## Rise Of Babylon:

**Babylon** Charles River Editors, 2025-05-02 The ancient world was full of many fantastic cities and places and like today's major cities the great ancient cities were hubs of trade religion and science Writing was first invented in ancient cities and many important scientific discoveries were also made in them some of which are still used in the modern world Among the many cities of the ancient world Rome and Athens may come to mind first but the city of Babylon in the land of Mesopotamia was already an ancient venerated city when the others were still inconsequential settlements Today Babylon has become a byword for greed excess and licentiousness mostly due to its mention in the Bible but a closer examination reveals that Babylon was so much more and even perhaps the most important city in the ancient world Ancient Babylon was home to great dynasties that produced some of the world's most influential leaders most notably Hammurabi and Nebuchadnezzar and these rulers invoked their wills on the entire ancient Near East and have been remembered as both progressive and cruel all at the same time Babylon was also the seat of culture in ancient Mesopotamia and the place where scholars made amazing scientific advances that would not be eclipsed for several centuries An examination of ancient Babylon demonstrates that it was truly the first great city in the ancient world Of course the sheer span of history between Babylon's power and today has produced plenty of historical questions and controversy One of the things people most closely associate Babylon with is the Hanging Gardens which like the Great Pyramid of Giza were considered both a technological marvel and an aesthetic masterpiece Ancient historians believed that the Hanging Gardens were constructed around the 7th century B C after the second rise of Babylon which would make them the second oldest of the Seven Wonders of the Ancient World and they were reputedly created by the biblical Nebuchadnezzar II the king who conquered Judea to please his homesick wife after the model of Egyptian pleasure gardens However in 1993 British Assyriologist Stephanie Dalley proposed a theory that the Hanging Gardens were ordered built by the Assyrian King Sennacherib a century earlier for his giant palace at Nineveh instead She believed that the two sites were easily confused by ancient sources resulting in the Gardens being incorrectly located in Babylon a century later Babylon was also instrumental in the development of the region's religions Ancient Mesopotamian religion continues to captivate people for many of the same reasons today's best known religions and their histories fascinate people The religion practiced by the Ancient Mesopotamians provides a certain mix between the mundane and the surreal and at the same time aspects of it are both familiar and bizarre to people today Some find themselves drawn to it based on its preeminent position in religious history as the oldest documented religion in the world Others become fascinated with the close connections between some of the Mesopotamian religious texts which include a flood story a creation story and a story of the righteous sufferer and their parallels in the Hebrew Bible Today the Ancient Mesopotamians and their religion are a source of curiosity but thousands of years ago the religion was an integral part of their lives From their birth to their death deities surrounded them and whether their social interactions were on the level of a smaller city or

that of a larger nation state deities played key roles in the social fabric of their society In fact the people and religion were so intertwined that a study of Ancient Mesopotamian religion is a study of Ancient Mesopotamian culture **Babylon** Charles River Charles River Editors,2017-01-26 Includes pictures Includes historic accounts about the city and its history Profiles Hammurabi Nebuchadnezzar and the Hanging Gardens Includes a bibliography for further reading The ancient world was full of many fantastic cities and places and like today s major cities the great ancient cities were hubs of trade religion and science Writing was first invented in ancient cities and many important scientific discoveries were also made in them some of which are still used in the modern world Among the many cities of the ancient world Rome and Athens may come to mind first but the city of Babylon in the land of Mesopotamia was already an ancient venerated city when the others were still inconsequential settlements Today Babylon has become a byword for greed excess and licentiousness mostly due to its mention in the Bible but a closer examination reveals that Babylon was so much more and even perhaps the most important city in the ancient world Ancient Babylon was home to great dynasties that produced some of the world s most influential leaders most notably Hammurabi and Nebuchadnezzar and these rulers invoked their wills on the entire ancient Near East and have been remembered as both progressive and cruel all at the same time Babylon was also the seat of culture in ancient Mesopotamia and the place where scholars made amazing scientific advances that would not be eclipsed for several centuries An examination of ancient Babylon demonstrates that it was truly the first great city in the ancient world Of course the sheer span of history between Babylon s power and today has produced plenty of historical questions and controversy One of the things people most closely associate Babylon with is the Hanging Gardens which like the Great Pyramid of Giza were considered both a technological marvel and an aesthetic masterpiece Ancient historians believed that the Hanging Gardens were constructed around the 7th century B C after the second rise of Babylon which would make them the second oldest of the Seven Wonders of the Ancient World and they were reputedly created by the biblical Nebuchadnezzar II the king who conquered Judea to please his homesick wife after the model of Egyptian pleasure gardens However in 1993 British Assyriologist Stephanie Dalley proposed a theory that the Hanging Gardens were ordered built by the Assyrian King Sennacherib a century earlier for his giant palace at Nineveh instead She believed that the two sites were easily confused by ancient sources resulting in the Gardens being incorrectly located in Babylon a century later Babylon was also instrumental in the development of the region s religions Ancient Mesopotamian religion continues to captivate people for many of the same reasons today s best known religions and their histories fascinate people The religion practiced by the Ancient Mesopotamians provides a certain mix between the mundane and the surreal and at the same time aspects of it are both familiar and bizarre to people today Some find themselves drawn to it based on its preeminent position in religious history as the oldest documented religion in the world Others become fascinated with the close connections between some of the Mesopotamian religious texts which include a flood story a creation story and a story of the righteous sufferer and their

*Sumerian Origins* Norah Romney, 2020-06-07 A Mysterious Group of People came to settle in southern Mesopotamia sometime around 5400BC What is now the modern state of Iraq the first city of Mesopotamia was founded named Eridu Although historians have generally regarded this as the world's first city we have seen this challenged on numerous occasions by recent discoveries too numerous to mention here Eridu had all the things we ordinarily associate with an ancient city temples administrative buildings housing agriculture markets art and of course walls to keep out unsavoury characters The elusive aspect is we have absolutely no idea where they acquired their language and bizarre language it is we have no idea what they originally looked like Their language which we call Sumerian and the subsequent Akkadian derivative were linguistic isolates Sumerian is the oldest known written language on Earth and

any languages it might have derived from or developed alongside have been lost to time Figuring out what their baffling ethnic identity based on their art is a doomed effort because their art was so stylized that a good case could be made that it portrays people of any ethnicity or the people they encountered The Sumerian language was not Semitic and the Akkadian conquests of 2334 BCE disrupted the ethnic and cultural isolation of the Sumerian people By about 2000 BCE the Sumerians were speaking Akkadian and the Sumerian and Akkadian civilizations were regarded as a single enterprise Does this mean that we ll never know how the Sumerian language developed or where the Sumerians originally came from Well if any reasonably well preserved Sumerian bones can be found DNA testing could tell us their ethnic origin Although this all sounds murky we have literature left in the form of cuneiform writing that speaks volumes on their day to day life and their highly unusual gods The Sumerian pantheon reads like wild science fiction at times and although they often speak of their own origins in terms of their gods and family ties many have chosen to label this as mythology ignore it or merely treat it in a literature aspect
