Hezel,2003-09-30 Hezel has written an authoritative and engaging narrative of a succession of colonial regimes drawing upon a broad range of published and archival sources as well as his own considerable knowledge of the region This is a conventional history and a very good one focused mostly on political and economic developments Hezel demonstrates a fine understanding of the complicated

relations between administrators missionaries traders chiefs and commoners in a wide range of social and historical settings Pacific Affairs The tale of Strangers in Their Own Land is one of interplay between four sequential colonial regimes Spain Germany Japan and the United States and the diverse island cultures they governed It is also a tale of relationships among islands whose inhabitants did not always see eye to eye and among individuals who fought private and public battles in those islands Hezel conveys both the unity of purpose exerted by a colonial government and the subversion of that purpose by administrators teachers islands and visitors The history is thoroughly supported by archival materials first person testimonies and secondary sources Hezel acknowledges the power of the visual when he ends his book by describing the distinctive flags that now replace Spanish German Japanese and American symbols of rule the scene epitomizes a theme of the book global political and economic forces whether colonial or post colonial cannot erode the distinctiveness each island claims American Historical Review

The Origins of World War I Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coteries in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coteries their backgrounds and training and on their unique agendas

The Allure of Battle Cathal Nolan, 2017-01-02 History has tended to measure war's winners and losers in terms of its major engagements battles in which the result was so clear cut that they could be considered decisive Cannae Konigsberg Austerlitz Midway Agincourt all resonate in the literature of war and in our imaginations as tide turning But these legendary battles may or may not have determined the final outcome of the wars in which they were fought Nor has the genius of the so called Great Captains from Alexander the Great to Frederick the Great and Napoleon play a major role Wars are decided in other ways Cathal J Nolan's *The Allure of Battle* systematically and engrossingly examines the great battles tracing what he calls short war thinking the hope that victory might be swift and wars brief As he proves persuasively however such has almost never been the case Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side's defences Massive conflicts the so called people's wars beginning with Napoleon and continuing until 1945 have consisted of and been determined by prolonged stalemate and attrition industrial wars in which the determining factor has been not military but material Nolan's masterful book places battles squarely and mercilessly within the context of the wider conflict in which they took place In the process it helps corrects a distorted view of battle's role in war replacing popular images of the battles of annihilation with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers Accessible provocative exhaustive and illuminating *The Allure of Battle* will spark fresh debate about the history and conduct of warfare

The Eagle and the Rising Sun Alan Schom, 2004 On Saturday August 2 1941 the Washington Post reported that President Franklin D Roosevelt would depart the next day for a fishing vacation aboard his yacht Potomac By the morning of August 5 the Potomac was sailing toward the fishing waters off Cape Cod but the president was not on board

Having quietly disembarked in the middle of the night the president now joined by his top military advisors was headed for Newfoundland where the U S and British governments would meet in a secret summit to coordinate their military efforts although the United States had yet to declare war on Germany The British were appalled at the state of American preparedness one British colonel remarking They have a long way to go before they can play any decisive part in the war But ready or not the United States would be catapulted into World War II within a matter of months Alan Schom s superb histories and biographies have been lauded for their dramatic sweep their focus on extraordinary personalities and their refreshingly iconoclastic perspective Schom begins this magisterial account of World War II in the Pacific by demonstrating an ironic paradox on one hand the American government and people were as inadequately prepared for war as any major power ever has been on the other the Japanese high command plunged headlong into the Pacific campaign despite clear evidence from their own analysts that Japan had too little oil and too feeble an economy to prevail against the United States It was a war that should not have been fought Schom recounts a tense saga of diplomatic maneuvering strategic blunders and pivotal successes played out in the halls of the White House Downing Street and the Imperial Palace as well as on the seas and shores of the Pacific Key figures in the war come vividly to life in a series of brilliant biographical sketches Emperor Hirohito a devotee of Western pursuits such as golf and jazz who hungered to expand Japan s global reach the destructively egotistical General Douglas MacArthur whose splendid achievements in World War I stood in stark contrast to his incompetent leadership in the Philippines Rear Admiral Kelly Turner whose realism and tactical savvy played a crucial role in turning the tide of the war and the cool headed Admiral Tanaka Raizo who repeatedly slipped through the Allied net transporting troops and supplies to and from Guadalcanal The Eagle and the Rising Sun embraces the broad strategic concerns of the war and the telling details and turning points of individual engagements As Rear Admiral Thomas Marfiak Ret CEO and publisher of the U S Naval Institute writes in the Foreword From time to time we are privileged to be given extraordinary insights into the history of our age Alan Schom has given us a tapestry into which he has woven figures of immense proportions yet he has not lost sight of their humanity He writes in the grand tradition of Barbara Tuchman s The Guns of August Book jacket

Park Chung Hee and Modern Korea Carter J. Eckert, 2016-11-07 This first volume in a two part study examines the origins of South Korean authoritarianism as personified by the militant political leader For South Koreans the twenty years from the early 1960s to late 1970s were the best and worst of times a period of unprecedented economic growth and of political oppression that deepened as prosperity spread In this masterly account Carter J Eckert finds the roots of South Korea s dramatic socioeconomic transformation in the country s long history of militarization a history personified in South Korea s paramount leader Park Chung Hee In Park Chung Hee and Modern Korea Eckert reveals how the foundations of Park s leadership were established during the period of Japanese occupation As a cadet in the Manchurian Military Academy Park and his fellow officers absorbed the Imperial Japanese Army s ethos of victory at all costs

and absolute obedience to authority When Park seized power in 1961 he applied this ethos to the project of Korean modernization Korean society under Park exuded a distinctively martial character Eckert shows Its hallmarks included the belief that the army should intervene in politics in times of crisis that a central authority should manage the country s economic system and that the state should maintain a strong disciplinary presence in society reserving the right to use violence to maintain order A milestone in the literature of modern East Asia Bruce Cumings author of Korea s Place in the Sun *Prisoners of the Japanese in World War II* Van Waterford,1994 Narratives and facts on life in civilian internment centers and POW camps are presented here Military Law Review ,1992 **War in the Modern World since 1815** Jeremy Black,2013-10-11 Conflict is central to human history It is often the cause course and consequence of social cultural and political change Military history therefore has to be more than a technical analysis of armed conflict War in the Modern World since 1815 addresses war as a cultural phenomenon discusses its meaning in different societies and explores the various contexts of military action The China Incident G. William Whitehurst,2021-01-06 In 1937 Japan blundered into a debilitating war with China beginning with a minor incident near Peking now Beijing that quickly escalated The Japanese won significant battles and captured the capital Nanking after a horrific massacre of its citizens Chiang Kai shek China s acknowledged leader would not surrender each side believed it could win a war of attrition The U S sided with China primarily because of President Roosevelt s personal bias in their favor Drawing on a wealth of sources including interviews with key players from soldiers to diplomats this history traces America s unexpected and unpopular involvement in an Asian conflict and the growing recognition of Japan s threat to world peace and the inevitability of war
