Role Of Interfaces In Environmental Protection:

Role of Interfaces in Environmental Protection Sandor Barany, 2004-01-31 The NATO Advanced Research Workshop Role of Interfaces in Environmental Protection has been held on May 27-30 2002 in Miskolc Hungary under leadership of co-directors Prof Sandor Barany from the University of Miskolc Hungary and Prof Nataliya Klymenko National Academy of Sciences of Ukraine The objective of the ARW was to highlight colloidal and biocolloidal aspects of environmental pollution and technologies to monitor remediate abate and prevent pollution It is known that the solution of majority of environmental problems is closely connected with phenomena at the interfaces The behaviour transport of dispersed particles in the environment the main phase separation methods in water treatment purification of liquids aerosols removal many soil remediation processes as well as the methods of protection of human organisms from hazardous matters are based on concepts of colloid chemistry i.e. properties of interfaces and their behaviour in different media Examples of these methods are filtration ultrafiltration flotation coagulation hetero coagulation and flocculation adsorption adhesion of micro organisms to surfaces membrane separation methods etc A very important and special aspect of the topic is the human protection using colloid chemical approaches i.e. the adsorption aggregation and adagulation properties of different materials Examples are adsorption of hazardous organic materials drugs heavy metals and radionuclides on activated carbon silica cellulose derivatives etc

Burritt, Stefan Schaltegger, Martin Bennett, Tuula Pohjola, Maria Csutora, 2011-05-19 This volume's focus on the environmental accounting of supply chain processes is of particular relevance because these processes supply data about the environmental impact of relationships between business organisations an area where the boundary separating internal and external accounting is ill defined Here contributors advocate what they term accounting for cooperation as a more environmentally positive complement to the paradigmatic practice of accounting for competition **2014 International Conference on Social Science and Environment Protection (SSEP2014)**, 2014-02-11 This conference promises to be both informative and stimulating with a wonderful program Delegates will have a wide range of sessions to choose from and will have a difficult time to choose which session to attend The program consists of invited session technical workshop and discussions covering a wide range of topics in social science including communication culture economics education finance law management politics psychology and society This rich program provides all attendees with the opportunities to meet and interact with one another We hope that your experience with SSEP2014 is a fruitful and long lasting one *Environmental Management* Uberoi, 2004-05 Environmental Management with few exceptions is not taught in colleges universities technical and management institutions The result is that the students of these institutions lack knowledge and sensitisation to environmental issues They lack the awareness of environmental consequences of human actions To fill this void Environmental Management is timely The book provides background material to various environmental problems It surveys a range of topics from sustainable development and ecological imperatives to strategies for managing environmental issues The problem of pollution waste management biological diversity and forest management have been analysed in the light of laws and international conventions and treaties The book brings out the realities about the damage being inflicted on the environment and our exploitive attitude to nature It concludes with discussion and debate about values in nature and touches upon the subject of metamorphosis of the whole trajectory of attitudes in modern societies *The Peri-Urban Interface* Duncan McGregor, David Simon, 2012-04-27 Peri urban interfaces the zones where urban and rural areas meet suffer from the greatest problems to humans caused by rapid urbanization including intense pressures on resources slum formation lack of adequate services such as water and sanitation poor planning and degradation of farmland These areas home to hundreds of millions of people face unique problems and need distinctive and innovative approaches and solutions This book authored by top researchers and practitioners covers the full breadth and depth of the impacts of rapid urbanization on livelihoods poverty and resources in the peri urban zones in diverse African Asian Latin American and Caribbean contexts Topics include peri urban resource sustainability ecosystems and societies and environmental changes in peri urban zones Rich case studies

cover production systems and livelihoods including the impacts of irrigated vegetable production horticulture dairy enterprises waste fed fisheries and pastoral livelihoods Also addressed are planning and development issues in the peri urban interface including the difficulty in achieving sustainability conflict and cooperation over resources and a fresh look at the relationship between people and their environment The final part of the book presents policies and strategies for promoting and measuring sustainability in peri urban zones including community based waste management the co management of watersheds and empowerment of the poor This book is the most comprehensive examination of the challenges and solutions facing the people and environments of peri urban zones and is essential reading for all practitioners students and academics in geography and development

Environmental Management Accounting: Informational and Institutional

Developments M.D. Bennett,J.J. Bouma,T.J. Wolters,2005-12-30 Environmental Management Accounting EMA is increasingly recognised as a distinguished tool of environmental management It helps to integrate a company s environmental and business interests whereby enhancing corporate eco efficiency in terms of reducing environmental costs or making one s product more competitive This book gives a comprehensive coverage of the state of the art It presents a number of EMA frameworks that companies can take as a basis for implementing their own specific EMA structures Besides discussing environmental accounting issues within conventional management accounting it gives a detailed picture of materials flow cost accounting as an alternative way of looking at the ecology economy relationships at the corporate level A fascinating case study shows how a large company Siemens applies materials flow accounting and what benefits it entails

The Biswell Symposium, Fire Issues and Solutions in Urban Interface and Wildland Ecosystems ,1996 *The Interface Between EU and International Law* Inge Govaere,Sacha Garben,2019-05-16 Despite their many obvious interconnections EU and international law are all too often studied and practised in different spheres While it is natural for each to insist on its own unique characteristics and in particular for the EU to emphasise its sui generis nature important insights might be lost because of this exclusionary approach This book aims to break through some of those barriers and to show how more interaction between the two spheres might be encouraged In so doing it offers a constitutional dimension but also a substantive one identifying policy areas where EU and international law and their respective actors work alongside each other Offering a 360 degree view on both EU and international institutional and substantive law this collection presents a refreshing perspective on a longstanding issue

Maternal-Fetal interface: new insight in placenta research, volume II Cilia Abad,Reinaldo Marín,Alicia E. Damiano ,Mariana Farina,2025-08-18 Given the success of the Maternal Fetal Interface New Insight in Placenta Research we are pleased to announce the launch of Volume II The placenta is a fascinating and ephemeral organ of life which fulfils several functions to create and maintain optimal in utero conditions for fetal development and programming During its short period of time in the intrauterine cavity the fetus is dependent on the placenta as a lung liver and kidneys Functionally the placenta is a highly specialized organ which represents the interface between the mother and

the fetus and is essential for fetal development and growth Apart from enabling oxygen and nutrient exchange the placenta produces various hormones neurotransmitters and other factors that regulate fetal development Extensive research over the last three decades has shown that a balanced interplay of genetic epigenetic and environmental factors is critical and must be maintained during the whole period of gestation so that the architecture and programming of a growing fetus can develop properly Nevertheless physiological alterations or insults occurring during pregnancy such as pathologies medication malnutrition may disrupt this balance and lead to poor pregnancy outcomes The timing of internal external alterations in pregnancy will result in different effects on fetal development and or programming This Research Topic will bring together research that addresses the new insights in maternal fetal interface research in health and disease We welcome original research articles clinical studies reviews and perspectives toward understanding the Maternal Fetal interface Specific themes include but are not limited to 1 Transport and metabolism of placenta 2 Transcriptome and epigenome of trophoblast 3 Pregnancy diseases 4 Metabolism studies on placenta organoids 5 Lipidomic on Health and Diseases of Pregnancy 6 COVID pregnancy and vaccines 7 Animal and cell models for study of pregnancy pathologies 8 Biology of trophoblast 9 Extracellular vesicles in pregnancy 10 Role of placenta in fetal programming 11 Brain placental axis World Who Is Who and Does What in Environment and Conservation Nicholas Polunin,2013-11-05 Qaidu 1236 1301 one of the great rebels in the history of the Mongol Empire was the grandson of Ogedei the son Genghis Khan had chosen to be his heir This boof recounts the dynastic convolutions and power struggle leading up to his rebellion and subsequent events
