 Speech Reaction Human Nature and Conduct Books on Politics China Japan and the U S A Letters Criticisms John Dewey  
 1859 1952 is one of the primary figures associated with the philosophy of pragmatism and is considered one of the founders  
 of functional psychology      **Red Genes, Blue Genes** Guillermo Jiménez,2009 Modern science postulates that our political  
 predispositions can be traced to our genes To some extent there is such a thing as red state or blue state DNA Our brains  
 likewise bear the evolutionary imprint of hundreds of thousands of years of political wiring for biased partisanship The result  
 is a political landscape characterized by irrationality and hostility Americans today like citizens of many other countries find  
 themselves trapped in hostile red vs blue political warfare While liberals and conservatives fight each other for power and  
 influence the world s problems go unsolved Using recent scientific evidence from neuroscience behavioral genetics and  
 evolutionary and cognitive psychology Red Genes Blue Genes is the first book to take a comprehensive look at the  
 phenomenon of political irrationality This book seeks to unravel a number of political mysteries Why does it seem that  
 liberals and conservatives are different kinds of people Why are political arguments so hostile and impervious to reason Why  
 are partisans and political figures so certain they are right all the time Why are citizens everywhere unsatisfied with  
 democratic systems of government Why are political campaigns so shallow vicious and manipulative This book provides  
 answers to the above questions showing how understanding political irrationality may enable us to devise new systems of  
 government that are truly democratic Book jacket      *2005 Novel and Short Story Writer's Market*® Anne Bowling,Michael  
 Schweer,2004-08 For nearly 25 years Novel Short Story Writer s Market has been the only resource of its kind exclusively for
