[Difficulties](#) Jane Seale,Melanie Nind,2009-09-10 The issue of access is at the forefront of the practical challenges facing people with learning difficulties and people working with or supporting them This engaging text brings together evidence narratives and discussions that question and advance our understanding of the concept of access for people with learning difficulties Seale and Nind draw on their expertise to analyse a wide range of situations including access to public spaces citizenship education community participation and employment Through a series of related chapters key researchers in the field of inclusion and learning difficulties enrich the access debate by considering what kind of access people with learning difficulties want identifying effective practice in relation to facilitating and promoting access revealing the capability of people with learning difficulties to seek and achieve access to potentially exclusionary communities providing a space for a wide range of people to share access stories With contributions from a variety of stakeholders including people with learning difficulties *Understanding and Promoting Access for People with Learning Difficulties* clarifies the concept of access without

over simplifying what is involved Through rigorous critique this book provides a unique rationale for a new multi dimensional model of access and ways of promoting it Proposing a reconceptualisation of the risk associated with promoting access for people with learning difficulties this book will be of immense interest to students researchers and professionals involved in inclusion and disability issues **Working with Risk** Hazel Kemshall, Bernadette Wilkinson, Kerry Baker, 2013-10-30

Assessing and managing risk is a daily challenge for social workers Working with risk can be anxiety provoking and demanding requiring great skill and high levels of confidence In these complex situations social workers have to work hard to get the balance right This innovative book focuses on the development and use of skills for work with risk Using a range of case studies examples and reflective exercises the authors examine the key skills required to work effectively with risk Various chapters focus on assessment skills gathering and evaluation of information decision making challenges and ethical issues Recognising the difficulties presented in the context of busy statutory work there is a strong focus on practical skills and tips for improving risk management plans The book also pays careful attention to the emotional impact of working with risk with a final chapter on the management of self in the challenging and sometimes distressing world of social work Written in a reader friendly accessible style the book will be essential reading for students and staff across a range of social work settings including community care adult services child protection and mental health Working Choices Bob

Mendonsa, 2000-09-18 Most people become disillusioned with work at some point in their lives Organizational politics get in the way of real achievement Stress interferes with enjoying the rest of our lives And sometimes we get the nagging feeling that we screwed up when choosing a career and now we re stuck with something we don t really want While it s easy to blame the company the boss our parents or our teachers for our predicament blame is a dead end street The only way to fix the problem is to fix ourselves first Working Choices helps you look at your career from an entirely new perspective You ll take an honest look at organizational life from the positives of shared experience and community to the negatives of status games and truth avoidance You ll also move beyond the old question what do I want to be when I grow up through a series of exercises designed to help you choose work that enriches your entire life Whether you re just starting out in your career or find yourself wondering Is That All There Is Working Choices gives you the tools you need to make a difference in your work and improve the quality of your working life **Helping Relationships in Mental Health** Steve Morgan, Jo

Campling, 2013-11-11 How do you respond to the distress of a man who is sitting before you in his own flat towels draped around his shoulders newspaper wedged beneath the brim of his hat an upturned frying pan over his hat and a partially filled washing up bowl balanced on top of the frying pan He holds the bowl with one hand and a cigarette in the other while he force fully proclaims the secret services have placed someone in the flat above to drop radioactive dust down on him all day and all night To start with you could offer him a light for his cigarette The most likely medical response would be to consider increasing his antipsychotic medicine though a cursory glance at his medical history suggests that inpatient admissions and

large multiple prescriptions of injections and tablets have failed to eradicate the distressing fears that the secret services have occupied the ward above Perhaps all the increased medication will achieve is to stop him going upstairs intent on retribution It may even leaden his limbs sufficiently to make his current balancing act too difficult to sustain

Development and Vulnerability in Close Relationships Gil G. Noam, Kurt W. Fischer, 2013-06-17 How do people develop in their important relationships How do two people come together to form a new close relationship How do relationships affect or determine who we are and who we become These questions should be central to the study of mind and development but most researchers neglect relationships and focus instead on analyses of individuals as if people were basically alone experiencing occasional fleeting moments with other people Research based on this individualist assumption has dominated the behavioral and clinical sciences but there are other voices and they are growing In this book many of the scholars who are moving relationships and attachments back to the center of human development outline their central concepts findings and perspectives People are fundamentally social and relationships are part of the fabric of being human forming an essential foundation that molds each person's mind and action A mind does not reside in one person but in relationships and communities composed of many people's interconnected minds which mutually support and define each other From the start and throughout life each person develops strengths and vulnerabilities in important relationships in communities and cultures Those relationships are so central to each person's activity and experience that without them no scientific explanation can even begin to analyze mind and action There is no mind without other people There is no psychological vulnerability that does not involve others The contributors to this book aim to establish a firm foundation for the role of relationships in human activity and health and to promote strong research by bringing together in one place most of the best research and theory on development and relationships Their goal is to stimulate a more radical inclusion of relationships in mind an ecological focus on the ways that relationships constitute action feeling and thought

**Practice Learning in Social Work** Jennifer Burton, 2015-12-03 Learning through practice lies at the heart of social work education providing the opportunity for students to develop and employ the skills experience and knowledge they need to become effective social workers This exciting new addition to Palgrave's Practical Social Work series provides an integrated and user friendly approach to practice learning by putting placements within a broader learning framework Rather than treating placements as an isolated aspect of the social work degree Practice Learning in Social Work shows how they are relevant to all aspects of the social work experience Divided in to three parts this book's pragmatic approach mirrors students own journey as they progress from preparation for practice through to actual experience and then beyond this to support personal and professional development right up to qualification as a Newly Qualified Social Worker With a strong emphasis on service users and carers as central stake holders Practice Learning in Social Work illustrates the practical nature of the profession with realistic case scenarios based on real life learning experiences reflective learning exercises and practice led research

references throughout Progress checklists linked to the Professional Capabilities Framework also provide readers with the opportunity to assess their own strengths and learning needs

**Understanding Risk-Taking** Jens O. Zinn, 2019-10-03 This book outlines and systematises findings from a growing body of research that examines the different rationales dimensions and dynamics of risk taking in current societies providing insight into the different motivations and social roots of risk taking to advance scholarly debates and improve social regulation Conceptually the book goes beyond common approaches which problematise socially undesirable risk taking or highlight the alluring character of risk taking Instead it follows a broadly interpretivist approach and engages in examining motives control routinisation reflexivity skills resources the role of identity in risk taking and how these are rooted in and framed by different social forces Zinn draws on qualitative studies from different theoretical and conceptual backgrounds such as phenomenology hermeneutics pragmatism feminism class analysis theory of practice and discourse analysis among others to outline key distinctions and concepts central to the understanding of risk taking It will be a key resource for everyone who is concerned with the understanding and management of risk taking in all kinds of social domains such as immigration youth leisure sports crime health finance and social policy

**Addiction and Choice** Nick Heather, Gabriel Segal, 2017 Views on addiction are often polarised either addiction is a matter of choice or addicts simply can't help themselves But perhaps addiction falls between the two This book contains views from philosophy neuroscience psychiatry psychology and the law exploring this middle ground between free choice and no choice

Brearley,2023-07-28 First published in 1982 Risk and Social Work provides a useful framework for analysing risk in the social welfare context Surprisingly social work and other helping professions have hitherto given little attention to the use and meaning of risk although the term is frequently employed with clients and helpers being described as at risk or in danger The media have taken up these terms noticeably in cases involving child abuse the elderly and conditions in psychiatric institutions often at the expense of our image of the social services Paul Brearley s discussion of the analysis and management of risk in social work will therefore be of value to people working in the helping professions Mr Brearley begins by establishing a series of definitions drawing primarily from the commercial insurance field and from the literature on scientific and workplace hazards These definitions form the base for a framework of risk analysis which stresses the importance of values and the chance element in decision making about risk He shows how this framework can be used in practice in emergency and risky situations and looks at the management of hazards and uncertainty with particular reference to social work practice      **Social Work with People with Learning Difficulties** Hunter, Susan,Rowley, Denis,2015-07-29
