A Rosetta Key For History Michael A. Susko,2022-11-10 This work explores the use of a time chart based on generations as a way to understand history A sole reliance on yearly dating tends to obscure the historical reality and deter us from further exploration However patterns are revealed if we number generations and we become intrigued by the connections and hypotheses raised The author uses 15 year intervals to date events and mark when people turn 30 and tend to enter history The 15 year generational interval was first used by the medieval historian Bede and later advocated by Ortega E Gasset a leading Spanish philosopher of the 20th century In brief the phases

of history found are 1 A partly invisible beginning phase 0 15 generations 2 An establishment phase at 15 20 generations 3 A consolidating and opening up stage at 30 generations 4 A crisis and creativity phase at 40 generations 5 An empire and inclusionary phase at 50 generations and 6 Renewal or rigidification phase at the 60 generational node Importantly special attention is given to the often neglected 30th generational period in which an openness to beauty and light prevade Interestingly these phases also resonate with the human life cycle The tour of cultures covered includes ancient Egypt Israel Judah Rome and the Medieval Modern Taking us into contemporary times America United States is addressed in a second volume to this work You are invited to go on an intriguing journey in which generational patterning becomes a Rosetta key for understanding history

Generational Mapping Through Phases Michael A. Susko, 2025-05-25 In *Generational Mapping Through Phases Bridging Ancient Civilizations U S and Ancestral Pueblo History Complete Three Volume Edition* the author presents a novel approach to understanding history through the lens of generational mapping which reveals distinct phases This comprehensive work explores the rise transformation and legacy of six important historical traditions Ancient Egypt Ancient Israel Ancient Rome Medieval Modern Europe U S History and the history of the Ancestral Pueblo peoples of the American Southwest Divided into three volumes the series introduces the theory that ancient civilizations U S history and Indigenous histories long viewed through static or compartmentalized frameworks can be studied instead as dynamic evolving processes marked by generational phases In brief they are 1 Invisible Beginnings 2 Establishment and Testing 3 Consolidation and Opening Up to outside influences 4 Crisis and Creativity 5 Empire and Inclusion and 6 Renewal or Rigidification The work redefines how we engage with the past weaving together archaeology anthropology and historical analysis to map the interconnectedness of civilizations and the generational forces that shape them From the achievements of Ancient Egypt to the enduring presence of the Ancestral Pueblo peoples the generational method offers fresh insight into how time identity and transformation shape the arc of human history This complete edition of *Generational Mapping of World History* is for readers seeking a deeper understanding of the structural rhythms that define civilizations across time including the living continuity of Indigenous peoples and their place in global history

Under the Bloody Flag John C Appleby,2011-11-08 Long before Blackbeard Captain Kidd and Black Barty terrorised the Caribbean the seas around the British Isles swarmed with pirates Thousands of men turned to piracy at sea often as a makeshift strategy of survival Piracy was a business not a way of life Although the young Francis Drake became the most famous pirate of the period scores of little known pirate leaders operated during this time acquiring mixed reputations on land and at sea Captain Henry Strangeways earned notoriety for his attacks on French shipping in the Channel and the Irish Sea selling booty ashore in south west England and Wales John Callice and his associates sailed in consort with others including another arch pirate Robert Hicks plundering French Spanish Danish and Scottish shipping in voyages that ranged from Scotland to Spain The first British pirates led erratic careers but their roving in local waters paved the way for the more aggressive and ambitious deep sea piracy in the Caribbean

Aspiration, Representation and Memory Jessica Munns,Penny Richards,Jonathan W. Spangler,2016-03-09 Exploiting the turbulence and strife of sixteenth century France the House of Guise arose from a provincial power base to establish themselves as dominant political players in France and indeed Europe marrying within royal and princely circles and occupying the most important ecclesiastical and military positions Propelled by ambitions derived from their position as cadets of a minor sovereign house they represent a cadre of early modern elites who are difficult to categorise neatly neither fully sovereign princes nor fully subject nobility They might have spent most of their time in one state France but their interests were always trans national contested spaces far from the major centres of monarchical power from the Ardennes to the Italian peninsula were frequent theatres of activity for semi sovereign border families such as the Lorraine Guise This nexus of activity and the interplay between princely status and representation is the subject of this book The essays in this collection approach Guise aims ambitions and self fashioning using this trans national dimension as context their desire for increased royal rather than merely princely power and prestige and the use of representation visual and literary in order to achieve it Guise claims to thrones and territories from Jerusalem to Naples are explored alongside the Guise dream of Italy with in depth studies of Henry of Lorraine fifth Duke of Guise and his attempts in the mid seventeenth century to gain a throne in Naples The combination of the violence and drama of their

lives at the centres of European power and their adroit use of publicity ensured that versions of their strongly delineated images were appropriated by chroniclers playwrights and artists in which they sometimes featured as they would have wished as heroes and heroines frequently as villains and ultimately as characters in the narratives of national heritage

Visual Theology of the Huguenots Randal Carter Working, 2017-02-23 The role of architecture within the French Reformed tradition has been of recent scholarly interest seen in the work of Helene Guicharnaud Catharine Randall Andrew Spicer and others Few however have investigated in depth the relationship between Reformed theology and architectural forms In *The Visual Theology of the Huguenots* Randal Carter Working explores the roots of Reformed aesthetics set against the background of late medieval church architecture Indicating how demonstrably important the work of Serlio is in the spreading of the ideas of Vitruvius Working explains the influence of classical Roman building on French Reformed architecture He follows this with an examination of five important Huguenot architects Philibert de l'Orme Bernard Palissy Jacques Androuet du Cerceau Salomon de Brosse and Jacques Perret The distinct language of Huguenot architecture is revealed by his comparative analysis of three churches St Pierre in Geneva a medieval church overhauled by the Reformers St Gervais St Protais a Parisian Catholic church whose facade was completed by the French Reformed architect Salomon de Brosse and the temple at Charenton a structure also designed and built by de Brosse These three buildings demonstrate how the contribution of Huguenot architecture gave expression to Reformed theological ideas and helped bring about the renewal of classicism in France

Shakespeare's Foreign Worlds Carole Levin, John Watkins, 2012-06-15 In *Shakespeare's Foreign Worlds* Carole Levin and John Watkins focus on the relationship between the London based professional theater preeminently associated with William Shakespeare and an unprecedented European experience of geographic social and intellectual mobility Shakespeare's plays bear the marks of exile and exploration rural depopulation urban expansion and shifting mercantile and diplomatic configurations He fills his plays with characters testing the limits of personal identity foreigners usurpers outcasts outlaws scolds shrews witches mercenaries and cross dressers Through parallel discussions of *Henry VI* *The Taming of the Shrew* and *The Merchant of Venice* Levin and Watkins argue that Shakespeare's centrality to English national consciousness is inseparable from his creation of the foreign as a category asserting dangerous affinities between England's internal minorities and its competitors within an increasingly fraught European mercantile system As a women's historian Levin is particularly interested in Shakespeare's responses to marginalized sectors of English society As a scholar of English Italian Studies and Medieval Studies Watkins situates Shakespeare in the context of broadly European historical movements Together Levin and Watkins narrate the emergence of the foreign as portable category that might be applied both to strangers from other countries and to native born English men and women such as religious dissidents who resisted conformity to an increasingly narrow sense of English identity *Shakespeare's Foreign Worlds* will appeal to historians literary scholars theater specialists and anyone interested in Shakespeare and the Elizabethan Age
