Benjamin Richardson

Roaring 80s:

The Roaring '80s Adam Smith,1989 **Out of the Dog House** Dick Portillo,Don Yaeger,2018-11-27 In 1963 Dick Portillo built a 6 x 12 trailer with no running water or bathroom and opened a simple hot dog stand in Villa Park Illinois He called it The Dog House More than 50 years and 50 locations later his namesake Portillo s restaurants are a Windy City institution famous for perfect Chicago style dogs In *Out of the Dog House* Portillo tells the incredible story of his life sharing the ingenuity and hard earned wisdom that went into building a beloved restaurant chain From a modest childhood as the son of Greek and Mexican immigrants to the core principles that became essential in growing a national business this is a singular at times surprising tale of how one man crafted his own American dream one hot dog at a time **Paying the Piper** Michael McPherson,Morton Owen Schapiro,Gordon Winston,2025-10-01 Rising tuitions and shrinking government budgets have pushed questions about productivity and resource use in U S higher education to the fore In *Paying the Piper* three distinguished researchers examine the many successes of U S higher education identify real problems and carefully analyze potential solutions Among the questions addressed are On what do colleges and universities spend their money and how have their spending patterns changed over time what does quality really mean in higher education and how is it related to price and cost what are appropriate measures of productivity and does increasing the amount of federal financial aid encourage colleges to raise their tuitions The essays comprising this volume demonstrate that the application of basic economic principles and a combination of both descriptive and econometric analyses can illuminate a number of issues Using economic concepts and tools to provide insight into these pressing questions *Paying the Piper* helps us to understand the recent past anticipate the future and develop policies that can influence the future Environmental Regulation Through Financial Organisations:Comparative Perspectives on the Industrialised Nations Benjamin Richardson,2002-02-13 This book takes a comparative perspective of practice in the European Union North America Japan and Australasia arguing that existing legal reforms to promote sustainable development are unlikely to be successful unless environmental policy can be diffused and embedded in the financial services sector This sector plays a crucial role in creating the financial conditions that allow much economic development to proceed Financial markets are already highly regulated in pursuance of various public policy objectives and there is scope to adapt existing regulation to incorporate environmental aspects into the financial services sector In terms of specific reforms the book focuses on the role of corporate environmental reporting economic instruments and liability rules to provide a proper context for engaging financial organisations with the environment as well as reforms to the system of prudential regulation that currently governs this sector Beyond the focus on the financial services sector the book raises complex questions regarding the relationship between the state and market institutions in environmental policy and will appeal to scholars from a wide range of disciplines interested in problems of environmental governance The Unbroken Road Kathryn Brown Isaacs,2014-07-22 I turned the corner The aisle stretched before me as

the music escalated My white slippers brushed over the red roses My heart thumped I had waited so long for this moment Had I really made it this far Hundreds of eyes twinkled their approval But did they really think I was crazy I could almost hear the question I had been asked before Do you think it will be worth the wait Here I was at this pinnacle moment My first kiss These are the lessons of a young woman s life It may seem an unusual narrative as she saved her heart for love and grew up knowing that being different was a gift From her childhood years in the Blue Ridge Mountains of North Carolina to the stark poverty and tremendous courage and faith of the Ethiopians this is a riveting and inspiring story of God s sovereignty and faithfulness **Strengthening the Supervision and Regulation of the Depository Institutions** United States.

Richardson,2015-05-21 This investigation of the barriers to and opportunities for promoting environmental sustainability in company law provides an in depth comparative analysis of company law regimes across the world The social norm of shareholder primacy is the greatest barrier preventing progress and it also helps explain why voluntary action by companies and investors is insufficient By deconstructing the myth that shareholder primacy has a legal basis and challenging the economic postulates on which mainstream corporate governance debate is based Company Law and Sustainability reveals a surprisingly large unexplored potential within current company law regimes for companies to reorient themselves towards sustainability It also suggests possible methods of reforming the existing legal infrastructure for companies and provides an important contribution to the broader debate on how to achieve sustainability *Restructuring of the Banking Industry* United States.
