Shield Of Achilles The Long War And The Market State:

The Shield of Achilles Philip Bobbitt, 2011-07-06 We are at a moment in world affairs when the essential ideas that govern statecraft must change For five centuries it has taken the resources of a state to destroy another state This is no longer true owing to advances in international telecommunications rapid computation and weapons of mass destruction The change in statecraft that will accompany these developments will be as profound as any that the State has thus far undergone from the Prologue The Shield of Achilles is a classic inquiry into the nature of the State its origin in war and its drive for peace and legitimacy Philip Bobbitt a professor of constitutional law and a historian of nuclear strategy has served in the White House the Senate the State Department and the National Security Council in both Democratic and Republican administrations and here he brings his formidable experience and analytical gifts to bear on our changing world Many have observed that the nation state is dying yet others have noted that the power of the State has never been greater Bobbitt reconciles this paradox and introduces the idea of the market state which is already replacing its predecessor Along the way he treats such themes as the Long War which began in 1914 and ended in 1990 He explains the relation of violence to legitimacy and the role of key individuals in fates that are partially but only partially determined This book anticipates the coalitional war against terrorism and lays out alternative futures for the world Bobbitt shows how nations might avoid the great power confrontations that have a potential for limitless destruction and he traces the origin and evolution of the State to such wars and the peace conferences that forged their outcomes into law from Augsburg to Westphalia to Utrecht to Vienna to Versailles The author paints a powerful portrait of the ever changing interrelatedness of our world and he uses his expertise in law and strategy to discern the paths that statehood will follow in the coming years and decades Timely and perceptive *The Shield of Achilles* will change the way we think about the world The Other Journal: Evil Andrew Shutes-David, 2012-10-25 THE OTHER

Remembering the Future edited by Chris Keller Andrew David *The New Constitutional Order* Mark Tushnet, 2009-02-09

In his 1996 State of the Union Address President Bill Clinton announced that the age of big government is over Some Republicans accused him of cynically appropriating their themes while many Democrats thought he was betraying the principles of the New Deal and the Great Society Mark Tushnet argues that Clinton was stating an observed fact the emergence of a new constitutional order in which the aspiration to achieve justice directly through law has been substantially chastened Tushnet argues that the constitutional arrangements that prevailed in the United States from the 1930s to the 1990s have ended We are now in a new constitutional order one characterized by divided government ideologically organized parties and subdued constitutional ambition Contrary to arguments that describe a threatened return to a pre New Deal constitutional order however this book presents evidence that our current regime s animating principle is not the old belief that government cannot solve any problems but rather that government cannot solve any more problems Tushnet examines the institutional arrangements that support the new constitutional order as well as Supreme Court decisions that reflect it He also considers recent developments in constitutional scholarship focusing on the idea of minimalism as appropriate to a regime with chastened ambitions Tushnet discusses what we know so far about the impact of globalization on domestic constitutional law particularly in the areas of international human rights and federalism He concludes with predictions about the type of regulation we can expect from the new order This is a major new analysis of the constitutional arrangements in the United States Though it will not be received without controversy it offers real explanatory and predictive power and provides important insights to both legal theorists and political scientists **Just Capitalism** Brent Waters, 2016-10-01

Just Capitalism is a Christian moral defense of economic globalization as a system that is well suited to provide the necessary material needs that are prerequisite for human community and flourishing Global based market exchange offers the development and distribution of the goods of creation for humans to enjoy and share Globalization also offers the most realistic and promising way of exercising a preferential option for the poor Waters argues that economic globalization and thus capitalism is a necessary condition for sustaining human life but not a sufficient condition for enabling human flourishing Even though globalization is generally compatible with Christian theological and moral claims and can realistically facilitate the well being of the human family it must be reoriented toward koinoniahuman community communication fellowships as the global economy s primary goal in order to help actualize human flourishing Readers will gain insight about how economic globalization and thus capitalism is good for the human family and can be made better by certain reorientations that are compatible with Christian moral values Waters provides a mature and civil counterargument against knee jerk condemnations of economic globalization and capitalism *Terror and Consent* Philip Bobbitt, 2009-05-05

Philip Bobbitt follows his magisterial Shield of Achilles with an equally provocative analysis of the West s struggle against terror Boldly stating that the primary driver of terrorism is not Islam but the emergence of market states like the U S and the E U

Bobbitt warns of an era where weapons of mass destruction will be commodified and the wealthiest societies even more vulnerable to destabilizing demoralizing terror Unflinching in his analysis Bobbitt addresses the deepest themes of history law and strategy America's Fatal Leap Paul W. Schroeder,2025-02-18 A decisive analytic critique of US foreign policy by one of America's greatest historians America's Fatal Leap deconstructs US geopolitics after the end of the Cold War informed by its author's unsurpassed command of modern history Paul W. Schroeder an acclaimed historian of international diplomacy was a conservative and a natural supporter of American leadership in the world But he wrote scathing op eds for the National Interest and the American Conservative about the hubris and moral failings of the War on Terror warning of damaging long range effects on the international system Schroeder compared 9 11 to the assassination in Sarajevo that sparked the First World War insisting that a great power should never give terrorists a war they wanted He wrote with extraordinary prescience months before the US launched its attack on the Taliban of the risks of victory in Afghanistan characterised the war in Iraq as a failed bid for informal empire and called for disimperialism in the Middle East America's Fatal Leap collects Schroeder's remarkable interventions on America's adventurism in the Middle East from the 1991 Gulf War to the Surge of 2007 It includes an Introduction by Perry Anderson author of US Foreign Policy and Its Thinkers and Ever Closer Union The Art of War in an Asymmetric World Barry Scott Zellen,2012-06-28 This book examines the post Cold War security environment and how the U S has learned to wage war in this complex asymmetrical world of conflict

Countering Terrorism and WMD Peter Katona,Michael D. Intriligator,John P. Sullivan,2007-01-24 This volume shows us that in order to deal with today's Fourth Generation asymmetric warfare by terrorist groups using conventional arms and weapons of mass destruction we need a new global networked approach The contributors examine the various attempts that have been made to counter the latest wave of terrorism including the US strikes against Afghanistan and Iraq President George W Bush's declaration of a war against terrorism the creation of the US Department of Homeland Security and the 9 11 Commission Drawing from our experience with Terrorism Early Warning and the co production of counter terrorism intelligence this book explains the need for such a network and shows how it could be formed It compiles the opinions of experts from clinical medicine public policy law enforcement and the military These expert contributors identify the nature of a global counter terrorism network show how it could be created and provide clear guidelines for gauging its future effectiveness This book will be of great interest to all students of terrorism studies US national security international relations and political science in general Library of Congress Information Bulletin ,2003 *Mastering the Globalization of Business* Roger Cartwright,2017-03-14 The book is designed to provide a basic understanding of the dynamics of globalization and its relevance for all types and sizes of business Commencing with a brief history that shows that globalization is not just a late 20th and early 21st century phenomenon but has been a factor in world trade since the 1600s the text then considers the two opposing views held about globalization The material goes on to look at the global

implications for customer relationships marketing human resources finance and information These are areas in which a narrow national view is becoming increasingly of less value to the student The book includes questions and case studies to aid understanding *Democracy Unmoored* Samuel Issacharoff,2023 Democracy Unmoored focuses on populism s negative impact on democracies across the globe covering not just wealthy democracies like the US and UK but countries like India Argentina Poland and Brazil as well In virtually every country experiencing a surge in populism the populists disregard for procedural norms is eroding the core institutions that uphold democracy Sweeping in scope this book provides a novel analysis of one of the defining trends in contemporary world politics China: The Stealth Empire Edward

Burman,2008-06-08 China The Stealth Empire asks why it is that China despite its size and once advanced culture and technology did not become a world power centuries ago Burman traces the answer through Chinese innate sense of superiority which made foreign conquest and trade an irrelevance This is about to change with the evolution of what is termed the Stealth Empire characterised by world dominance in the production of consumer goods a growing share of world manufacturing and a strong sense of nationalism The Chinese believe that they need to do nothing as they evolve by the middle of the century into the dominant world power Burman s book opens a window onto this history and growing sense of national destiny It will be essential reading for anyone wanting to understand what is going on in the Stealth Empire

Myths, Stories, and Organizations Yiannis Gabriel,2004-01-29 Each chapter of this book takes as its starting point a myth a legend a story or a fable and explores its contemporary relevance for a world of globalization organizations and consumerism Each contributor is inspired by a relatively short but rich text which is then used as a springboard for an analysis of contemporary social and organizational realities The idea behind this book is that by looking at contemporary society through the prism of pre modern narratives certain features emerge in sharp relief while others are found to be entrenched in societies across the ages The texts that have inspired the authors of this collection differ some are myths some are stories one is a children s tale The origins of these texts differ from the scriptural to the folkloric from high art to oral tradition What all the texts have in common is a distinct and compelling plot a cast of recognizable characters with an ability to touch us and speak to us through the ages and above all a powerful symbolic aura one that makes them identifiable landmarks in storytelling tradition The driving force behind this project was each author s love for their narratives It is not an exaggeration to say that the book is a true labour of love The chapters are introduced by the editor and are arranged in four parts each with its own introduction The chapters in each part spring from stories that share a narrative character and are labelled as Knowledge Narratives Heroic Narratives Tragic Narratives and Reflexive Narratives The book offers a set of probing original and critical inquiries into the nature of human experience knowledge and truth the nature of leadership power and heroic achievement postmodernity and its discontents and emotion identity and the nature of human relations in organizations Different chapters deal among other things with the nature of leadership in the face of terrorism friendship

women's position in organizations the struggle for identity the curse of insatiable consumption and the ways the hero and heroine are constructed in our times

Managing Emerging Risk Kevin D. Burton, 2017-11-15 From Main Street to Mumbai Managing Emerging Risk The Capstone of Preparedness considers the new global drivers behind threats and hazards facing all those tasked with protecting the public and private sector The text delves into the global mindset of public and private sector emergency managers and presents a new risk landscape vastly different

International Relations and the Problem of Time Andrew R. Hom, 2020-05-26 What is time and how does it influence our knowledge of international politics For decades International Relations IR paid little explicit attention to time Recently this began to change as a range of scholars took an interest in the temporal dimensions of politics Yet IR still has not fully addressed the issue of why time matters in international politics nor has it reflected on its own use of time how temporal ideas affect the way we work to understand political phenomena Moreover IR remains beholden to two seemingly contradictory visions of time the time of the clock and a longstanding tradition treating time as a problem to be solved International Relations and the Problem of Time develops a unique response to these interconnected puzzles It reconstructs IR's temporal imagination by developing an argument that all times from natural rhythms to individual temporal experience spring from social and practical timing activities or efforts to establish meaningful and useful relationships in complex and dynamic settings In IR's case across a surprisingly wide range of approaches scholars employ narrative timing techniques to make sense of confounding processes and events This innovative account of time provides a more systematic and rigorous explanation for time in international politics It also develops provocative insights about IR's own history its key methodological commitments supposedly timeless statistical methods historical institutions and the critical vanguard of time studies This book invites us to reimagine time and in so doing to significantly rethink the way we approach the analysis of international politics

Antagonistics Gopal Balakrishnan, 2020-05-05 Antagonistics addresses central political and theoretical questions how should we conceive the relations between neo imperial warfare and neoliberalism or American hegemony and capitalist globalization Reflections on the major issues of the new international order are set within a larger framework tracing the intertwined evolution of the modern state system and the capitalist mode of production from the Treaty of Westphalia to the Occupation of Iraq Gopal Balakrishnan interrogates three key political perspectives including Tocqueville's liberalism Althusser's Marxism and Schmitt on the radical right for their insights on state power and civil society democracy and class Antagonistics combines intellectual history political philosophy and historical sociology to produce a highly distinctive portrait of an age of capital and war

Understanding War Christian P. Potholm, 2016-08-03 The third book in Professor Christian Potholm's war trilogy which includes Winning at War and War Wisdom Understanding War provides a most workable bibliography dealing with the vast literature on war and warfare As such it provides insights into over 3000 works on this overwhelmingly extensive material Understanding War is thus the most comprehensive annotated bibliography available today Moreover by dividing

war material into eighteen overarching themes of analysis and fifty seminal topics and focusing on these Understanding War enables the reader to access and understand the broadest possible array of materials across both time and space beginning with the earliest forms of warfare and concluding with the contemporary situation Stimulating and thought provoking this volume is essential for an understanding of the breadth and depth of the vast scholarship dealing with war and warfare through human history and across cultures *Populism* Robert Corfe,2007-04-23 A sociological study of populism as a major influence in undermining standards in many spheres of life through false values promoted either through or resulting from political activity etc or through corporate marketing forces *American Book Publishing Record* ,2002 **The Authority of the Gospel** Robert Song,Brent Waters,2015-02-09 Oliver O Donovan is widely regarded as one of the preeminent Protestant Christian ethicists of our time His teaching and scholarship have exerted a profound influence on countless moral theologians This volume honoring O Donovan shows how the various contributors themselves distinguished scholars have developed their own thinking through serious engagement with O Donovan s work Significantly they build upon expand and critique the agenda for Christian ethics that O Donovan has been instrumental in constructing As Robert Song and Brent Waters say in their introduction To genuinely honor O Donovan one cannot remain content with reciting but must risk one s own exposition Contributors Nigel Biggar Brian Brock Jonathan Chaplin Eric Gregory Shinji Kayama Jean Yves Lacoste Joan O Donovan Oliver O Donovan Robert Song Hans Ulrich Bernd Wannenwetsch Brent Waters John Webster Rowan Williams John Witte Jr Holger Zaborowski
