as economic social and cultural rights It further discusses the importance of human rights law in protection against inhuman wrongs and examines a large number of debates concerning human right to development and protection of environment Then it moves on to explore various issues relating to human rights in Indian Constitutional Law The latter part of the book emphasises on the protection of rights of women and children which has been the focal point of all human rights discussions It also deals with the scope and ambit of the rights of indigenous peoples and minorities including their protection At the end the book examines the utility and justifications of human rights law in protecting the rights of people with disabilities divyang Though the book is primarily designed for LLB BA LLB and LLM and courses on human rights it will be equally beneficial for the researchers academicians jurists lawyers judges as well as members of civil society

Refugee Displacement, Disability and Human Rights Philippa Duell-Piening, 2025-02-25 This book presents a timely and innovative exploration of one of the first human rights articles about data production and processing the Convention on the Rights of Persons with Disabilities article 31 Statistics and data collection The study provides detailed explorations of the legal and practical demands of article 31 how these have been interpreted and the practice of human rights research with marginalised communities It describes the history of the article s drafting in detail uncovering the tensions at its heart today This analysis provides the foundations for an alternative doctrinal reading of the obligations in article 31 and an exploration of a potential group right The book s detailed analysis is assisted by a new conceptual framework that illustrates the relationship between visibility and power The work demonstrates that data is not inert but powerful and may be used in ways that are helpful and harmful to rights holders Through closely examining disability human rights data practices in refugee contexts it concludes that human rights protections are being ignored in the urgency to create more data to identify and address inequality The author identifies immediate actions that may be taken to remediate current practices The book will be an invaluable resource for academics researchers and policy makers working in disability studies human rights law refugee and migration studies technology and society

Challenges to the Human Rights of People with Intellectual Disabilities Frances Owen, Dorothy Griffiths, 2008-12-15 This book provides a multidisciplinary examination of human rights and the lives of people with intellectual disabilities It combines historical psychological philosophical social educational medical and legal perspectives to form a unique and insightful account of the subject

Children's Rights in Ghana Robert Kwame Ame, DeBrenna LaFa Agbényiga, Nana Araba Apt, 2011-02-22 This is the first book that examines Ghana s compliance with the United Nations Convention on the Rights of the Child CRC Ghana being the first country to ratify the Convention it thus fills an important gap in the literature on Ghana The book throws a searchlight on a wide range of rights issues including children s identity violence against children and women child exploitation and children in conflict with the law plus a host of other CRC related issues and further identifies

and explains the main obstacles in the way of realizing children's rights in Ghana. A major strength of this book is that the contributors, Ghanaians and non-Ghanaians alike, have vast experience in empirical research in Ghana and most importantly come from diverse academic disciplines. Researchers, instructors and students of Social Work, Sociology, Criminology, Human Rights, Education and Law are examples of a few academic disciplines that would find this book a welcome relief in their search for relevant and current data on children's issues in Ghana. It should also be of great interest to policy makers, human rights activists, children's NGOs and international development partners interested in children's issues. **Routledge**

Handbook of Mental Health Law Brendan D. Kelly, Mary Donnelly, 2023-10-12. Mental health law is a rapidly evolving area of practice and research with growing global dimensions. This work reflects the increasing importance of this field, critically discussing key issues of controversy and debate and providing up-to-date analysis of cutting-edge developments in Africa, Asia, Europe, the Americas and Australia. This is a timely moment for this book to appear. The United Nations Convention on the Rights of Persons with Disabilities 2006 sought to transform the landscape in which mental health law is developed and implemented. This Convention, along with other developments, has to varying degrees informed sweeping legislative reforms in many countries around the world. These and other developments are discussed here. Contributors come from a wide range of countries and a variety of academic backgrounds, including ethics, law, philosophy, psychiatry and psychology. Some contributions are also informed by lived experience, whether in person or as family members. The result is a rich, polyphonic and sometimes discordant account of what mental health law is and what it might be. The Handbook is aimed at mental health scholars and practitioners as well as students of law, human rights, disability studies and psychiatry and campaigners and law and policy makers. *Compass - Manual for Human Rights Education with Young People (2012 edition - fully revised and updated)* Council of Europe, Collectif, 2015-06-01. Human rights cannot be defended by legal measures alone. They need to be protected and safeguarded by everyone, including young people. Human rights are best respected and appreciated when we know them, stand up for them and apply them in our lives. COMPASS provides youth leaders, teachers and facilitators of human rights education activities, whether professionals or volunteers, with concrete ideas and practical activities to engage, involve and motivate young people in living, learning and acting for human rights. It promotes a comprehensive perspective on human rights education and sees young people as actors for a culture of universal human rights. COMPASS was originally published in 2002 and is now available in more than 30 languages. A version specifically designed for human rights education with children, COMPASITO, enjoys a similar success. This fully revised and updated edition includes new activities and information about human rights issues such as disability and disablism, migration, religion, remembrance, war and terrorism. COMPASS is a practical tool and resource for citizenship and human rights education. It is an essential companion for all those who are curious and interested in making the right to human rights education a reality for everyone. **Case Studies on Leaving No One Behind: A companion volume to the Development Co-operation Report 2018** OECD, 2018-12-11

The Idea and the Documents of Human Rights Ioanna Kuçuradi,2021-01-27 The most significant achievement of 20th century is probably the importance ascribed to the idea of human rights And perhaps the most significant endeavour of the world community in the second half of this century is its attempt to codify these ethical demands in declarations covenants and similar instruments expected to have universal validity Yet besides the unscrupulous violence torture and social injustice which continue to prevail in our world we also see gaining more and more ground tendencies to promote demands and practices which constitute unnoticed obstacles to the protection of human rights Is it not the so called herd immunity as a way to fight against a pandemic a violation of the right to life What are our shortcomings The present volume is an attempt to bring into focus one of these shortcomings the lack of clear knowledge of what human rights are
