Salt,2022-09-16 In *On Cambrian and Cumbrian Hills* Pilgrimages to Snowdon and Scafell Henry S Salt masterfully intertwines the themes of nature spirituality and personal reflection Written in a vivid and poetic prose Salt captures the sublime beauty of the Welsh and Cumbrian landscapes while

simultaneously exploring the intellectual and emotional responses these environments provoke This work serves not only as a travelogue but also as a philosophical inquiry into the human relationship with nature placing it within the broader context of the Romantic movement where the natural world is central to understanding one's existence Henry S Salt 1851-1939 was an English writer philosopher and early advocate for animal rights whose diverse interests significantly influenced his literary voice His background in classical studies and his experiences as a schoolmaster imbued him with a deep appreciation for nature which resonates throughout this book Salt's commitment to social reform and his humanistic ideals find expression in the meditative quality of his writing reflecting both his personal convictions and his broader ethical concerns Readers seeking a profound exploration of the majesty of nature and its implications for the human spirit will find *On Cambrian and Cumbrian Hills* an enriching and enlightening read Salt's eloquent prose invites contemplation and empathy making this pilgrimage through the hills a timeless journey worth undertaking

Unjustifiable Risk? Simon Thompson, 2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession *Unjustifiable Risk* is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today's climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment *Unjustifiable Risk* was shortlisted for the Boardman Tasker prize in 2011
