Political Reaction to the Illegal Immigration of Jews to Palestine, 1945-1949 Freddy Liebreich, 2004-10-07 This book provides an important shift in the analysis of Britain's policy towards the illegal postwar Jewish immigration into Palestine. It charts the development of Britain's response to Zionist immigration from the initial sympathy as embodied in the Balfour Declaration through attempts at blockade, refoulement and finally disengagement. The book exposes differences in policy pursued by the great departments of state like the Foreign Colonial and War Offices and their legal advisors and those implemented by the Admiralty. The book argues that the eventual failure of Britain's immigration policy was inevitable in view of the hostility shown by many European nations and America towards Britain's ambition to retain her position in the Middle East.

International Law for Seagoing Officers, 7th Edition Craig H Allen, 2022-11-15 The seventh edition of this Blue and Gold Series book brings clarity and context to international law for the seagoing professional. This book is the only work that addresses the international law of the sea from the perspective of the United States. For those who operate on, under and over the sea, international law can sometimes be as complex as it is important. Written by the same former seagoing officer and maritime law professional who authored the current edition of *Farwell's Rules of the Nautical Road*, this book was designed to bring clarity and context to international law for the seagoing professional. Following an introduction to public international law and a short history of the law of the sea, the book describes the rules that apply in ports and in the adjacent maritime zones including the territorial sea, exclusive economic zone, archipelagic waters and the high seas. A highlight of the book are the chapters that focus on subjects of greatest interest to the seagoing professional including military and intelligence activities in the maritime domain, maritime law enforcement activities and the use of force at sea. The appendices include the text of the 1982 UN Convention on the Law of the Sea and the U.S. Senate's understandings of key provisions of the convention. Whether an academy cadet, a midshipman, a seasoned commanding officer or master mariner, readers of this thorough and timely book will be rewarded with a far greater understanding of the international laws that govern ships and mariners at sea. New in this edition: Over a dozen new cases by courts and arbitration panels interpreting UNCLOS including the South China Sea dispute between the Philippines and China; Coverage of Commercial Seafarer protections under Maritime Labor Convention; Global Responses to the Mediterranean Migrant Crisis; Coverage of the law protecting our vital submarine cables; Expanded coverage of unmanned and autonomous vessels and aircraft; Coverage on vessel health, safety and quarantine measures applicable in the COVID-19 Pandemic; A new chapter surveying issues the U.S. Senate should consider in any decision regarding ratification of UNCLOS; A new appendix setting out the U.S. Navy and Coast Guard policies on sovereign immunity of government vessels and aircraft.

International Extradition M. Cherif Bassiouni, 2014 This comprehensive guide covers all aspects of extradition to and from the United States while making critical theoretical and practical evaluations of these aspects and proposing alternatives. The rights of individuals, balancing of states' interests and preservation of world order within the Rule

of Law form the conceptual framework of this book The focus within U S practice explores the essentials involved in the executive branches treaty making power as implemented through its foreign relations practice and as scrutinized by the judiciary The Sixth Edition updates the treaties laws and cases cited with new content including comparative material dealing with the European Union cases involving the United States decided by other countries and major decisions of the high courts of the UK Canada France South Africa Australia Israel Italy and Germany As with the prior editions the Sixth Edition continues to expose certain questionable practices of the United States with regards to extradition *Blackstone's International Law Documents* Malcolm D. Evans, 2015 Market leading and first choice with students and lecturers Blackstone's Statutes have an unrivalled tradition of trust and quality With a rock solid reputation for accuracy reliability and authority Blackstone's Statutes provide a careful selection of all the up to date materials students need for exams and course use

US Department of State Dispatch, 1995 *Legal Status of Government Merchant Ships in International Law* Thamarappallil Kochu Thommen, 2012-12-06 This book is devoted to an examination of the legal status of government merchant ships while on the high seas or in the waters of foreign states in time of peace The object of this examination is to ascertain whether there is any rule of international law which accords such a ship a higher status than that of private merchant ships Whether government merchant ships unlike private ships are entitled to certain immunities from the jurisdiction of foreign states is the question that we have set out to answer in this book A discussion of the rules concerning the nationality of such a ship or the jurisdiction of the flag state over her does not find a place in this work A government merchant ship may be defined as a merchant ship owned or operated by a state Immunity of a ship here means the exemption of a government ship from the jurisdiction of any state other than the flag state This term also connotes the immunity of the flag state from the jurisdiction of the tribunals of foreign states in respect of proceedings connected with such a ship Immunity of persons means the exemption of persons in the service of a government ship or other persons on board her from the jurisdiction of any state other than the flag state Unsafe on the High Seas: Your Guide to a Safer Cruise Charles R. Lipcon, 2007 **The Law of the Sea** Laura Pineschi, Tullio Treves, 2021-09-27 The United Nations Convention on the Law of the Sea of 10 December 1982 entered into force on 16 November 1994 Since this date a single binding instrument has regulated the rights and duties of States at sea and regarding the sea New concepts such as the exclusive economic zone archipelagic waters transit passage through straits and the International Seabed Area are now fully recognized The fifteen member States of the European Union are a significant sample for analyzing the practice of States or at least that of the Western industrialized States as regards the law of the sea They include major and small maritime powers coastal and land locked States States with coasts on the Atlantic Ocean and States with coasts on semi enclosed seas such as the Baltic and the Mediterranean States with and without involvement in deep seabed mining and States with different interests as regards fisheries The fact that they all belong to the European Union is a very important common feature which

amply justifies the choice made to study them together The book's aim is to give through essays prepared by well known specialists a detailed survey of the attitudes and practice concerning the law of the sea of the member States of the European Union and of the European Community as such The common positions of the member States and the results of their coordinated action also emerge from these essays The fact that the member States and the European Community are now actively engaged in the process of becoming parties to the Law of the Sea Convention is certainly a major contribution to the consolidation of the Convention as a universal instrument or at least as an instrument widely ratified by States of all continents and economic and political interests

Contemporary Regulation of Marine Living Resources and Pollution E. Franckx (Ed.), 2007 Between 2001 and 2002 the Maritime Institute of the Universiteit Gent and the Centre for International Law of the Vrije Universiteit Brussel joined efforts and hosted Emeritus Professor Dermott Devine as holder of the International Francqui Chair around the central themes of fisheries and coastal state jurisdiction with respect to marine pollution As Emeritus Director of the Institute of Marine and Environmental Law Professor Devine was available for discussion and participation in the scientific life of the different Belgian universities having similar fields of interest Within this context six classes of excellence were organized with the participation of interested Belgian colleagues across the board belonging to universities adhering to different basic philosophies and even forming part of different linguistic communities These classes culminated in a final symposium where Professor Devine gave a birds eye view of the general theme overarching and synthesizing the different subjects covered during the previous classes of excellence This book offers a reworked compilation of all the contributions of the key note speakers to the classes of excellence

Arms Control and Global Security Paul R. Viotti, 2010-04-12 An essential guide offers a comprehensive collection of edited and annotated arms control documents dating from the late 19th century to the present day Sometimes successful and sometimes not arms control agreements are strenuously negotiated by the parties involved yet they quickly become obsolete as technology advances and new weapons come on the scene Thus such agreements are best understood strategically not as ends in themselves but rather as one essential avenue of securing national and global security an important means of allowing countries around the world to work out their differences at the negotiating table instead of on the battlefield Arms Control and Global Security A Document Guide offers an unprecedented and comprehensive collection of arms control documents dating from the late 19th century to the present The book includes documents addressing the control of weapons of mass destruction the banning of biological and chemical weapons the weaponization of space regional arms control and bilateral agreements as well as the limitations of conventional weaponry The documents are edited and annotated for nonspecialists and charts tables and sidebars provide additional information throughout
