Rise Of The New York Intellectuals

Charles Hersch

Rise Of The New York Intellectuals:

The New York Intellectuals Hugh Wilford, 1995 Reconstructs the history of a group of thinkers and activists including Philip Rahv Mary McCarthy Dwight Macdonald and Lionel Trilling collectively known as the New York Intellectuals during the period of their greatest influence the 1940s and 1950s While defending the group against charges that they sold out the author analyzes the contradictions between their avant garde principles and the institutional locations they came to occupy Annotation copyright by Book News Inc Portland OR

Intellectuals in Action Kevin Mattson, 2007-08-09 Born in 1966 a generation removed from the counterculture Kevin Mattson came of political age in the conservative Reagan era In an effort to understand contemporary political ambivalence and the plight of radicalism today Mattson looks back to the ideas that informed the protest social movements and activism of the 1960s To accomplish its historical reconstruction the book combines traditional intellectual biography including thorough archival research with social history to examine a group of intellectuals whose thinking was crucial in the formulation of New Left political theory These include C Wright Mills the popular radical sociologist Paul Goodman a practicing Gestalt therapist and anarcho pacifist William Appleman Williams the historian and famed critic of American empire Arnold Kaufman a radical liberal who deeply influenced the thinking of the SDS The book discusses not only their ideas but also their practices from writing pamphlets and arranging television debates to forming left leaning think tanks and organizing teach ins protesting the Vietnam War Mattson argues that it is this political engagement balanced with a commitment to truth telling that is lacking in our own age of postmodern acquiescence Challenging the standard interpretation of the New Left as inherently in conflict with liberalis Mattson depicts their relationship as more complicated pointing to possibilities for a radical liberalism today Intellectual and social historians as well as general readers either fascinated by the 1960s protest movements or actively seeking an alternative to our contemporary political malais will embrace Mattson s book and its promise to shed new light on a time period known for both its intriguing conflicts and its enduring consequences

The Rise of the New York Intellectuals Terry A. Cooney, 1986

Existential America George Cotkin, 2003-01-24 As Cotkin shows not only did Americans readily take to existentialism but they were already heirs to a rich tradition of thinkers from Jonathan Edwards and Herman Melville to Emily Dickinson and William James who had wrestled with the problems of existence and the contingency of the world long before Sartre and his colleagues After introducing the concept of an American existential tradition Cotkin examines how formal existentialism first arrived in America in the 1930s through discussion of Kierkegaard and the early vogue among New York intellectuals for the works of Sartre Beauvoir and Camus

Democratic Artworks Charles Hersch, 1998-01-01 Focusing on the political movements of the 1950s and 1960s this book argues that the arts can strengthen democracy by politically educating citizens

American Homo Jeffrey Escoffier, 2018-10-02 A sweeping account of the way lesbian gay and bisexual people have challenged and changed society In this provocative book Jeffrey Escoffier tracks LGBT movements across the contested

terrain of American political life where they have endured the historical tension between the homoeroticism coursing through American culture and the virulent periodic outbreaks of homophobic populism Escoffier explores how every new success enables a new disciplinary and normalizing form of domination only the active exercise of democratic rights and participation in radical coalitions allows LGBT people to sustain the benefits of community and the freedom of sexual perversity **John**

Dewey and American Democracy Robert B. Westbrook, 2015-07-22 Over a career spanning American history from the 1880s to the 1950s John Dewey sought not only to forge a persuasive argument for his conviction that democracy is freedom but also to realize his democratic ideals through political activism Widely considered modern America's most important philosopher Dewey made his views known both through his writings and through such controversial episodes as his leadership of educational reform at the turn of the century his support of American intervention in World War I and his leading role in the Outlawry of War movement after the war and his participation in both radical and anti communist politics in the 1930s and 40s Robert B Westbrook reconstructs the evolution of Dewey's thought and practice in this masterful intellectual biography combining readings of his major works with an engaging account of key chapters in his activism Westbrook pays particular attention to the impact upon Dewey of conversations and debates with contemporaries from William James and Reinhold Niebuhr to Jane Addams and Leon Trotsky Countering prevailing interpretations of Dewey's contribution to the ideology of American liberalism he discovers a more unorthodox Dewey a deviant within the liberal community who was steadily radicalized by his profound faith in participatory democracy Anyone concerned with the nature of democracy and the future of liberalism in America including educators moral and social philosophers social scientists political theorists and intellectual and cultural historians will find John Dewey and American Democracy indispensable reading **Intellectuals** Bruce Robbins, 1990 A valuable counter to the Reagan Bush Bennett Bloom backlash these essays

by many of the usual left suspects Aronowitz Said Ehrenreich et al analyze and evaluate the situatedness of intellectuals with respect to the media government bureaucracy the university and the Annotation copyrighted by Book News Inc Portland OR

Intellectuals in Politics Jeremy Jennings, Tony Kemp-Welch, 2013-04-15 After an introduction to the major issues confronting intellectuals this book explores the various aspects of the intellectual's role including philosophers and academics who have tried to define the function of the intellectual how intellectuals have assumed the status of the conscience of the nation and the voice of the oppressed the interaction of intellectuals with Marxism the place of the intellectual in American society Covering regions as diverse as Israel Algeria Britain Ireland central Europe and America this collection considers the question of whether the intellectual can still lay claim to the language of truth In answering this study tells us much about the modern world in which we live Coverage includes the following thinkers Gramsci Weber Yeats Auden Levy Mailer Walzer Marx and many more *The New American History* American Historical Association, 1997 Originally released in 1990 The New American History edited for the American Historical Association by Eric Foner has

become an indispensable volume for teachers and students In essays that chart the shifts in interpretation within their fields some of our most prominent American historians survey the key works and themes in the scholarship of the last three decades Along with substantially revised essays from the first edition this volume presents three entirely new ones on intellectual history the history of the West and the histories of the family and sexuality The second edition of *The New American History* reflects in Foner's words the continuing vitality and creativity of the study of the past how traditional fields are being expanded and redefined even as new ones are created Author note Eric Foner is DeWitt Clinton Professor of History at Columbia University He is the author of numerous books including *Reconstruction 1863-1877* which was awarded the Bancroft Prize

Economy, Difference, Empire Gary J. Dorrien, 2010 Sourcing the major traditions of progressive Christian social ethics social gospel liberalism Niebuhrian realism and liberation theology Gary Dorrien argues for the social ethical necessity of social justice politics In carefully reasoned essays he focuses on three subjects the ethics and politics of economic justice racial and gender justice and antimilitarism making a constructive case for economic democracy along with a liberationist understanding of racial and gender justice and an anti-imperial form of liberal internationalism In Dorrien's view the three major discourse traditions of progressive Christian social ethics share a fundamental commitment to transform the structures of society in the direction of social justice His reflections on these topics feature innovative analyses of major figures such as Walter Rauschenbusch Reinhold Niebuhr James Burnham Norman Thomas and Michael Harrington and an extensive engagement with contemporary intellectuals such as Rosemary R. Ruether Katie Cannon Gregory Baum and Cornel West Dorrien also weaves his personal experiences into his narrative especially his involvement in social justice movements He includes a special chapter on the 2008 presidential campaign and the historic candidacy of Barack Obama

The CIA, the British Left and the Cold War Hugh Wilford, 2013-10-23 Shortly after it was founded in 1947 the CIA launched a secret effort to win the Cold War allegiance of the British left Hugh Wilford traces the story of this campaign from its origins in Washington DC to its impact on Labour Party politicians trade unionists and Bloomsbury intellectuals

High and Low Moderns Maria DiBattista, Lucy McDiarmid, 1996-12-05 This collection of essays on modernist culture reassesses the convergence of low and high cultures of socialist and aesthete late Victorian and young Georgian the popular and the coterie Academic literary studies have until recently preferred to treat the opaque difficult writings of high moderns Conrad Yeats Woolf and Eliot and the more accessible work of the low moderns Kipling Shaw and Wells in separate categories In contributions by scholars David Bromwich Roy Foster Edna Longley Louis Menand Edward Mendelson and others *High and Low Moderns* brings these writers into critical proximity Essays on such topics as the public mourning of Queen Victoria Florence Farr and the New Woman the Edwardian Shaw Lady Gregory's attraction to Irish felons and the high artistic uses of low entertainments cinema detective fiction and journalism introduce a subtler model of modernism in which demotic and elite cultural forms criticize imitate and address one another

The Frankfurt School in Exile Thomas Wheatland, 2009

Thomas Wheatland examines the influence of the Frankfurt School or Horkheimer Circle and how they influenced American social thought and postwar German sociology He argues that contrary to accepted belief the members of the group who fled oppression in Nazi Germany in 1934 had a major influence on postwar intellectual life American Literary Criticism Since the 1930s Vincent B. Leitch, 2009-09-10 American Literary Criticism Since the 1930s fully updates Vincent B Leitch s classic book American Literary Criticism from the 30s to the 80s following the development of the American academy right up to the present day Updated throughout and with a brand new chapter this second edition provides a critical history of American literary theory and practice discussing the impact of major schools and movements examines the social and cultural background to literary research considering the role of key theories and practices provides profiles of major figures and influential texts outlining the connections among theorists presents a new chapter on developments since the 1980s including discussions of feminist queer postcolonial and ethnic criticism Comprehensive and engaging this book offers a crucial overview of the development of literary studies in American universities and a springboard to further research for all those interested in the development and study of Literature **Many Are the Crimes** Ellen Schrecker, 1998 Offers an analysis of the McCarthy phenomenon tracing the machinations of anticommunism in creating a culture of fear and suspicion

Harold Rosenberg Debra Bricker Balken, 2021-10-06 Despite being one of the foremost American intellectuals of the mid twentieth century Harold Rosenberg 1906 1978 was utterly incapable of fitting in and he liked it that way Signature cane in one hand and a cigarette in the other he cut a distinctive figure on the New York City culture scene with his radiant dark eyes and black bushy brows A gangly giant at six foot four he would tower over others as he forcefully expounded on his latest obsession in an oddly high pitched nasal voice And people would listen captivated by his ideas With Harold Rosenberg A Critic s Life Debra Bricker Balken offers the first ever complete biography of this great and eccentric man Although he is now known mainly for his role as an art critic at the New Yorker from 1962 to 1978 Balken weaves together a complete tapestry of Rosenberg s life and literary production cast against the dynamic intellectual and social ferment of his time She explores his role in some of the most contentious cultural debates of the Cold War period including those over the commodification of art and the erosion of individuality in favor of celebrity demonstrated in his famous essay The Herd of Independent Minds An outspoken socialist and advocate for the political agency of art he formed deep alliances with figures such as Hannah Arendt Saul Bellow Paul Goodman Mary McCarthy Jean Paul Sartre Willem de Kooning and Jackson Pollock all of whom Balken portrays with vivid accounts from Rosenberg s life Thoroughly researched and captivatingly written this book tells in full Rosenberg s brilliant fiercely independent life and the five decades in which he played a leading role in US cultural intellectual and political history *Independent Intellectuals in the United States, 1910-1945* Steven Biel, 1995-02 A new intellectual community came together in the United States in the 1910s and 1920s a community outside the universities the professions and in general the established centers of intellectual life A generation of young intellectuals was increasingly

challenging both the genteel tradition and the growing division of intellectual labor Adversarial and anti professional they exhibited a hostility to boundaries and specialization that compelled them toward an ambitious and self conscious generalism and made them a force in the American political literary and artistic landscape This book is a cultural history of this community of free lance critics and an exploration of their collective effort to construct a viable public intellectual life in America Steven Biel illustrates the diversity of the body of writings produced by these critics whose subjects ranged from literature and fine arts to politics economics history urban planning and national character Conceding that significant differences and conflicts did exist in the works of individual thinkers Biel nonetheless maintains that a broader picture of this vibrant culture has been obscured by attempts to classify intellectuals according to political or ideological persuasions His book brings to life the ways in which this community sought out alternative ways of making a living devised strategies for reaching and engaging the public debated the involvement of women in the intellectual community and incorporated Marxism into its evolving search for a decisive intellectual presence in American life Examined in this lively study are the role and contributions of such figures as Randolph Bourne Max Eastman Crystal Eastman Walter Lippmann Margaret Sanger Van Wyck Brooks Floyd Dell Edmund Wilson Mable Dodge Paul Rosenfeld H L Mencken Lewis Mumford Malcolm Cowley

Matthew Josephson John Reed Waldo Frank Gilbert Seldes and Harold Stearns Science, Jews, and Secular Culture
David A. Hollinger, 2021-06-08 This remarkable group of essays describes the culture wars that consolidated a new secular ethos in mid twentieth century American academia and generated the fresh energies needed for a wide range of scientific and cultural enterprises Focusing on the decades from the 1930s through the 1960s David Hollinger discusses the scientists social scientists philosophers and historians who fought the Christian biases that had kept Jews from fully participating in American intellectual life Today social critics take for granted the comparatively open outlook developed by these men and men they were mostly and charge that their cosmopolitanism was not sufficiently multicultural Yet Hollinger shows that the liberal cosmopolitans of the mid century generation defined themselves against the realities of their own time McCarthyism Nazi and Communist doctrines a legacy of anti Semitic quotas and both Protestant and Catholic versions of the notion of a Christian America The victory of liberal cosmopolitans was so sweeping by the 1960s that it has become easy to forget the strength of the enemies they fought Most books addressing the emergence of Jewish intellectuals celebrate an illustrious cohort of literary figures based in New York City But the pieces collected here explore the long postponed acceptance of Jewish immigrants in a variety of settings especially the social science and humanities faculties of major universities scattered across the country Hollinger acknowledges the limited rather parochial sense of mankind that informed some mid century thinking but he also inspires in the reader an appreciation for the integrationist aspirations of a society truly striving toward equality His cast of characters includes Vannevar Bush James B Conant Richard Hofstadter Robert K Merton Lionel Trilling and J Robert Oppenheimer **The Unexamined Orwell** John Rodden, 2012-08-17 A reflection on Orwell as idea that

outlines some of the misconceptions and misuses of the Orwell name *Modern Fiction Studies* The year 1984 is just a memory but the catchwords of George Orwell's novel *Nineteen Eighty Four* still routinely pepper public discussions of topics ranging from government surveillance and privacy invasion to language corruption and bureaucratese Orwell's work pervades the cultural imagination while others of his literary generation are long forgotten Exploring this astonishing afterlife has become the scholarly vocation of John Rodden who is now the leading authority on the reception impact and reinvention of George Orwell the man and writer as well as of Orwell the cultural icon and historical talisman In *The Unexamined Orwell* Rodden delves into dimensions of Orwell's life and legacy that have escaped the critical glare He discusses how several leading American intellectuals have earned the title of Orwell's successor including Lionel Trilling Dwight Macdonald Irving Howe Christopher Hitchens and John Lukacs He then turns to Germany and focuses on the role and relevance of *Nineteen Eighty Four* in the now defunct communist nation of East Germany Rodden also addresses myths that have grown up around Orwell's life including his more than half legendary encounter with Ernest Hemingway in liberated Paris in March 1945 and analyzes literary issues such as his utopian sensibility and his prose style Finally Rodden poses the endlessly debated question What would George Orwell do and speculates about how the prophet of *Nineteen Eighty Four* would have reacted to world events In so doing Rodden shows how our responses to this question reveal much about our culture's ongoing need to reappropriate Orwell
