Shirt-sleeve Approach to Long-range Planning for the Smaller, Growing Corporation Robert E. Linneman, 1980

Strategy Formulation in Entrepreneurial Firms Azhdar Karami, 2016-04-01 This book is concerned with strategy formulation issues in the relatively neglected field of entrepreneurial firms. It raises questions such as what is the strategic role of entrepreneurship in small businesses. How does the top management in small firms perceive the processes associated with strategy formulation? How are business strategies formulated and implemented in SMEs and importantly are there lessons that can be learnt by large corporations from the smaller ones? Using a sample covering a wide range of entrepreneurial firms in the UK, the author addresses the lack of strategic thinking in the management of small firms and provides recommendations for effective strategic management processes.

New Technology-Based Firms in the New Millennium Ray Oakey, Aard Groen, Gary Cook, Peter van der Sijde, 2012-02-17 The objectives of the series are to provide up to date research on a variety of aspects of High Technology Small Firm formation and growth. HTSFs from a range of interdisciplinary perspectives.

Interior Design Management Christine M. Piotrowski, 1992-11-11 Most interior designers who own or plan to own their own firms are at a disadvantage because they lack formal business training. This book provides them with essential information on accounting, financial analysis, revenue operation, contracts, personnel issues and more.

Formulation, Implementation, and Control of Competitive Strategy John A. Pearce, Richard Braden Robinson, 1991

Handbook of Decision Making Goktug Morcol, 2006-11-01 Handbook of Decision Making includes the wisdom of the long theological and philosophical traditions of human society as well as a systematic exploration of the implications of contemporary evolutionary theories. Common patterns in decision making styles are identified as well as the common variations that different contexts may generate. The text covers the multiplicity of mainstream decision making styles such as cost benefit analysis and linear programming. It also explains alternative and emerging methods such as geographic information systems, Q methodology and narrative policy analysis. Practical applications are discussed using decision making practices in budgeting, public administration and governance, drug trafficking and information systems.
