Rise Of Socialist Fiction 1880-1914:

The Rise of Socialist Fiction, 1880-1914 H. Gustav Klaus, 1987 **Class Fictions** Pamela Fox, 1994-11-21 Many recent discussions of working class culture in literary and cultural studies have tended to present an oversimplified view of resistance. In this groundbreaking work Pamela Fox offers a far more complex theory of working class identity particularly as reflected in British novels of the late nineteenth and early twentieth centuries. Through the concept of class shame she produces a model of working class subjectivity that understands resistance in a more accurate and useful way as a complicated kind of refusal directed at both dominated and dominant culture. With a focus on certain classics in the working class literary canon such as *The Ragged Trousered Philanthropists* and *Love on the Dole* as well as lesser known texts by working class women Fox uncovers the anxieties that underlie representations of class and consciousness. Shame repeatedly emerges as a powerful counterforce in these works continually unsettling the surface narrative of protest to reveal an ambivalent relation toward the working class identities the novels apparently champion. *Class Fictions* offers an equally rigorous analysis of cultural studies itself which has historically sought to defend and value the radical difference of working class culture. Fox also brings to her analysis a strong feminist perspective that devotes considerable attention to the often overlooked role of gender in working class fiction. She demonstrates that working class novels not only expose master narratives of middle class culture that must be resisted but that they also reveal to us a need to create counter narratives or formulas of working class life. In doing so this book provides a more subtle sense of the role of resistance in working class culture. While of interest to scholars of Victorian and working class fiction Pamela Fox's argument has far reaching implications for the way literary and cultural studies will be defined and practiced.

The New Woman Sally Ledger, 1997 By comparing fictional representations with real New Women in late Victorian Britain Sally Ledger makes a major contribution to an understanding of the Woman Question at the end of the century. Chapters on imperialism socialism sexual decadence and metropolitan life situate the revolting daughters of the Victorian age in a broader cultural context than previous studies.

Locating Classed Subjectivities Simon Lee, 2022-05-30 *Locating Classed Subjectivities* explores representations of social class in British fiction through the lens of spatial theory and analysis. By analyzing a range of class conscious texts from the nineteenth twentieth and twenty first centuries the collection provides an overview of the way British writers mobilized spatial aesthetics as a means to comment on the intricacies of social class. In doing so the collection delineates aesthetic strategies of representation in British writing tracing the development of literary forms while considering how authors mobilized innovative spatial metaphors to better express contingent social and economic realities. Ranging in coverage from early nineteenth century narratives of disease to contemporary writing on the working class millennial *Locating Classed Subjectivities* offers new perspectives on literary techniques and political intentions exploring the way class is parsed and critiqued through British writing across three centuries. As such the project responds to Nigel Thrift and Peter Williams's

claim that literary and cultural production serves as a particularly rich yet unexamined access point by which to comprehend the way space and social class intersect To Exercise Our Talents Christopher Hilliard, 2006-04-15 In 20th century Britain the literary landscape underwent a fundamental change Aspiring authors included factory workers writing amid chaotic home lives and married women joining writers clubs in search of creative outlet This work reveals the history of ordinary voices and reconstructs the literary culture of a democratic age The Radical Twenties John Lucas, 1999 Studies writers from the 1920s with regard to their political radicalism Draws on the works of D H Lawrence Virginia Woolf Sylvia Townsend Warner and Patrick Hamilton among others to identify the decade as a time of both political activism and of deliberately transgressive behavior particularly among women Meets head on the argument of earlier commentators who take for granted the post war decade as defined by cynicism and hedonism and looks at the work and lifestyles of those determined to find ways out of despair Annotation copyrighted by Book News Inc Portland OR *A Child of the Jago* Arthur

Morrison, 2012-02-09 The Jago had got him and it held him fast In the worst of London s East End slums in an area called the Jago young Dicky Perrott is used to a life of poverty crime and violence Gang warfare is the order of the day deaths are commonplace and thieving the only way to survive At first Dicky dreams of becoming a High Mobsman one of the aristocrats of Jago crime but the efforts of Father Sturt to improve conditions offer him a different path Dicky s journey takes him through a savage but colourful community of pickpockets and cosh carriers where the police only enter in threes and where murder erupts with an unusual horror and intimacy Morrison s portrayal of the Victorian underclass and its underworld drew attention to the bleak prospects for children living in such surroundings and it is a classic of slum fiction In this edition Peter Miles provides a rich contextual background to the creation of the novel and the social debates to which it contributed
