Research Handbook on Art and Law Jani McCutcheon, Fiona McGaughey, 2020-01-31 Featuring international contributions from leading and emerging scholars this innovative Research Handbook presents a panoramic view of how law sees visual art and how visual art sees law It resists the conventional approach to art and law as inherently dissonant one a discipline preoccupied with rationality certainty and objectivity the other a creative enterprise ensconced in the imaginary and inviting multiple unique and subjective interpretations Blending these two distinct disciplines this unique Research Handbook bridges the gap between art and law

The Family of Man Revisited Gerd

Hurm, Anke Reitz, Shamoon Zamir, 2020-08-09 The Family of Man is the most widely seen exhibition in the history of photography The book of the exhibition still in print is also the most commercially successful photobook ever published First shown at the Museum of Modern Art in New York in 1955 the exhibition travelled throughout the United States and to forty six countries and was seen by over nine million people Edward Steichen conceived curated and designed the exhibition He explained its subject as the everydayness of life and the essential oneness of mankind throughout the world The exhibition was a statement against war and the conflicts and divisions that threatened a common future for humanity after 1945 The popular international response was overwhelmingly enthusiastic Many critics however have dismissed the exhibition as a form of sentimental humanism unable to address the challenges of history politics and cultural difference This book revises the critical debate about The Family of Man challenging in particular the legacy of Roland Barthes s influential account of the exhibition The expert contributors explore new contexts for understanding Steichen s work and they undertake radically new analyses of the formal dynamics of the exhibition Also presented are documents about the exhibition never before available in English Commentaries by critical theorist Max Horkheimer and novelist Wolfgang Koeppen letters from photographer August Sander and a poetic sequence on the images by Polish poet Witold Wirpsza enable and encourage new critical reflections A detailed survey of audience responses in Munich from 1955 allows a rare glimpse of what visitors thought about the exhibition Today when armed conflict environmental catastrophe and economic inequality continue to threaten our future it seems timely to revisit The Family of Man
