Constitutional Rights of Military Personnel United States Senate, 2013-01-23 No persons should be more entitled to protection of their constitutional rights than the servicemen engaged in protecting the sovereignty of the United States Appropriately the Subcommittee on Constitutional Rights has been concerned since its formation with the rights of military personnel and has made several studies in that connection In light of the Supreme Court's ruling in *Wilson v Girard* which upheld a waiver by military authorities of jurisdiction to try a serviceman for a homicide committed in Japan the subcommittee investigated the extent to which the rights of servicemen are abridged when they are stationed abroad and so become subject in some degree to the jurisdiction of foreign governments Also the subcommittee has studied the implications of constitutional limitations enunciated in cases such as *Reid v Covert* *Kinsella v Singleton* and *McElroy v Guagliardo* These cases invalidated the provisions of article 2 of the Uniform Code of Military Justice which purport to authorize trial by court martial of military dependents and employees accompanying the Armed Forces overseas in time of peace but the problem remained of providing a forum for the trial of such individuals where all their constitutional rights would be preserved Similarly the subcommittee has grappled with the problem of a suitable tribunal to try offenses committed by exservicemen while they were still on active duty but which under the holding of *Toth v Quarles* cannot be made subject to military jurisdiction

Civil Rights Update ,1991 International Religious Rights and Standards Cometan,2023-09-23 The principal finding of the doctoral research of Cometan a k a Brandon Reece Taylorian was that the ways governments both authoritarian and democratic use their powers to recognise religions and beliefs and register religious or belief organisations is negatively impacting conditions of freedom of religion or belief Cometan explored the range of recognition and registration issues plaguing religious freedom and other human rights and discovered that there lacks a definitive set of international standards to address some of the granular topics that are causing registration procedures in particular to become onerous and thus impedimental to the free and legal exercise of religion or belief Cometan s International Religious Rights and Standards IRRS document presents a series of standards for how nation states ought to develop their recognition and registration policies and practices to remain FoRB compliant The standards of the IRRS document have been created based on the results of Cometan s PhD research the thesis for which is titled Religious Freedom and State Recognition of Belief Cometan s intention is that the IRRS document will encourage international organisations like the OSCE and the United Nations as well as national and international human rights courts such as the ECtHR to establish more detailed and country specific guidelines to address the breath of registration issues and the recognition issues that often worsen such issues **The U.S. Military and Civil Rights Since World War II** Heather Stur,2019-09-26 Through examinations of U S military racial and gender

integration efforts and its handling of sexuality this book argues that the need for personnel filling the ranks has forced the armed services to be pragmatically progressive since World War II The integration of African Americans and women into the United States Armed Forces after World War II coincided with major social movements in which marginalized civilians demanded equal citizenship rights As this book explores due to personnel needs the military was a leading institution in its opening of positions to women and African Americans and its offering of educational and economic opportunities that in many cases were not available to them in the civilian world By opening positions to African Americans and women and remaking its where boys become men image the military was an institutional leader on the issue of social equality in the second half of the 20th century The pushback against gay men and women wishing to serve openly in the forces however revealed the limits of the military s pragmatic progressivism This text investigates how policymakers have defined who belongs in the military and counts as a soldier and examines how the need to attract new recruits led to the opening of the forces to marginalized groups and the rebranding of the services *The Changing World Of The American Military* Franklin D Margiotta,2019-07-16 As the U S military moves into an uncertain future dominated by rapid change traditional modes of thought will no longer suffice Contributors to this volume focus on some of the major factors that will shape the American military in the 1980s a complex interdependent international arena a changing domestic political context broad societal forces and trends the imperatives of advanced technology conflicting bureaucratic and management orientations and the emergence of new elites The articles collected here present the diverse views of civilian scholars of all services and ranks of the military and of Department of Defense and congressional civilians they feature the results of surveys conducted at the three service academies and among other civilian and military populations that number in the tens of thousands The focus moves from a historical and current assessment of military professionalism to potential influences in the changing international and domestic environments A major section is devoted to important military manpower issues Analyses of organizational dynamics and change address the implications of advanced technology bureaucratization and centralization of control The book concludes with contrasting views of the future demands on military professionalism and with a final summary that suggests future research avenues *Constitutional Rights of Military Personnel* Rodney J.
