

The background of the book cover is an aerial photograph of a coastal region. It shows a large, irregularly shaped bay or inlet, possibly a fjord, surrounded by land. The water is a deep blue, and the land is a lighter, textured blue-grey. The overall tone is monochromatic and serene.

Rightsizing The State The Politics Of Moving Borders:

Right-sizing the State Brendan O'Leary, Ian S. Lustick, Thomas Callaghy, 2001-11-22 Strategic decisions to reduce the size scope or ambitions of organizations including states in order to enhance future prospects are among the most difficult and least well understood choices made in collective life This volume makes a bold effort to identify the conditions in which less really is more Each contributor to the volume analyzes the possibilities for institutional redesign including state contraction for responding effectively to destabilizing and often violence laden conflicts Among the countries discussed in detail are Turkey Pakistan Morocco Congo Jordan Indonesia Russia and the former Soviet Union Iraq and India An impressive array of experts assess strategies that go against the grain strategies to righsize and even downsize states by changing their external and internal borders Typically this means opposing prevailing prejudices against partition and seraratist solutions as well as paying high political costs in the short run for more manageable political problems in the long run Understanding the conditions under which such strategies can be entertained and successfully implemented is as difficult and as important as making this kind of option available to beleaguered states in a complex and rapidly changing world *Right-sizing the State*

Brendan O'Leary, Ian S. Lustick, Thomas M. Callaghy, 2001 **Right-sizing the State** Brendan O'Leary, 2001 **The Politics of HBO's The Wire** Shirin Deylami, Jonathan Havercroft, 2014-12-17 This innovative new work suggests that The Wire reflects not simply a cultural take on contemporary America but a structural critique of the conditions of late modernity and global capitalism As such it is a visual text worth investigating and exploring for its nuanced examination of power difference and inequality Deylami Havercroft bring together nine essays addressing issues of interest to a range of academic fields in order to engage with this important cultural intervention that has transfixed audiences and sparked debate within the social scientific community While the TV show is primarily focused upon the urban politics of Baltimore the contributors to this volume read Baltimore as a global city That is they argue that the relations between race class power and violence that the series examines only make sense if we understand that inner city Baltimore is a node in a larger global network of violence and economic inequality The book is divided into three interrelated sections focusing on systemic and cultural violence the rise and decline of national and state formations and the dysfunctional and destructive forces of global capitalism Throughout the series the relation of the urban to the global is constantly being explored This innovative new volume explains clearly how The Wire portrays this interaction and what this representation can show social scientists interested in race neo liberal processes of globalization criminality gender violence and surveillance *Territorial Disputes in the Americas* Jorge Emilio Núñez, 2025-08-20 Territorial disputes are intricate shaped by historical legal geopolitical social cultural and other factors This book uses a multidimensional approach to assess real case scenarios across the Americas individually and collectively The work evaluates a selected sample of these disputes tracing origins to colonial histories unclear border demarcations or uncharted lands and challenges enforcing legal boundaries It then explores critical thematic

areas illustrated with compelling examples disputes entangled with non American agents like European nations colonialism neo colonial interference and pervasive colonial mindsets ongoing regional differences between neighboring states and the intricate sometimes conflicting roles of indigenous communities and implanted populations asserting self determination often diverging from states interests The work reveals sovereignty and disputes intertwine encompassing plural agents roles contexts realms and modes of existence beyond traditional views Cases like the Falkland Malvinas Islands Mexico US border Amazon region and Antarctica highlight how regional organizations and alliances could enhance peacebuilding strengthen American states against external powers and challenge traditional unidimensional scholarly approaches with a nuanced comprehensive perspective The book will appeal to researchers academics and policymakers in the areas of Public International Law Political Science and International Relations Legal Philosophy Political Philosophy and Jurisprudence

The Politics of Majority Nationalism Neophytos Loizides,2015-09-30 What drives the politics of majority nationalism during crises stalemates and peace mediations In his innovative study of majority nationalism Neophytos Loizides answers this important question by investigating how peacemakers succeed or fail in transforming the language of ethnic nationalism and war The Politics of Majority Nationalism focuses on the contemporary politics of the post Ottoman neighborhood to explore conflict management in Greece and Turkey while extending its arguments to Serbia Georgia and Ukraine Drawing on systematic coding of parliamentary debates new datasets and elite interviews the book analyses and explains the under emphasized linkages between institutions symbols and framing processes that enable or restrict the choice of peace Emphasizing the constraints societies face when trapped in antagonistic frames Loizides argues wisely mediated institutional arrangements can allow peacemaking to progress *Jordan* Beverley Milton-Edwards,Peter Hinchcliffe,2009-06-05 This volume intended for both academic and general readers offers an up to date overview of the history politics and economics of Jordan and its role in a region disfigured by the Arab Israeli conflict **State Expansion and Conflict** Oren

Barak,2017-09-28 A detailed comparison of Lebanon and Israel Palestine two expanded states which have experienced conflict and stability domestically and in their mutual relations Contested States in World Politics D. Geldenhuys,2009-04-22 This book investigates a phenomenon in world politics that is largely overlooked by scholars namely entities lacking international recognition of their status as independent states It includes case studies on the Eurasian Quartet Kosovo Somaliland Palestine Northern Cyprus Western Sahara and Taiwan State and Nation-Building in Pakistan Roger D. Long,Gurharpal Singh,Yunas Samad,Ian Talbot,2015-10-08 Religion violence and ethnicity are all intertwined in the history of Pakistan The entrenchment of landed interests operationalized through violence ethnic identity and power through successive regimes has created a system of authoritarian clientalism This book offers comparative historicist and multidisciplinary views on the role of identity politics in the development of Pakistan Bringing together perspectives on the dynamics of state building the book provides insights into contemporary processes of national contestation which are

crucially affected by their treatment in the world media and by the reactions they elicit within an increasingly globalised polity It investigates the resilience of landed elites to political and social change and in the years after partition looks at the impact on land holdings of population transfer It goes on to discuss religious identities and their role in both the construction of national identity and in the development of sectarianism The book highlights how ethnicity and identity politics are an enduring marker in Pakistani politics and why they are increasingly powerful and influential An insightful collection on a range of perspectives on the dynamics of identity politics and the nation state this book on Pakistan will be a useful contribution to South Asian Politics South Asian History and Islamic Studies **International Encyclopedia of Human**

Chima,Pahi Saikia,2023-09-01 Insurgency in India s Northeast

provides a systematic analysis of every major secessionist group and insurgency in the region within a unified and original explanatory framework focusing primarily on the postcolonial period This book presents a parsimonious analytic narrative involving a rich sequential account of the historical evolution of Mizo Naga Meitei and ethnic Assamese identities from precolonial to colonial to postcolonial times Avoiding essentialist or primordialist arguments the chapters in the book demonstrate how ethnic sub national identities are dynamic and malleable phenomenon not immutable natural givens In particular it argues that the postcolonial Indian state has attempted to integrate these ethnic sub state national groups into the Indian Union through a combination of democratic accommodation consociationalism and hegemonic violent control strategically designed to encapsulate their evolving sub national identities into the overarching state sponsored Indian nationality Through this book readers will gain a rich understanding of the dynamics of ethnicity nationality and the nation

state building process in postcolonial India It will be of interest to researchers in the fields of Asian studies ethnicity nationalism separatism security studies border studies and international relations

Territorial Disputes and State Sovereignty Jorge E. Núñez, 2020-05-11 Adopting a multi disciplinary approach this book opens new ground for research on territorial disputes Many sovereignty conflicts remain unresolved around the world Current solutions in law political science and international relations generally prove problematic to at least one of the agents part of these differences Arguing that disputes are complex multi layered and multi faceted this book brings together a global inter disciplinary view of territorial disputes The book reviews the key conceptual elements central to legal and political sciences with regards to territorial disputes state sovereignty and self determination Looking at some of the current long standing disputes worldwide it compares and contrasts the many issues at stake and the potential remedies currently available in order to assess why some territorial disputes remain unresolved Finally it offers a set of guidelines for dispute settlement and conflict resolution that current remedies fail to provide It will appeal to students and scholars working in international relations legal theory and jurisprudence public international law and political sciences

The Decline of Regionalism in Putin's Russia J. Paul Goode, 2011-05-11 This book reassesses Putin s attempt to reverse the decentralization of power that characterised centre regional relations in the 1990s focusing on regional responses to Putin s federal reforms It explains the decline of regionalism after 2000 in terms of the dynamics of regional boundaries understood as the juridical boundaries which demarcate a region s territorial extent and its resources institutional boundaries that sustain regional differences and cultural boundaries that define the ethnic or technocratic principles on which a region could claim legitimate existence The book questions the conventional wisdom regarding the success of Putin s regime It shows how regional governors responded not by attempting to deflect the reforms with outright resistance but by mimicking Putin s centralisation of power at the regional level In turn this facilitated the homogenisation of regional political regimes and regional mergers The book demonstrates how the reordering of regions advanced sporadically how pockets of resistance persist and how the potential for the revival of regionalism continues

Where Nation-States Come From Philip G. Roeder, 2012-01-09 To date the world can lay claim to little more than 190 sovereign independent entities recognized as nation states while by some estimates there may be up to eight hundred more nation state projects underway and seven to eight thousand potential projects Why do a few such endeavors come to fruition while most fail Standard explanations have pointed to national awakenings nationalist mobilizations economic efficiency military prowess or intervention by the great powers Where Nation States Come From provides a compelling alternative account one that incorporates an in depth examination of the Russian Empire the Soviet Union and their successor states Philip Roeder argues that almost all successful nation state projects have been associated with a particular political institution prior to independence the segment state a jurisdiction defined by both human and territorial boundaries Independence represents an administrative upgrade of a segment state Before

independence segmental institutions shape politics on the periphery of an existing sovereign state Leaders of segment states are thus better positioned than other proponents of nation state endeavors to forge locally hegemonic national identities Before independence segmental institutions also shape the politics between the periphery and center of existing states Leaders of segment states are hence also more able to challenge the status quo and to induce the leaders of the existing state to concede independence Roeder clarifies the mechanisms that link such institutions to outcomes and demonstrates that these relationships have prevailed around the world through most of the age of nationalism *Politics of Religion and Nationalism* Ferran Requejo, Klaus-Jürgen Nagel, 2014-12-17 There are numerous examples of how religion and nationalism intertwine In some cases a common religion is the fundamental marker of a nation's identity whereas in others secular nationalism tries to hold together people of different religious beliefs This book examines the link between religion and nationalism in contemporary polities By exploring case studies on India Russia Israel Canada Chechnya Bosnia Herzegovina Belgium Northern Ireland Scotland Sri Lanka Catalonia and the Basque Country it seeks to understand the relationship between these two key societal forms of diversity and assess the interaction between religious and nationalist perspectives Expert contributors examine a variety of phenomena including secular nationalism secessionism and polities in which religious pluralism is evolving This book will be of interest to students and scholars of political science religion and politics nationalism federalism secession political philosophy racial and ethnic politics and comparative politics Religious Politics in Turkey Ceren Lord, 2018-11-08 Presents an account of the rise of Erdogan's AKP showing how the politicisation of religion has roots in the period of early nation building in Turkey **Iraq** Gareth Stansfield, 2013-08-27 The removal of the regime of Saddam Hussein and the reconstruction of the Iraqi state were critical components of US foreign policy towards the Middle East in the aftermath of 9 11 It was hoped that Iraq free from the oppression of Saddam's tyranny would be transformed into a beacon of democracy in the Middle East Iraq has indeed been transformed but into a zone of instability With Saddam's regime no more Iraq has turned into a morass of competing ethno sectarian political and social forces in stark contrast to the views expressed by Western and Middle Eastern commentators alike before the US led invasion who commonly believed in the strength of Iraqi nationalism Why did this fragmentation occur Have Sunni Shii tensions always been present Are the Kurds seeking secession or accommodation within the state What has been the social and political impact of years of dictatorship war and hardship And why have US attempts to restructure the Iraqi state resulted in Iraq being on the verge of becoming a failed state rather than the first democratic domino in the Middle East In this timely new book Gareth Stansfield explores these questions and frames them in an analysis which takes into account Iraq's diverse society and the geopolitical interventions of regional states and great powers He concludes with an assessment of Iraq since the removal of Saddam Failed States and the Origins of Violence Tiffany Howard, 2016-04-15 What makes a terrorist Is an individual inherently predisposed to be attracted to political violence or does exposure to a certain environment desensitize them in such a way

that violence represents a viable mode for addressing political grievances Identifying state failure as the impetus for political violence this book addresses these questions and focuses on why existing extremist groups find failed states so attractive Utilizing global barometer data Tiffiany Howard examines the underpinnings of individual support for political violence and argues that an insidious pattern of deprivation within failed states drives ordinary citizens to engage in and support extreme acts of political violence A rigorous examination of four regions plagued by a combination of failed states and political violence Sub Saharan Africa The Middle East and North Africa Southeast and South Asia and Latin America this text draws parallels to arrive at a single conclusion that failed states are a natural breeding ground for terrorism and political violence

The Nation-State in Transformation Michael Boss, 2010-07-16 The Nation State in Transformation discusses the significance of the state in a globalised economy Focusing on Denmark and Ireland the book analyses how small states adapt to the international market and argues that the institutional mediation of globalisation helps us explain why some states seem to possess more capacity to adjust than others Not only must we bring the state back in we must also consider how history culture and collective identities influence the performance of the nation state in the new globalised world order With contributions by Francis Fukuyama Bob Jessop David Marsh John A Hall and John Campbell Georg Sorensen Bjorn Hvinden Rory O'Donnell Peadar Kirby Joseph Ruane Brian Girvin Sean O'Riain Chris McInerney Gert and Gunnar Svendsen Lars Bo Kaspersen and Linda Thorsager Henrik Bang and Michael Boss
