Shipwrecks of Isle Royale National Park Daniel Lenihan,1994 Within the boundaries of Isle Royale National Park lie the remains of some of this nation s most famous shipwrecks The America Emperor and Cox are only three of the significant treasures The National Park Service study of these wrecks was the template for the future work of the Submerged Cultural Resources Unit The study s archeological revelations had a broad impact on divers and shipwreck investigation but the limited press run kept it from general distribution Now the publishers of Lake Superior Magazine produce a popular edition to shed important light on this historical record This volume will be of immense interest to shipwreck enthusiasts divers researchers and historians *Isle Royale Biosphere Reserve* ,1985 **Submerged Cultural Resources Study** Daniel Lenihan,1987 *Historical Archeology of Tourism in Yellowstone National Park* Annalies Corbin,Matthew Russell,2009-12-01 Far too often in the eld of archeology the wheel of understanding and insight has a narrow focus that fails to recognize critical studies Crucial information rega ing pivotal archeological investigations at a variety of sites worldwide is extremely dif cult if not impossible to obtain The majority of archeological analysis and reporting at best has limited publication The majority of archeological reports are rarely seen and when published are often only in obscure or out of print journals the reports are almost as hard to nd as the archeological sites themselves There is a desperate need to pull seminal archeological writings together into single issue or thematic volumes It is the int tion of this series When the Land Meets the Sea to address this problem as it relates to archeological work that encompasses both terrestrial and underwater archeology on a single site or on a collection of related sites For example despite the fact that we know that bays and waterways structured historic settlement there is a lack of archeological literature that looks at both the nautical and terrestrial signatures of watersheds in uence on historic culture *Isle Royale Biosphere Reserve: A bibliography of scientific studies* ,1985 *Stories from the Wreckage* John Odin Jensen,2019-04-19 Every shipwreck has a story that extends far beyond its tragic end The dramatic tales of disaster heroism and folly become even more compelling when viewed as junction points in history connecting to stories about the frontier the environment immigration politics technology and industry In *Stories from the Wreckage* John Odin Jensen examines a selection of Great Lakes shipwrecks of the wooden age for a deeper dive into this transformative chapter of maritime history He mines the archeological evidence and historic record to show how their tragic ends fit in with the larger narrative of Midwestern history Featuring the underwater photography of maritime archeologist Tamara Thomsen this vibrant volume is a must have for shipping enthusiasts as well as anyone interested in the power of water to shape history *Southwest Cultural Resources Center Professional Papers* ,1983 *Submerged: Adventures of America's Most Elite Underwater Archeology Team* Daniel Lenihan,2010-07-09 Adventure writing at its best *Submerged* is the first book on the remarkable story of America s elite underwater archeology team Daniel Lenihan recounts experiences from his 25 years as founder and head of the award winning Submerged Cultural Resources Unit SCRUI team of the U S

National Park Service world class divers talented archeologists historians and photographers charged with the mission of surveying mapping investigating and protecting shipwrecks and sites that constitute America's sunken heritage In *Submerged Lenihan* takes the reader on a kaleidoscope of the team's underwater experiences from 1975 to the present from Florida caves to ancient ruins covered by reservoirs in the desert southwest to a WWII Japanese submarine off the Alaskan coast to the lower rings of hell to retrieve the bodies of drowned divers to gripping accounts of personal survival in underwater caves ships and submerged buildings Displaying a passion for extreme diving combined with disciplined professionalism as park ranger archeologists the SCRUI team tackles astonishing often harrowing assignments including The Isle Royale shipwrecks Surveying ten large ships sunk from the mid 19th to mid 20th centuries in the middle of the frigid and deep Lake Superior The USS Arizona in Pearl Harbor Executing the largest mapping project ever conducted underwater and his personal impressions as the first deep diver to explore and video the entire ship in 1983 Excavating the hull of the HL Hunley the first submarine in history to sink an enemy ship in Charleston Harbor during the Civil War Resurveying of the ships sunk by atomic bombs at Bikini Atoll including the aircraft carrier USS Saratoga and Japanese battleship Nagato With an aggressive preservation ethic the team discovers and documents shipwrecks from Florida to Alaska and even studies the haunts of pirates and prehistoric cultures in Micronesia This engaging book written with a mixture of wonder intensity pathos and humor records for the first time the historic and social significance of the underwater research programs conducted by this fascinating unit of the U S National Park Service Sure to delight anyone interested in diving archeology American history adventure and rescue missions this fast paced volume brings an entirely new perspective to the marvels of America's underwater treasures *International Handbook of Underwater Archaeology* Carol V. Ruppe, Jane F.

Barstad, 2013-11-11 Although underwater archaeology has assumed its rightful place as an important subdiscipline in the field the published literature has not kept pace with the rapid increase in the number of both prehistoric and historic underwater sites The editors have assembled an internationally distinguished roster of contributors to fill this gap In addition to both geographical and topical approaches the chapters also focus on technology law public and private institutional roles and goals and the research and development of future technologies and public programs **CRM Bulletin** United States.
