Early American Technology Judith A. McGaw, 2014-01-01 This collection of original essays documents technology's centrality to the history of early America Unlike much previous scholarship this volume emphasizes the quotidian rather than the exceptional the farm household seeking to preserve food or acquire tools the surveyor balancing economic and technical considerations while laying out a turnpike the woman of child bearing age employing herbal contraceptives and the neighbors of a polluted urban stream debating issues of property odor and health These cases and others drawn from brewing mining farming and woodworking enable the authors to address recent historiographic concerns including the environmental aspects of technological change and the gendered nature of technical knowledge Brooke Hindle's classic 1966 essay on early American technology is also reprinted and his view of the field is reassessed A bibliographical essay and summary of Hindle's bibliographic findings conclude the volume The contributors are Judith A McGaw Robert C Post Susan E Klepp Michal McMahon Patrick W O Bannon Sarah F McMahon Donald C Jackson Robert B Gordon Carolyn C Cooper and Nina E Lerman

Bulletin of the Bureau of Labor Statistics, 1990 **The Crash and Its Aftermath** Barrie A. Wigmore, 1985-12-23 The Crash and Its Aftermath is an excellent work of reference on the Great Contraction It will be useful both to people with only a passing curiosity about the Crash and to those for whom the Great Depression is a major scholarly concern Business History From now on any serious student of the

Depression will be obliged to consult this work for a sense of securities price movements investor attitudes and relevant contemporary sources Journal of Economic History This is the first book to focus on the broader structural changes which took place in the financial industry over the full period of decline from the Stock Market Crash in 1929 to the end of President Franklin D Roosevelt's One Hundred Days in 1933 The basis for many of Wigmore's comments is an analysis of 142 leading companies whose stocks constituted approximately 77 percent of the market value of all New York Stock Exchange stocks Wigmore also examines the various bond markets and relates the money market to the bond market monetary policy business conditions and the problems of the banking system Treating each year from 1929 to 1933 separately Wigmore shows the interrelation between the stock bond and money markets and events in politics the economy international trade and finance and monetary policy The Statistical Appendix of 41 tables consolidates financial statistics which have hitherto been widely dispersed permitting in depth study

The Texture of Industry Robert B. Gordon, Patrick M. Malone, 1997 While historians have given ample attention to stories of entrepreneurship invention and labor conflict they have told us little about actual work places and how people worked Workers seldom wrote about their daily employment However they did leave behind their tools products shops and factories as well as the surrounding industrial landscapes and communities In this book Gordon and Malone look at the industrialization of North America from the perspective of the industrial archaeologist Using material evidence from such varied sites as Indian steatite quarries automobile plants and coal mines they examine manufacturing technology transportation systems and the effects of industrialization on the land Their research greatly expands our understanding of industry and focuses attention on the contributions of anonymous artisans whose skills shaped our industrial heritage

Proceedings of the First Conference of the Construction History Society James Campbell, Nicholas Bill, Karey Draper, Patrick Fleming, Yiting Pan, Wendy Andrews, 2014 The proceedings of the first conference of the Construction History Society which took place on 11 and 12 April 2014 at Queens College Cambridge featuring 48 peer reviewed papers covering a wide variety of subjects on the theme of construction history

The Cambridge Economic History of the United States Stanley L. Engerman, Robert E. Gallman, 1996 This three volume work offers a comprehensive survey of the history of economic activity and economic change in the United States and in those regions whose economies have at certain times been closely allied to that of the US

Historical Archaeology of Arkansas Carl Drexler, 2024-01-12 Arkansas's diverse geography spanning the Ozark Mountains densely forested Timberlands and Mississippi River Delta and its complex Native American and Euro American history belie the inattentive historical treatment the Natural State has thus far received by scholars Often disparaged as a cultural and intellectual backwater and indeed perhaps best known for President Bill Clinton and Wal Mart this overly simplified image of Arkansas shadows a state rich in historic significance and the archaeological record Carl G Drexler aims to correct this bias in Historical Archaeology of Arkansas In nine essays that range from Civil War sites to the Ozark Mountains to the nineteenth

century Jewish community Drexler and his contributors present an Arkansas unknown to all but those dedicated individuals working to publicize the state's hidden diversity The research presented herein depicts a strong state and federal commitment to documenting Arkansas's history perhaps unmatched by any other state in America and the success of public archaeology through the efforts of the Arkansas Archaeological Survey Historical Archaeology of Arkansas not only showcases the natural beauty and rich history of Arkansas but it also serves as a primer for historical inquiry for other state and federal organizations looking to bolster their own programs Carl G Drexler is the Archeological Survey's station archeologist for southwest Arkansas and a research assistant professor with the University of Arkansas His articles have appeared in Archaeology and Historical Memory Historical Archaeology American Antiquity and Field Notes

Manufacturing David O. Whitten, Bessie E. Whitten, 1990-09-27 Overall this first volume in the series should render business research in manufacturing a good deal easier by bringing together insightful industry histories and detailed critical bibliographies This series has much to recommend it Future volumes will be eagerly awaited Reference Books Bulletin This historical and bibliographical reference work is the first volume of Greenwood Press's Handbook of American Business History a series intended to supplement current bibliographic materials pertaining to business history Devoted to manufacturing this work uses the Enterprise Standard Industrial Classification ESIC to divide the subject into distinct segments from which contributors have developed histories and bibliographies of the different types of manufacturing Though authors were given sets of guidelines to follow they were also allowed the flexibility to work in a format that best suited the material Each contribution in this volume contains three important elements a concise history of the manufacturing sector a bibliographic essay and a bibliography Some contributions appear in three distinct parts while others are combined into one or two segments all build on currently available material for students and scholars doing research on business and industry The contributors who include business economic and social historians as well as engineers and lawyers have covered such topics as bakery products industrial chemicals and synthetics engines and turbines and household appliances Also included are an introductory essay that covers general works and a comprehensive index This book should be a useful tool for courses in business and industry and a valuable resource for college university and public libraries

Hazards of the Job Christopher C. Sellers, 2000-11-09 Hazards of the Job explores the roots of modern environmentalism in the early twentieth century United States It was in the workplace of this era argues Christopher Sellers that our contemporary understanding of environmental health dangers first took shape At the crossroads where medicine and science met business labor and the state industrial hygiene became a crucible for molding midcentury notions of corporate interest and professional disinterest as well as environmental concepts of the normal and the natural The evolution of industrial hygiene illuminates how powerfully battles over knowledge and objectivity could reverberate in American society new ways of establishing cause and effect begat new predicaments in medicine law economics politics and ethics even as they

enhanced the potential for environmental control From the 1910s through the 1930s as Sellers shows industrial hygiene investigators fashioned a professional culture that gained the confidence of corporations unions and a broader public As the hygienists moved beyond the workplace this microenvironment prefigured their understanding of the environment at large Transforming themselves into linchpins of science based production and modern consumerism they also laid the groundwork for many controversies to come

Housing the North American City Michael Doucet, John C. Weaver, 1991-08-06 Doucet and Weaver begin this empirical analytical and narrative study with an analysis of the evolution of land development as an enterprise and continue with an examination of house design and construction practices the development of the apartment building and an account of class and age as they relate to housing tenure They also relate developments in Hamilton to the current state of urban historiography using their case study to resolve discrepancies and contradictions in the literature Among the major themes the authors deal with is a controversial exploration of what they see as a central North American urge the desire to own a home Other themes include the social allocation of urban space the quality and affordability of housing the increased interest of large corporations in the land development and financial service industries and a comparative analysis of housing in Canada and the United States The authors have drawn on civic and business records dating from the early nineteenth century to the latest planning data Combining this information with their comprehensive analysis Doucet and Weaver show that current housing problems and potential solutions are better understood when seen as part of a historical process They provide a critical assessment of the ways in which contemporary society produces shelter and question the use of technical innovations alone to resolve housing crises

The Market Revolution in America John Lauritz Larson, 2009-09-14 The mass industrial democracy that is the modern United States bears little resemblance to the simple agrarian republic that gave it birth The market revolution is the reason for this dramatic and ironic metamorphosis The resulting tangled frameworks of democracy and capitalism still dominate the world as it responds to the panic of 2008 Early Americans experienced what we now call modernization The exhilaration and pain they endured have been repeated in nearly every part of the globe Born of freedom and ambition the market revolution in America fed on democracy and individualism even while it generated inequality dependency and unimagined wealth and power In this book John Lauritz Larson explores the lure of market capitalism and the beginnings of industrialization in the United States His research combines an appreciation for enterprise and innovation with recognition of negative and unanticipated consequences of the transition to capitalism and relates economic change directly to American freedom and self determination links that remain entirely relevant today

A Building History of Northern New England James L. Garvin, 2002-05 The first and only full scale technical and stylistic analysis of 200 years of architectural evolution in northern New England

Citizen Employers Jeffrey Haydu, 2019-06-30 The exceptional weakness of the American labor movement has often been attributed to the successful resistance of American employers to unionization and collective bargaining

However the ideology deployed against labor's efforts to organize at the grassroots level has received less attention In *Citizen Employers* Jeffrey Haydu compares the very different employer attitudes and experiences that guided labor capital relations in two American cities Cincinnati and San Francisco in the period between the Civil War and World War I His account puts these attitudes and experiences into the larger framework of capitalist class formation and businessmen's collective identities Cincinnati and San Francisco saw dramatically different developments in businessmen's class alignments civic identities and approach to unions In Cincinnati manufacturing and commercial interests joined together in a variety of civic organizations and business clubs These organizations helped members overcome their conflicts and identify their interests with the good of the municipal community That pervasive ideology of business citizenship provided much of the rationale for opposing unions In sharp contrast San Francisco's businessmen remained divided among themselves opted to side with white labor against the Chinese and advocated treating both unions and business organizations as legitimate units of economic and municipal governance *Citizen Employers* closely examines the reasons why these two bourgeoisies located in comparable cities in the same country at the same time differed so radically in their degree of unity and in their attitudes toward labor unions and how their views would ultimately converge and harden against labor by the 1920s With its nuanced depiction of civic ideology and class formation and its application of social movement theory to economic elites this book offers a new way to look at employer attitudes toward unions and collective bargaining That new approach Haydu argues is equally applicable to understanding challenges facing the American labor movement today

Productivity: a Selected Annotated Bibliography, 1990 **Sustainable Architectures** Simon Guy, Steven A. Moore, 2005 As buildings are responsible for fifty per cent of CO2 emissions their design has become the focus of intense technical scrutiny Knowing how to build more technically efficient or ecologically responsible buildings and being able to assemble the social resources to do so requires different forms of knowledge and practice There is wide contestation over the optimal pathways to greener buildings design and great diversity in practices of sustainable architecture This volume brings together leading researchers from across the European Union and North America both to illustrate the diversity of practice and to provide a critical commentary on this key debate The reader is provided with an introduction to competing perspectives on the sustainable architecture debate international exemplars of differing practice and an overview of new theoretical and methodological resources for understanding and meeting the conceptual social and technical challenges of sustainable architecture *The World Is on Fire* Joni Tevis, 2015-05-19 This magnificently compelling essay collection explores obsession anxiety and Existential dread from the Book of Revelation to the Liberace Museum Minneapolis Star Tribune The sermons of Joni Tevis youth filled her with dread a sense that an even worse story one you hadn't read yet could likewise come true In this revelatory collection she reckons with her childhood fears by exploring the uniquely American fascination with apocalypse From a haunted widow's wildly expanding mansion to atomic test sites in the Nevada desert her settings are often places of

destruction and loss And yet Tevis transforms these eerie destinations into sites of creation as well uncovering powerful points of connection Whether she s relating her experience of motherhood or describing the timbre of Freddy Mercury s voice in Somebody to Love she relies on the same reverence for detail and sense of awe And by anchoring her attention to the raw materials of our world nails and beams dirt and stone bones and blood she discovers grandeur in the seemingly mundane Winner of the 2016 Firecracker Award for Creative Nonfiction Finalist for the 2016 Pat Conroy Southern Book Prize **Area Wage Survey** ,1990
