Rights And Goods Justifying Social Action

Daniel Engster, Maurice Hamington

Rights And Goods Justifying Social Action:

Rights and Goods Virginia Held, 1989-07-19 Theories of justice argues Virginia Held are usually designed for a perfect hypothetical world They do not give us guidelines for living in an imperfect world in which the choices and decisions that we must make are seldom clear cut Seeking a morality based on actual experience Held offers a method of inquiry with which to deal with the specific moral problems encountered in daily life She argues that the division between public and private morality is misleading and shows convincingly that moral judgment should be contextual She maps out different approaches and positions for various types of issues including membership in a state legal decisions political activities economic transactions interpersonal relations diplomacy journalism and determining our obligation to future generations Issues such as these provide the true test of moral theory since its success is seen in the willingness of conscientious persons to commit themselves to it by acting on it in their daily lives

Democracy in an Age of Globalisation Otfried Höffe, 2007-07-19 In this book the author develops a comprehensive analysis of the demands which the process of globalization exerts on the political organisations of humanity The author starts from a diagnosis of the process of globalisation The question central to the book can be formulated as follows How can the social moral and legal achievements of the nation state be retained while its structure is reshaped to satisfy the requirements of a globalised world

Bioethics Nancy Ann Silbergeld Jecker, Albert R. Jonsen, Robert A. Pearlman, 2007 Legal Ethics **Feminism, Marriage, and the Law in Victorian England, 1850-1895** Mary Lyndon Shanley, 2020-07-21 Bridging the fields of political theory and history this comprehensive study of Victorian reforms in marriage law reshapes our understanding of the feminist movement of that period As Mary Shanley shows Victorian feminists argued that justice for women would not follow from public rights alone but required a fundamental transformation of the marriage relationship

Property, Power, and American Democracy David Andrew Schultz, 1992-01-01 One legacy of the Reagan and post Reagan years has been a questioning by both liberals and conservatives of recent eminent domain and property rights decisions by the Supreme Court This timely volume examines the changing political and constitutional status of these concepts Schultz argues that we need to rethink the nature of property rights by asking what purpose they serve in American society and whether they deserve special legal and judicial protection against legislative interference Property Power and American Democracy is founded on a searching reexamination of the role of property in early and contemporary American legal and political thought From this perspective Schultz shows that the meaning of property is currently in flux as a result of a failure to sustain those values that property was originally supposed to protect in our society individual liberty limited government and minority rights In keeping with the moral and political values associated with property in the writings of John Locke James Harrington and other classical theorists the author contends that property should not be viewed merely as a thing we possess or an entity we may dispose of at will Instead it is to be seen as an important social relationship to which the law gives special protection thereby furthering a sense of autonomy self

identity and community This volume demonstrates that once we view property in this light we can then ask which relations or values are so important in our society that they deserve to be called property Drawing upon both liberal and conservative points of view Property Power and American Democracy is a powerful argument for the reinvigoration of property rights It will be of special interest to political scientists urban planners and specialists in American constitutional history and political thought

Philosophical Dimensions Of The Constitution Diana T Meyers, Kenneth Kipnis, Steve Griffin, 2019-06-18 In the closing decades of the eighteenth century the newly independent colonies along the mid Atlantic coast of North America commenced an unprecedented public debate concerning the principles of civil government The debate culminated in 1787 with the Philadelphia convention where the United States Constitution was drafted and adopted After reading [Singing in the Fire](#) Linda Martín Alcoff, 2003-10-14 Ask most people to imagine a philosopher and they probably think of someone like Socrates absent minded perhaps but with a sharp intellect and a thirst for the truth A woman juggling car pools and housework is not the first image that springs to mind but women have taken huge steps in the philosophy profession over the past 50 years Still to this day well established women philosophers continue to face sexism from colleagues and students Singing in the Fire is a unique groundbreaking collection of autobiographical essays by leading women in philosophy It mines the experience of the generation that witnessed and helped create the remarkable advances now evident for women in the field These women are leaders and innovators looking back on how they have been treated how they might have done things differently and how we might make progress in future generations

Positive Free Speech Andrew T Kenyon, Andrew Scott, 2020-05-28 Freedom of expression is generally analysed as a bare liberty against restraint by state action Underpinning rationales for freedom of speech very often imply however that the concept also has important positive aspects and that to be truly democratic the modern polity requires more than negative freedom In contemporary conditions this understanding of free speech raises matters such as media diversity or pluralism the concept of voice and access to the public sphere access to information and the need to rethink the audience in relation to public speech Whether securing positive free speech is a matter of politics or of law a task for legislatures or for courts is an open question On one level any programme of inculcating positive dimensions of free speech might be understood as inherently polycentric and hence political in character Yet a number of jurisdictions evince enhanced legal recognition for the principle The aim of this collection of papers is to interrogate the rationales of positive free speech to consider the political and juridical methods by which it has or may be more fully reflected in the modern state and to consider the range of practical contexts in which its valorisation has or would have significant implications The contributors are drawn from an array of European and international jurisdictions They include academic lawyers and communications researchers

[Global Feminist Ethics](#) Peggy DesAutels, Rebecca Whisnant, 2010 This volume is fourth in the series of annuals created under the auspices of The Association for Feminist Ethics and Social Theory FEAST The topics covered herein from peacekeeping and terrorism to sex

trafficking and women's paid labor to poverty and religious fundamentalism are vital to women and to feminist movements throughout the world

How Terrorism Is Wrong Virginia Held, 2011-03-04 What is terrorism How is it different from other kinds of political violence Why exactly is it wrong Why is war often thought capable of being justified On what grounds should we judge when the use of violence is morally acceptable It is often thought that using violence to uphold and enforce the rule of law can be justified that violence used in self defense is acceptable and that some liberation movements can be excused for using violence but that terrorism is always wrong How persuasive are these arguments and on what bases should we judge them How Terrorism is Wrong collects articles by Virginia Held along with much new material It offers a moral assessment of various forms of political violence with terrorism the focus of much of the discussion Here and throughout Held examines possible causes discussed including the connection between terrorism and humiliation Held also considers military intervention conventional war intervention to protect human rights violence to prevent political change and the status and requirements of international law She looks at the cases of Rwanda Kosovo Iraq and the Israeli Palestinian conflict Finally she explores questions of who has legitimate authority to engage in justifiable uses of violence whether groups can be responsible for ethnic violence and how the media should cover terrorism Held discusses appropriate ways of engaging in moral evaluation and improving our moral recommendations concerning the uses of violence Just war theory has been developed for violence between the military forces of conflicting states but much contemporary political violence is not of this kind Held considers the guidance offered by such traditional moral theories as Kantian ethics and utilitarianism and also examines what the newer approach of the ethics of care can contribute to our evaluations of violence Care is obviously antithetical to violence since violence destroys what care takes pains to build but the ethics of care recognizes that violence is not likely to disappear from human affairs and can offer realistic understandings of how best to reduce it

Encyclopedia of Ethics Lawrence C. Becker, Charlotte B. Becker, 2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more

Norms and Values Joram Graf Haber, Mark S. Halfon, 1998 Virginia Held best known for her landmark book Rights and Goods has made an indelible mark on the fields of ethics feminist philosophy and social and political thought Her impact on a generation of feminist thinkers is unrivaled and she has been at the forefront of discussions about the way in which an ethic of care can affect social and political matters These new essays by leading contemporary philosophers range over all of these areas While each stands alone the essays together demonstrate the lasting value of Held's work to the field Includes an afterword by Held

Beyond Self-Interest Jane J. Mansbridge, 1990-04-15 A dramatic transformation has begun in the

way scholars think about human nature Political scientists psychologists economists and evolutionary biologists are beginning to reject the view that human affairs are shaped almost exclusively by self interest a view that came to dominate social science in the last three decades In *Beyond Self Interest* leading social scientists argue for a view of individuals behavior and social organization that takes into account the powerful motivations of duty love and malevolence Economists who go beyond economic man psychologists who go beyond stimulus response evolutionary biologists who go beyond the selfish gene and political scientists who go beyond the quest for power come together in this provocative and important manifesto The essays trace from the ancient Greeks to the present the use of self interest to explain political life They investigate the differences between self interest and the motivations of duty and love showing how these motivations affect behavior in prisoners dilemma interactions They generate evolutionary models that explain how altruistic motivations escape extinction They suggest ways to model within one individual the separate motivations of public spirit and self interest investigate public spirit and self interest investigate public spirit in citizen and legislative behavior and demonstrate that the view of democracy in existing Constitutional interpretations is not based on self interest They advance both human evil and mothering as alternatives to self interest this last in a penetrating feminist critique of the contract model of human interaction

Identity, Political Freedom, and Collective Responsibility E. Souffrant, 2013-12-04 Eddy M Souffrant calls for a reassessment of the starting points of moral social and political philosophy that takes into account the actual living circumstances of persons living the 21st century

The Palgrave Handbook of Critical Human Resource Development Joshua C. Collins, Jamie L. Callahan, 2022-11-17 This handbook presents an expansive exploration of critical theory critical perspectives critical praxis and the impact on the research theory and practice of Human Resource Development HRD Critical Human Resource Development CHR D aims to challenge the normative structures practices policies definitions and approaches which have historically dominated the field of Human Resource Development HRD As an approach to HRD CHR D raises awareness of social systems organizational policies and practices and research paradigms that silence new ways of knowing and understanding while advancing underrepresented and emerging approaches Through an analysis of power and privilege morality and ethics and ideology and context CHR D situates diversity equity inclusion social justice and resistance as a path forward in a rapidly changing global society In contrast to HRD s traditional focus on organization development training and development and career development this handbook adopts a more critical vantage point which classifies the scope and outcomes of HRD across five domains identified by CHR D scholars as key to understanding the nature and work of the field organizing relating learning changing and advocating

Economics, Ethics, and Public Policy Charles K. Wilber, 1998 Years have passed since the end of the War of the Lance The people of Ansalon have rebuilt their lives their houses their families The Companions of the Lance too have returned to their homes raising children and putting the days of their heroic deeds behind them But peace on Krynn comes at a price The forces of darkness are ever vigilant searching for

ways to erode the balance of power and take control When subtle changes begin to permeate the fragile peace new lives are drawn into the web of fate woven around all the races The time has come to pass the sword or the staff to the children of the Lance They are the Second Generation An all new audiobook edition of a classic Dragonlance novel This book of five novellas bridges the gap between the Chronicles and Legends trilogies and Dragons of Summer Flame While detailing their adventures The Second Generation also sets up key events and characters in future Dragonlance novels

Development: Challenges for development Stuart Corbridge,2000 Brings together more than one hundred articles dealing with the discipline of development in all its diversity Key topics include the transformation of peasant economies argibusiness rural urban relations markets industrialization workers trade aid and structural adjustment A unique set in its comprehensiveness and diversity it also considers four key challenges for development theory and practice relating to capabilities ethics sustainability and regulation

The Ethics of Care Virginia Held,2006 The author assesses the ethics of care as a promising alternative to the familiar moral theories that serve so inadequately to guide our lives Held examines what we mean by care and focuses on caring relationships She also looks at the potential of care for dealing with social issues and global problems

Care Ethics and Political Theory Daniel Engster,Maurice Hamington,2015 Care Ethics and Political Theory brings together new chapters on the nature of care ethics and its implications for politics from some of the most important philosophers working in the field today Chapters take up long standing questions about the relationship between care and justice and develop guidelines for the development of a care based justice theory Care ethics is further applied to issues such as security privacy law and health care where little work has been previously done By bringing care ethics into conversation with non Western and subaltern cultures the contributing authors further show how care ethics can guide and learn from other traditions A final set of chapters uses care ethics to challenge dominant moral and political paradigms and offer an alternative foundation for future moral and political theory The book as a whole makes the case for care ethics as an equal or superior approach to morality and politics compared with liberalism luck egalitarianism libertarianism the capabilities approach communitarianism and other political theories The volume includes many of the leading care scholars in the world today engaging in both theoretical and applied discussions of this burgeoning field of study Ultimately Care Ethics and Political Theory endeavors to find realistic methods and ways of thinking to create a more caring world

Theories of Distributive Justice Jeppe Platz,2020-02-14 How should we design our economic systems Should we tax the rich at a higher rate than the poor Should we have a minimum wage Should the state provide healthcare for all These and many related questions are the subject of distributive justice and different theories of distributive justice provide different ways to think about and answer such questions This book provides a thorough introduction to the main theories of distributive justice and reveals the underlying sources of our disagreements about economic policy It argues that the universe of theories of distributive justice is surprisingly simple yet complicated It is simple in that the main theories of distributive justice are just

four in number and in that these theories each offer a distinct well defined theoretical approach to distributive justice yet it is complicated in that the main theories disagree at several distinct fundamental levels and in that it is possible to spin innumerable new theories from the elements of the four main theories

Key Features Covers the four major theories of distributive justice and their leading philosophers elucidating the attractions and drawbacks of each Friedrich A von Hayek and right liberalism John Rawls and left liberalism Robert Nozick and libertarianism Gerald A Cohen and socialism Explains why these four theories have come to dominate most philosophical discussions on distributive justice highlighting the essential answer provided in each that is lacking in other theories Written for any reader interested in the topic with an annotated reading list at the end of each chapter and helpful glossary at the back of the book

Decoding **Rights And Goods Justifying Social Action**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force.
