Jonathan Boyarin, 2011-05-14 *The Unconverted Self* proposes that questions of difference inside Christian Europe not only are inseparable from the painful legacy of colonialism but also reveal Christian domination to be a fragile construct. Boyarin compares the Christian efforts aimed toward European Jews and toward indigenous peoples of the New World, bringing into focus the intersection of colonial expansion with the Inquisition and adding significant nuance to the entire question of the colonial encounter. Publisher description. **The A Oxford Handbook of Borderlands of the Iberian World** Danna A.

Levin Rojo, Cynthia Radding, 2019-11-06 This collaborative, multi-authored volume integrates interdisciplinary approaches to ethnic, imperial, and national borderlands in the Iberian World, 16th to early 19th centuries. It illustrates the historical processes that produced borderlands in the Americas and connected them to global circuits of exchange and migration in the early modern world. The book offers a balanced state-of-the-art educational tool representing innovative research for teaching and scholarship. Its geographical scope encompasses imperial borderlands in what today is northern Mexico and southern United States; the greater Caribbean basin, including cross-imperial borderlands among the island archipelagos and Central America; the greater Paraguayan river basin, including the Gran Chaco lowland, Brazil, Paraguay, and Bolivia; the Amazonian borderlands; the grasslands and steppes of southern Argentina and Chile; and Iberian trade and religious networks connecting the Americas to Africa and Asia. The volume is structured around the following broad themes: environmental change and humanly crafted landscapes; the role of indigenous allies in the Spanish and Portuguese military expeditions; negotiations of power across imperial lines and indigenous chiefdoms; the parallel development of subsistence and commercial economies across terrestrial and maritime trade routes; labor and the corridors of forced and free migration that led to changing social and ethnic identities; histories of science and cartography; Christian missions; music and visual arts; gender and sexuality, emphasizing distinct roles and experiences documented for men and women in the borderlands. While centered in the colonial era, it is framed by pre-contact Mesoamerican borderlands and nineteenth-century national developments for those regions where the continuity of inter-ethnic relations and economic networks between the colonial and national periods is particularly salient, like the central Andes lowland, Bolivia, central Brazil, and the Mapuche-Pehuenche captaincies in South America. All the contributors are highly recognized scholars representing different disciplines and academic traditions in North America, Latin America, and Europe. **Spain in the Southwest** John L. Kessel, 2013-02-27 John L. Kessel's *Spain in*
