Rock Rabbit And The Rainbow:

The Rock Rabbit and The Rainbow Robert Hinshaw, 1998 The Black Madonna Fred Gustafson, It is not easy to quickly or simply answer the question of what the Black Madonna actually represents One answer leads to more questions which in turn demand more explanations A possible reason for this turmoil lies in the difficulty our culture has always had in consciously integrating the feminine side of life and especially its dark side Another reason is the nature of the dark feminine itself which defies attempts to give eternally fixed limits to what she represents Still she reflects herself in our personal and collective lives and gives intimations of her most essential meaning through images myths dreams and fantasies If we are willing to receive and be open to such phenomena we stand a chance of not only knowing in part what she might represent but more so experiencing the healing force she embodies in our time This darker aspect of the feminine has throughout history been both feared and sought after both hated and admired The Black Madonna of Einsiedeln stands among the many Black Virgins that seem to imagistically express this dark side of the feminine in a creative transformational manner for both the individual and the collective Beginning with a history of the Einsiedeln Madonna Dr Gustafson broadens his analysis into a psychological and historical examination of the Black Madonna from her roots in the pagan deity Lilith and the archetype of the Great Mother to her resurgence as the Virgin in the Middle Ages to her life today as the unheeded unconscious archetype of the feminine

Florence 98, Destruction and Creation Personal and Cultural Transformation Mary Ann Mattoon, 1999 The Fourteenth Congress for Analytical Psychology was held August 23-28 1998 in the ancient city of Florence Italy The theme Destruction and Creation Personal and Cultural Transformations is especially appropriate to the Italian setting with that nation's history of destruction both from nature and from human activity and its tradition especially in Florence of creative individuals and institutions The

theme is fitting also to the context of Jungian psychology with its emphasis on these and other pairs of opposites with their integral role in psychic wholeness Acknowledging also that destruction is indispensable to creation some Jungians prefer the term creative unconscious to the traditional collective unconscious *C.G.
