RIGHTS TALK

The Impoverishment Of
Political Discourse

MARY ANN GLENDON

Rights Talk The Impoverishment Of Political Discourse

Martin Loughlin

Rights Talk The Impoverishment Of Political Discourse:

Rights Talk Mary Ann Glendon, 1991 Never before have claims of individual rights of behavior and expression been so absolute or so divine Harvard law professor Mary Ann Glendon traces the evolution of this distinctively American dialect of rights talk since WWII and shows how it has reduced our political discourse to stark and simple terms *Rights Talk* Mary Ann Glendon, 1993 Political speech in the United States is undergoing a crisis Glendon's acclaimed book traces the evolution of the strident language of rights in America and shows how it has captured the nation's devotion to individualism and liberty but omitted the American traditions of hospitality and care for the community *Rights Talk* Mary Ann Glendon, 1998

Problems of Theoretical Psychology International Society for Theoretical Psychology. Conference, 1996 *Rights Talk Photocopy* Mary Ann Glendon, 1991 *Dealing with an Angry Public* Lawrence Susskind, Patrick Field, 1996-04-17 Some portion of the American public will react negatively to almost any new corporate initiative as Disney discovered when it announced its plans to build an historical theme park in Virginia Similarly government efforts to change policy or shift budget priorities are invariably met with stiff resistance In this enormously practical book Lawrence Susskind and Patrick Field analyze scores of both private and public sector cases as well as crisis scenarios such as the Alaskan oil spill the silicone breast implant controversy and nuclear plant malfunction at Three Mile Island They show how resistance to both public and private initiatives can be overcome by a mutual gains approach involving face to face negotiation a strategy applied successfully by over fifteen hundred executives and officials who have attended Professor Susskind's MIT Harvard Angry Public seminars Susskind and Field outline the six key elements of this approach in order to help business and government leaders negotiate rather than fight with their critics In the process they show how to identify who the public is whose concerns to address first which people and organizations must be convinced of the legitimacy of action taken and how to assess and respond to different types of anger effectively Acknowledging the crucial role played by the media in shaping public perception and understanding Susskind and Field suggest a way to develop media interaction which is consistent with the six mutual gains principles and also discuss the type of leadership that corporate and government managers must provide in order to combine these ideas into a useful whole We all need to be concerned about a society in which the public's concerns fears and anger are not adequately addressed When corporate and government agencies must spend crucial time and resources on rehashing and defending each decision they make a frustrated and angry public contributes to the erosion of confidence in our basic institutions and undermines our competitiveness in the international marketplace In this valuable book Susskind and Field have produced a strong clear framework which will help reduce these hidden costs for hundreds of executives managers elected and appointed officials entrepreneurs and the public relations legal and other professionals who advise them **Civil Religion, Human Rights and International Relations** Helle Porsdam, 2012-01-01 This groundbreaking book discusses whether human rights can be forged into a common set of transcendent principles against which

actions of every nation can be judged and whether such a common understanding or civil religion could one day become a vehicle for global peace Eminent international scholars of history political science international relations human rights and civil religion argue both sides of this debate In Part One the theoretical issues relating to why human rights have come about and whether they should be fought for are discussed Part Two focuses on the reality of actions brought about by human rights ideas with illuminating case studies showing that human rights ideas and practice are generated from both the bottom up and top down by individual actors and institutions The unique book will be of great interest to scholars in the field of history human rights international relations and political science in general

Sexuality, Morals and Justice Nicholas Bamforth,1997-10-23 Against the background of the law reform debates around sexuality in Britain and America Bamforth examines what functions it is legitimate for the law to serve and how effective law can be in achieving social goals He provides a new and cogent argument for protecting lesbian and gay rights through law but is sceptical about how useful law can be in eradicating discriminatory social practices This work sheds new light on the equal rights debate and raises issues of central importance to the role of law in society

Sexuality and Equality Law Suzanne B. Goldberg,2017-07-05 Sexual rules and regulations are among society s oldest yet it is only in recent decades that this once stigmatized field has become the focus of scholarly attention This volume which includes some of the most thought provoking and hard to find essays in the field covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex and from HIV AIDS and trafficking to polygamy Through historical political and critical theoretical lenses and through a global focus the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity By placing this variety of works together *Sexuality and Equality Law* invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another The volume s introduction situates all of these works in the broader field and offers readers an extensive bibliography

Community on Land Janel M. Curry,Steven McGuire,2002 Curry dean for research and scholarship Calvin College Michigan and McGuire sociology Muskingum College Ohio examine the European legacy of agriculture and colonization on American concepts of community and land Focusing on the social and environmental consequences they advocate community governance as a policy alternative Annotation copyrighted by Book News Inc Portland OR

The Varieties of British Political Thought, 1500-1800 J. G. A. Pocock,Gordon J. Schochet,Lois Schwoerer,1993 A history of political debate and theory in England later Britain between the English Reformation and French Revolution

Sword and Scales Martin Loughlin,2000-07-24 This short and accessible book provides a provocative re assessment of the various tangled relationships between law and politics and in so doing examines legal and political thinking on such critical areas as justice the state constitutionalism and rights It introduces lawyers especially to certain important themes in some of the key texts in political thought and introduces political scientists to the legal dimensions of a number of central themes of political

studies Written by one of the leading theorists in constitutional law the book should prove to be an indispensable companion for any student or teacher interested in law and politics Contents I Law and Politics in the Conversation of Mankind II Justice III The State IV Constitutionalism V Conclusions *Human Rights* Austin Sarat, Thomas R. Kearns, 2009-11-16 Today the language of human rights if not human rights themselves is nearly universal Human Rights brings together essays that attend to both the allure and criticism of human rights They examine contestation and contingency in today's human rights politics and help us rethink some of the basic concepts of human rights Questions addressed in Human Rights include Can national self determination be reconciled with human rights Can human rights be advanced without thwarting efforts to develop indigenous legal traditions How are the forces of modernization associated with globalization transforming our understanding of human dignity and personal autonomy What does it mean to talk about culture and cultural choice Is the protection of culture and cultural choice an important value in human rights discourse How do human rights figure in local political contests and how are those contests in turn shaped by the spread of capitalism and market values What contingencies shape the implementation of human rights in societies without a strong tradition of adherence to the rule of law What are the conditions under which human rights claims are advanced and under which nations respond to their appeal Austin Sarat is William Nelson Cromwell Professor of Jurisprudence and Political Science Amherst College Thomas R Kearns is William H Hastie Professor of Philosophy and Professor of Law Jurisprudence and Social Thought Amherst College

Human Rights Gordon DiGiacomo, 2016-02-10 Written largely by Canadian scholars for Canadian students Human Rights Current Issues and Controversies is an overview of contemporary human rights concerns that aims to introduce readers to the human rights instruments provincial national and international that protect Canadians The volume begins with an overview of the history of human rights before moving on to discuss such important topics as the relationship between political institutions and rights protection rights issues pertaining to specific communities and cross cutting rights issues that affect most or all citizens Contemporary and comprehensive Human Rights Current Issues and Controversies is a valuable resource for undergraduate and graduate students studying human rights **The Bill of Rights in Modern America**

David J. Bodenhamer, James W. Ely (Jr.), 2008 An expert guide to current debates on individual rights in America *The Rights of Women* Erika Bachiochi, 2021-07-15 Erika Bachiochi offers an original look at the development of feminism in the United States advancing a vision of rights that rests upon our responsibilities to others In *The Rights of Women* Erika Bachiochi explores the development of feminist thought in the United States Inspired by the writings of Mary Wollstonecraft Bachiochi presents the intellectual history of a lost vision of women's rights seamlessly weaving philosophical insight biographical portraits and constitutional law to showcase the once predominant view that our rights properly rest upon our concrete responsibilities to God self family and community Bachiochi proposes a philosophical and legal framework for rights that builds on the communitarian tradition of feminist thought as seen in the work of Elizabeth Fox Genovese and Jean

Bethke Elshtain Drawing on the insight of prominent figures such as Sarah Grimk Frances Willard Florence Kelley Betty Friedan Pauli Murray Ruth Bader Ginsburg and Mary Ann Glendon this book is unique in its treatment of the moral roots of women s rights in America and its critique of the movement s current trajectory The Rights of Women provides a synthesis of ancient wisdom and modern political insight that locates the family s vital work at the very center of personal and political self government Bachiochi demonstrates that when rights are properly understood as a civil and political apparatus born of the natural duties we owe to one another they make more visible our personal responsibilities and more viable our common life together This smart and sophisticated application of Wollstonecraft s thought will serve as a guide for how we might better value the culturally essential work of the home and thereby promote authentic personal and political freedom The Rights of Women will interest students and scholars of political theory gender and women s studies constitutional law and all readers interested in women s rights

Children in the International Political Economy G. Kent,1995-09-13 The first line of responsibility for children lies with their parents but what if the parents fail to look after their children Who else is involved and what should they do Children in the International Political Economy examines the moral responsibilities of different individuals and agencies towards children and argues that some responsibilities should be codified as concrete legal duties If all else fails children must look to the international community for help Thus international agencies should recognize specific obligations to look after the well being of children around the world

Human Rights: Moral or Political? Adam Etinson,2018-03-09 Over the past decade or so philosophical speculation about human rights has tended to fall into two streams On the one hand there are Orthodox theorists who think of human rights as natural rights moral rights that we have simply in virtue of being human On the other hand there are Political theorists who think of human rights as rights that play a distinctive role or set of roles in modern international politics setting universal standards of political legitimacy serving as norms of international concern and or imposing limits on the exercise of national sovereignty This edited volume explores this disagreement its underlying sources and related issues in the philosophy of human rights Using the Orthodox Political debate as a springboard for broader reflection the volume covers a diverse range of questions about the relevance of the history of human rights to their philosophical comprehension how to properly understand the relationship between human rights morality and law how to balance the normative character of human rights their description of an ideal world with the requirement that they be feasible in the here and now the role of human rights in a world shaped by politics and power and how to reconcile the individualistic and communitarian aspects of human rights All chapters are accompanied by useful and probing commentaries which help to create dialogues throughout the entire volume

God and Globalization: Volume 2 Max L. Stackhouse,Peter J. Paris,Don S. Browning,2001-03-01 A trenchant study of the impact of globalization on the world s major institutions shows how the new authorities are influenced by religious and spiritual principles Original

The Foundations of Natural Morality S. Adam Seagrave,2014-05-05 Recent years have seen a renaissance of interest in the

relationship between natural law and natural rights During this time the concept of natural rights has served as a conceptual lightning rod either strengthening or severing the bond between traditional natural law and contemporary human rights Does the concept of natural rights have the natural law as its foundation or are the two ideas as Leo Strauss argued profoundly incompatible With *The Foundations of Natural Morality* S Adam Seagrave addresses this controversy offering an entirely new account of natural morality that compellingly unites the concepts of natural law and natural rights Seagrave agrees with Strauss that the idea of natural rights is distinctly modern and does not derive from traditional natural law Despite their historical distinctness however he argues that the two ideas are profoundly compatible and that the thought of John Locke and Thomas Aquinas provides the key to reconciling the two sides of this long standing debate In doing so he lays out a coherent concept of natural morality that brings together thinkers from Plato and Aristotle to Hobbes and Locke revealing the insights contained within these disparate accounts as well as their incompleteness when considered in isolation Finally he turns to an examination of contemporary issues including health care same sex marriage and the death penalty showing how this new account of morality can open up a more fruitful debate

Uncover the mysteries within Explore with is enigmatic creation, **Rights Talk The Impoverishment Of Political Discourse** . This downloadable ebook, shrouded in suspense, is available in a PDF format (PDF Size: *). Dive into a world of uncertainty and anticipation.
