Hinze, Dennis R. Judd, 2018-09-03 Praised for the clarity of its writing careful research and distinctive theme that urban politics in the United States has evolved as a dynamic interaction between governmental power private actors and a politics of identity City Politics remains a classic study of urban politics Its enduring appeal lies in its persuasive explanation careful attention to historical detail and accessible and elegant way of teaching the complexity and breadth of urban and regional politics which unfold at the intersection of spatial cultural economic and policy dynamics Now in a thoroughly revised tenth edition this comprehensive resource for undergraduate and graduate students as well as well established researchers in the discipline retains the effective structure of past editions while offering important updates including All new sections on immigration the Black Lives Matter Movement the downtown condo boom and the impact of the sharing economy on urban neighborhoods especially the rise of Airbnb Individual chapters introducing students to pressing urban issues such as gentrification sustainability metropolitanization urban crises the creative class shrinking cities racial politics and suburbanization The most recent census data integrated throughout to provide current figures for analysis discussion and a more nuanced understanding of current trends Taught on its own or supplemented with the optional reader American Urban Politics in a Global Age for more advanced readers City Politics remains the definitive text on urban politics and how they have evolved in the US over time for a new generation of students and researchers      **Handbook of Urban Politics and Policy** Ronald K. Vogel, 2024-07-05 This authoritative Handbook provides a comprehensive overview of research into urban politics and policy in cities across the globe Leading scholars examine the position of urban politics within political science and analyse the critical approaches and interdisciplinary pressures that are broadening the field      **Before AIDS** Katie Batza, 2018-03-20 Before AIDS chronicles the development of gay health services in the 1970s as gay men faced public health challenges stemming from both their political marginalization and disease Activists using tools and tactics from across their era's political landscape built a nationwide gay medical system changing ideas about sexuality and health      **Historic Cities of the Americas** David F. Marley, 2005-09-12 With rare maps prints and photographs this unique volume explores the dramatic history of the Americas through the birth and development of the hemisphere's great cities Written by award winning author David F Marley Historic Cities of the Americas covers the hard to find information of these cities earliest years including the unique aspects of each region's

economy and demography such as the growth of local mining trade or industry The chronological layout aided by the numerous maps and photographs reveals the exceptional changes relocations destruction and transformations these cities endured to become the metropolises they are today Historic Cities of the Americas provides over 70 extensively detailed entries covering the foundation and evolution of the most significant urban areas in the western hemisphere Critically researched this work offers a rare look into the times prior to Christopher Columbus arrival in 1492 and explores the common difficulties overcome by these European conquered or founded cities as they flourished into some of the most influential locations in the world Urban Transport Environment and Equity Eduardo Alcantara Vasconcellos,2014-05-01

Traditional transport planning has generated transport systems that propagate an unfair distribution of accessibility and have environmental and safety issues This book highlights the importance of social and political aspects of transport policy and provides a methodology to support this approach It emphasizes the importance of co ordinating urban transport and traffic planning and addresses the major challenge of modifying the building and use of roads The author makes suggestions for innovative and radical new measures towards an equitable and sustainable urban environment **The Boston**

**Renaissance** Barry Bluestone,Mary Huff Stevenson,2000-06-29 This volume documents metropolitan Boston s metamorphosis from a casualty of manufacturing decline in the 1970s to a paragon of the high tech and service industries in the 1990s The city s rebound has been part of a wider regional renaissance as new commercial centers have sprung up outside the city limits A stream of immigrants have flowed into the area redrawing the map of ethnic relations in the city While Boston s vaunted mind based economy rewards the highly educated many unskilled workers have also found opportunities servicing the city s growing health and education industries Boston s renaissance remains uneven and the authors identify a variety of handicaps low education unstable employment single parenthood that still hold minorities back Nonetheless this book presents Boston as a hopeful example of how America s older cities can reinvent themselves in the wake of suburbanization and deindustrialization A Volume in the Multi City Study of Urban Inequality **Boston Against**

**Busing** Ronald P. Formisano,2012-01-01 Perhaps the most spectacular reaction to court ordered busing in the 1970s occurred in Boston where there was intense and protracted protest Ron Formisano explores the sources of white opposition to school desegregation Racism was a key factor Formisano argues but racial prejudice alone cannot explain the movement Class resentment ethnic rivalries and the defense of neighborhood turf all played powerful roles in the protest In a new epilogue Formisano brings the story up to the present day describing the end of desegregation orders in Boston and other cities He also examines the nationwide trend toward the resegregation of schools which he explains is the result of Supreme Court decisions attacks on affirmative action white flight and other factors He closes with a brief look at the few school districts that have attempted to base school assignment policies on class or economic status Great Projects James Tobin,2012-06-12 Since the earliest days of the republic great engineering projects have shaped American landscapes and

expressed American dreams The ambition to build lies as close to the nation's heart as the belief in liberty We live in a built civilization connected one to another in an enormous web of technology Yet we have all too often overlooked the role of engineers and builders in American history With glorious photographs and epic narrative sweep Great Projects at last gives their story the prominence it deserves Each of the eight projects featured in this masterful narrative was a milestone in its own right the flood control works of the lower Mississippi Hoover Dam Edison's lighting system the spread of electricity across the nation the great Croton Aqueduct the bridges of New York City Boston's revamped street system known as the Big Dig and the ever evolving communications network called the Internet Each project arose from a heroic vision Each encountered obstacles Each reveals a tale of genius and perseverance James Tobin winner of a National Book Critics Circle Award explains the four essential tasks of the engineer to protect people from the destructive force of water while harnessing it for the enormous good it can do to provide people with electricity the motive force of modern life to make great cities habitable and vital and to create the pathways that connect place to place and person to person Tobin focuses on the individuals behind our greatest structures of earth and concrete and steel James Buchanan Eads who walked on the floor of the Mississippi to learn the river's secrets Arthur Powell Davis and Frank Crowe who imagined a dam that could transform the West Thomas Edison who envisioned a new way to light the world Samuel Insull the organizational mastermind of the electrical revolution the long forgotten John Bloomfield Jarvis who assured New York's future with the gift of clean water Othmar Ammann the modest Swiss American who fought his mentor to become the first engineer to bridge the lower Hudson River Fred Salvucci the antihighway rebel who transformed the face of Boston and J C R Licklider the obscure scientist who first imagined the Internet Here too are the workers who scorned hardship to turn the engineers dreams into reality deep underground and high in the sky through cold and heat and danger In Great Projects soon to be a major PBS television series by the Emmy Award winning Great Projects Film Company we share their dreams and witness their struggles we watch them create the modern world we walk through each day the city upon a hill that became our America

**Popular Culture in the Age of White Flight** Eric Avila, 2006-04 In Popular Culture in the Age of White Flight Eric Avila offers a unique argument about the restructuring of urban space in the two decades following World War II and the role played by new suburban spaces in dramatically transforming the political culture of the United States Avila's work helps us see how and why the postwar suburb produced the political culture of balanced budget conservatism that is now the dominant force in politics how the eclipse of the New Deal since the 1970s represents not only a change of views but also an alteration of spaces George Lipsitz author of The Possessive Investment in Whiteness

**Ideology and the Urban Crisis** Peter J. Steinberger, 1985-01-01 Ideology and the Urban Crisis explores the philosophical underpinnings of the contemporary debate surrounding the urban crisis It examines three major ideologies of American city politics by uncovering and analyzing the philosophical presuppositions of each as derived from the history of political thought The book also explores writings

influenced by the Marxist radical paradigm examines the revival of classical approaches to the city and concludes by outlining the bases of a more adequate philosophy of urban politics Ideology and the Urban Crisis is intended for teachers and scholars of urban politics interested in more effectively incorporating normative materials into their courses and research Focusing on the literature of the past two decades it argues that the ideologies of the urban crisis have had an immense impact on public policy and on the political process in general The book classifies and explicates these materials making them more accessible and providing a basis for their intelligent criticism *The Other Black Bostonians* Violet M. Johnson,2006-12-06 This study of Boston s West Indian immigrants examines the identities goals and aspirations of two generations of black migrants from the British held Caribbean who settled in Boston between 1900 and 1950 Describing their experience among Boston s American born blacks and in the context of the city s immigrant history the book charts new conceptual territory The Other Black Bostonians explores the pre migration background of the immigrants work and housing identity culture and community activism and social mobility What emerges is a detailed picture of black immigrant life Johnson s work makes a contribution to the study of the black diaspora as it charts the history of this first wave of Caribbean immigrants Displacing Blackness Ted Rutland,2018-01-01 While focused on twentieth century Halifax Displacing Blackness develops broad insights about the possibilities and limitations of modern planning Drawing connections between the history of planning and emerging scholarship in Black Studies Ted Rutland positions anti blackness at the heart of contemporary city making *Information Systems in the Political World* K. V. Andersen,1995 This text investigates the nature of impacts of information systems on the political world in the First World countries The overall aim is to provide a framework on how to analyze implications of information technology IT on the political world and vice versa This is illustrated by a study of economic modelling at the central and local levels of government *The City Greenhouse Book* Paige Chapel,1980 **Cambridge on the Charles** Alan Seaburg,Thomas Dahill,Hilma Rose,2001 From Dream to Reality: Scaling the Construction Planning Hurdles of a Megaproject Orikaye Brown-West,2008-11-10 Discusses how the dream of a megaproject is realized elucidates the various demands and explains why it takes years to materialize It asserts that a megaproject is any project that requires a great deal of management courage capital patience and well conceived plans And that managing a megaproject is more than managing a major construction effort it is also managing a public responsibility with the concomitant management accountability and transparency It advances the Big Dig as the case study megaproject of record because none of the other notable megaprojects in the 20th century can boast the paradoxes and the lessons that the Big Dig provides It affirms that leadership engagement imagination and political alignment facilitate the realization of such dream It espouses good planning and invokes foresight considerations as a sine qua non for getting the right strategic gaps closed the misdeeds avoided and the right mechanics applied for a successful project outcome *The Geography of Urban Transportation, Fourth Edition* Genevieve Giuliano,Susan Hanson,2017-04-12 A comprehensive update

the fourth edition of this leading text features numerous chapters by new authors addressing the latest trends and topics in the field The book presents the foundational concepts and methodological tools that readers need in order to engage with today s pressing urban transportation policy issues Coverage encompasses passenger and freight dynamics in the American metropolis the local and regional transportation planning process and questions related to public transit land use social equity and environmental justice energy consumption air pollution transportation finance sustainability and more Among the student friendly features are special topic boxes delving into key issues and 87 instructive figures including eight color plates New to This Edition Extensively revised coverage of information and communication technologies urban freight travel behaviors and regional transportation planning Engaging discussions of current topics smartphone travel tracking Uber car and bike sharing food deserts biofuels and more Heightened focus on climate change Reflects over a decade of policy changes technological advances and emergent ideas and findings in the field Most of the figures and special topic boxes are new
