Riots In New Brunswick:

Riots in New Brunswick Scott W. See, 1993 During the mid to late 1840s dramatic riots shook the communities of Woodstock Fredericton and Saint John Irish Catholic immigrants fought Protestant Orangemen This book is the first serious historical treatment of the bloody riots and the tangled events that led to them p i **New Brunswick, New Jersey** David Listokin, Dorothea Berkhout, James W. Hughes, 2016-06-14 While many older American cities struggle to remain vibrant New Brunswick has transformed itself adapting to new forms of commerce and a changing population and enjoying a renaissance that has led many experts to cite this New Jersey city as a model for urban redevelopment Featuring more than 100 remarkable photographs and many maps New Brunswick New Jersey explores the history of the city since the seventeenth century with an emphasis on the dramatic changes of the past few decades Using oral histories archival materials census data and surveys authors David Listokin Dorothea Berkhout and James W Hughes illuminate the decision making and planning process that led to New Brunswick s dramatic revitalization describing the major redevelopment projects that demonstrate the city s success in capitalizing on funding opportunities These projects include the momentous decision of Johnson Johnson to build its world headquarters in the city the growth of a theater district the expansion of Rutgers University into the downtown area and the destruction and rebuilding of public housing But while the authors highlight the positive effects of the transformation they also explore the often heated controversies about demolishing older neighborhoods and ask whether new building benefits residents Shining a light on both the successes and failures in downtown revitalization they underscore the lessons to be learned for national urban policy highlighting the value of partnerships unwavering commitment and local leadership Today New Brunswick s skyline has been dramatically altered by new office buildings residential towers medical complexes and popular cultural centers This engaging volume explores the challenges facing urban America while also providing a specific case study of a city s quest to raise its economic fortunes and retool its economy to changing needs *Faith, Fraternity and Fighting* Donald M. MacRaild, 2005-01-01 This book fills one of the most significant gaps in modern British historiography Despite its public profile the Orange Order has not attracted commensurate scholarly attention Uncritical apologists apart historians have displayed condescending censure stigmatising and dismissing the Order as sectarian a term unduly restricted in their studies to violence and demonstrations Having gained unique access to lodge membership records MacRaild provides a timely corrective MacRaild makes excellent use of archive material to provide a fascinating study of diasporic Orangeism showing how it was imported into mainland Britain and implanted within working class communities as a way of life able to attract adherents with no obvious Irish provenance or connection the Toxteth lodge in North West England has a not insignificant black presence Impeccably researched and expertly written *Faith Fraternity and Fighting* is a major achievement and an important step in rescuing Orangeism from the stigma of sectarianism The Miramichi Fire Alan MacEachern, 2020-07-23 On 7 October 1825 a massive forest fire swept

through northeastern New Brunswick devastating entire communities When the smoke cleared it was estimated that the fire had burned across six thousand square miles one fifth of the colony The Miramichi Fire was the largest wildfire ever to occur within the British Empire one of the largest in North American history and the largest along the eastern seaboard Yet despite the international attention and relief efforts it generated and the ruin it left behind the fire all but disappeared from public memory by the twentieth century A masterwork in historical imagination The Miramichi Fire vividly reconstructs nineteenth century Canada's greatest natural disaster meditating on how it was lost to history First and foremost an environmental history the book examines the fire in the context of the changing relationships between humans and nature in colonial British North America and New England while also exploring social memory and the question of how history becomes established warped and forgotten Alan MacEachern explains how the imprecise and conflicting early reports of the fire's range along with the quick rebound of the forests and economy of New Brunswick led commentators to believe by the early 1900s that the fire's destruction had been greatly exaggerated As an exercise in digital history this book takes advantage of the proliferation of online tools and sources in the twenty first century to posit an entirely new reading of the past Resurrecting one of Canada's most famous and yet unexamined natural disasters The Miramichi Fire traverses a wide range of historical and scientific literatures to bring a more complete story into the light

Apostle to the Wilderness Barry L. Craig, 2005 This book describes the life and work of John Medley the first member of the Oxford Movement to be consecrated bishop As an experiment W E Gladstone future Prime Minister of England and keen churchman arranged in 1844 to have a member of this controversial group appointed to the Episcopal bench Because those associated with this movement were suspected of Roman Catholic theological leanings and perhaps even disloyalty to the English Establishment such a move was politically and ecclesiastically dangerous in England So Medley was sent to the colonies Intended to establish High Churchmanship and the British Empire in the soil of the new world Medley became convinced over this forty seven year episcopate that the American model of the church was more practical than the British He eventually forged an identity for his diocese that was in many ways to be the pattern for the modern worldwide Anglican Church Barry Craig is an Assistant Professor in the department of philosophy at St Thomas University

A Nation of Immigrants Franca Iacovetta, Paula Draper, Robert Ventresca, 2017-06-22 This collection brings together a wide array of writings on Canadian immigrant history including many highly regarded influential essays Though most of the chapters have been previously published the editors have also commissioned original contributions on understudied topics in the field The readings highlight the social history of immigrants their pre migration traditions as well as migration strategies and Canadian experiences their work and family worlds and their political cultural and community lives They explore the public display of ethno religious rituals race riots and union protests the quasi private worlds of all male boarding houses and of female domestics toiling in isolated workplaces and the intrusive power that government and even well intentioned social reformers have wielded over

immigrants deemed dangerous or otherwise in need of supervision Organized partly chronologically and largely by theme the topical sections will offer students a glimpse into Canada s complex immigrant past In order to facilitate classroom discussion each section contains an introduction that contextualizes the readings and raises some questions for debate A Nation of Immigrants will be useful both in specialized courses in Canadian immigration history and in courses on broader themes in Canadian history

Atlantic Canada's Irish Immigrants Lucille H. Campey, 2016-08-06 A transformative work that explodes assumptions about the importance of the Great Irish Potato Famine to Irish immigration In this major study Lucille Campey traces the relocation of around ninety thousand Irish people to their new homes in Atlantic Canada She shatters the widespread misconception that the exodus was primarily driven by dire events in Ireland The Irish immigration saga is not solely about what happened during the Great Potato Famine of the 1840s it began a century earlier Although they faced great privations and had to overcome many obstacles the Irish actively sought the better life that Atlantic Canada offered Far from being helpless exiles lacking in ambition who went lemming like to wherever they were told to go the Irish grabbed their opportunities and prospered in their new home Campey gives these settlers a voice Using wide ranging documentary sources she provides new insights about why the Irish left and considers why they chose their various locations in Nova Scotia New Brunswick Prince Edward Island and Newfoundland She highlights how through their skills and energy they benefitted themselves and contributed much to the development of Atlantic Canada This is essential reading for anyone wishing to understand the history of the Irish exodus to North America and provides a mine of information useful to family historians

Hollywood Riots Doug Dibbern, 2015-12-17 The large literature about the politics of Hollywood in the period of McCarthy and the blacklist has largely overlooked political filmmaking during those agitated years Hollywood Riots examines the most vibrant cycle of independently produced political films made while House Committee on Un American Activities was investigating communists in the film industry In doing so it shifts the focus from the politics of Washington to the politics of Los Angeles and from the films of the Hollywood Ten to the more politically complex films of the progressive community at large Dibbern

shows how the movies produced by progressives at the end of the 1950s including *The Lawless* *The Sound of Fury* *The Underworld* were the logical cinematic parallel to their political and journalistic advocacy fighting the conservative newspapers In these films they were recasting political events from California's recent past as politically engaged narratives that were inflected with their own fears of persecution *Hollywood Riots* reviews the work of notable directors like Joseph Losey and Cy Endfield as well as introducing unheralded political screenwriters and directors such as Daniel Mainwaring Jo Pagano and Leo C Popkin

All Hell Broke Loose Ann V. Collins, 2012-05-01 The United States has a troubling history of violence regarding race This book explores the emotionally charged conditions and factors that incited the eruption of race riots in America between the Progressive Era and World War II While racially motivated riot violence certainly existed in the United States both before and after the Progressive Era through World War II a thorough account of race riots during this particular time span has never been published *All Hell Broke Loose* fills a long neglected gap in the literature by addressing a dark and embarrassing time in our country's history one that warrants continued study in light of how race relations continue to play an enormous role in the social fabric of our nation Author Ann V Collins identifies and evaluates the existing conditions and contributing factors that sparked the race riots during the period spanning the Progressive Era to World War II throughout America Through the lens of specific riots Collins provides an overarching analysis of how cultural factors and economic change intersected with political influences to shape human actions on both individual and group levels

Finding Molly Johnson Mark G. McGowan, 2024-09-15 Ireland's Great Famine produced Europe's worst refugee crisis of the nineteenth century More than 1.5 million people left Ireland many ending up in Canada Among the most vulnerable were nearly 1,700 orphaned children who now found themselves destitute in an unfamiliar place The story Canada likes to tell is that these orphans were adopted by benevolent families and that they readily adapted to their new lives but this happy ending is mostly a myth In *Finding Molly Johnson* Mark McGowan traces what happened to these children In the absence of state support the Catholic and Protestant churches worked together to become the orphans' principal caregivers The children were gathered, fed, schooled and placed in family homes in Saint John Quebec Montreal Bytown Kingston and Toronto Yet most were not considered members of their placement families but rather sources of cheap labour Many fled their placements joining thousands of other Irish refugees on the Canadian frontier searching for work extended family and the opportunity to begin a new life *Finding Molly Johnson* revisits an important chapter of the Irish emigrant experience revealing that the story of Canada's acceptance of the famine orphans is a product of national myth making that obscures both the hardship the children endured and the agency they ultimately expressed

The Grand Experiment Hamar Foster, Benjamin L. Berger, A.R. Buck, 2009-07-01 The essays in this volume reflect the exciting new directions in which legal history in the settler colonies of the British Empire has developed The contributors show how local life and culture in selected settlements influenced and was influenced by the ideology of the rule of law that accompanied the British colonial

project Exploring themes of legal translation local understandings judicial biography and law at the boundaries they examine the legal cultures of dominions in Canada Australia and New Zealand to provide a contextual and comparative account of the incomplete implementation of the British constitution in these colonies **The Voice of Violence** Joel P.

Rhodes,2001-04-30 The tide of 1960s political upheaval while mistaken at the time by some as a unified assault against America carried out by revolutionaries at home and abroad was actually hundreds of locally constructed expressions of political discourse reflecting the influences of race class gender and local conditions on each unique group of practitioners This is a comparative study of how radicals at the local level staged displayed and ultimately narrated symbolic acts of performative violence against the symbols of the American system The term performative violence refers to a method of public protest whereby participants create the conditions in which their violent actions become a political text a powerful symbol with a strong historical precedent Recognizing the textuality of history this interdisciplinary examination deconstructs the performative violence within its historically specific and socially constructed contexts using four representative case histories of late 1960s and early 1970s activism These are the African American rioters in Kansas City the Black Panther Party in Detroit campus radicals at Kansas State University and activists at the University of Kansas Rather than focusing on the major clashes of the Vietnam era this book contributes to recent scholarship on the 1960s which has attempted to offer a more textured analysis of the era s activism particularly its political violence based on more local studies Borderland Smuggling Joshua M. Smith,2019-10-14 Passamaquoddy Bay lies between Maine and New Brunswick at the mouth of the St Croix River Most of it including Campobello Island is within Canada but the Maine town of Lubec lies at the bay s entrance Rich in beaver pelts fish and timber the area was a famous smuggling center after the American Revolution Joshua Smith examines the reasons for smuggling in this area and how three conflicts in early republic history the 1809 Flour War the War of 1812 and the 1820 Plaster War reveal smuggling s relationship to crime borderlands and the transition from mercantilism to capitalism Smith astutely interprets smuggling as created and provoked by government efforts to maintain and regulate borders In 1793 British and American negotiators framed a vague new boundary meant to demarcate the lingering British empire in North America Canada from the new American Republic Officials insisted that an abstract line now divided local peoples on either side of Passamaquoddy Bay Merely by persisting in trade across the newly demarcated national boundary people violated the new laws As smugglers they defied both the British and American efforts to restrict and regulate commerce Consequently local resistance and national authorities engaged in a continuous battle for four decades Smith treats the Passamaquoddy Bay smuggling as more than a local episode of antiquarian interest Indeed he crafts a local case study to illuminate a widespread phenomenon in early modern Europe and the Americas A volume in the series New Perspectives on Maritime History and Nautical Archaeology edited by James C Bradford and Gene Allen Smith

Rioting in America Paul A. Gilje,1999-03-22 a sweeping analytical synthesis of collective violence from the colonial
