Role Of The Military In Underdeveloped C:

Role of the Military in Less Developed Countries United States. Department of State. External Research Staff,1964

Guarding the Guardians Mathurin C. Hounnikpo,2016-04-22 The relationship between civil society and the armed forces is an essential part of any polity democratic or otherwise because a military force is after all a universal feature of social systems Despite significant progress moving towards democracy among some African countries in the past decade all too many African militaries have yet to accept core democratic principles regulating civilian authority over the military This book explores the theory of civil military relations and moves on to review the intrusion of the armed forces in African politics by looking first into the organization and role of the army in pre colonial and colonial eras before examining contemporary armies and their impact on society Furthermore it revisits the various explanations of military takeovers in Africa and disentangles the notion of the military as the modernizing force Whether as a revolutionary force as a stabilizing force or as a modernizing force the military has often been perceived as the only organized and disciplined group with the necessary skills to uplift newly independent nations The performance of Africa s military governments since independence however has soundly disproven this thesis As such this study conveys the necessity of new civil military relations in Africa and calls not just for civilian control of the military but rather a democratic oversight of the security forces in Africa *Essays in Some Dimensions of Military History* Don Rickey,Benjamin Franklin Cooling (III),1972 These papers and essays are derived from lectures delivered at guest seminars for the Army War College The Military and Democracy in Asia and the Pacific Ronald James May,Viberto Selochan,2004-03-01 In The Military and Democracy in Asia and the Pacific a number of prominent regional specialists take a fresh look at the military s changing role in selected countries of Asia and the Pacific particularly with regard to the countries performance against criteria of democratic government Indonesia Thailand the Philippines Burma Pakistan Bangladesh South Korea Fiji and Papua New Guinea all fall under the spotlight as the authors examine the role which the military has played in bringing about changes of political regime and in resisting pressures for change

Military Government and the Movement Toward Democracy in South America Howard Handelman,Thomas Griffin Sanders,1981 Sophisticated investigations of governmental transition in Brazil Chile Uruguay Peru and Ecuador Discusses such issues as the undercurrents of popular discontent and the recent progress toward increased civilian political participation The Military in the Developing Countries ,1971 **U.S. Security, Arms Control, and Disarmament**

1961-1965 United States. Department of Defense,1965 **Military Industry and Regional Defense Policy** Timothy D. Hoyt,2017-07-05 **Military Industry and Regional Defense Policy** re examines military industrialization in the developing world focusing on policy making in producer states and the impact of security perceptions on such policy making Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era

he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective

The Role of the Military in Underdeveloped Countries John J. Johnson,1972 *Politics and Change in Developing Countries* Colin Leys,2011-02-03 This 1969 work gathers together essays on Third World development by nine social scientists with diverse academic interests These contributions are united by a relative uncertainty in relation to development derived from the contemporary critical reappraisal of the area together with a need to create fresh methodologies for the advancement of their respective fields

Foreign Policy and the Developing Nation Richard Butwell,2021-03-17 Eight well known political scientists economists and sociologists here explore the interrelationships between the various levels of economic strength and political stability attended by newly emerged nations and the formulation of their foreign policies These essays provide testimony not only to the importance of these problems but also to contributions that can be made by various methodological approaches by scholars from the different social sciences Contributing to the volume are Rupert Emerson Benjamin Higgins Gayl Ness Ivo and Rosalind Feierabend Henry Bienen Lloyd Jensen and Wilson C McWilliams Public Administration, Sixth Edition, A Comparative Perspective. Ferrel Heady,2001-02-13 Continuing in the standard of excellence set by previous editions this sixth edition assesses the bureaucracies and development of governments around the world providing helpful and revealing analyses of the relationships between bureaucracies and political regimes With over 1000 literature references tables and drawings the book has been updated to reflect changes in the political systems of the former Soviet Union Eastern Europe and the developing world The editor clearly articulates recent developments in the shifting global political landscape and discusses how conditions in development administration and comparative public policy affect nation states
