The Hatpin Menace Kerry Segrave,2016-03-01 Between 1887 and 1920 the humble hatpin went from an unremarkable item in every woman s wardrobe to a fashion necessity to a dangerous weapon it was said Big hair and big hats of the era meant big hatpins and their weaponized use sparked controversy There were good uses of hatpins such as fending off an attacker in the street There were also bad uses such as when a woman being arrested tried to stab a police officer But seriously All those protruding pins seemed to threaten people everywhere in the public sphere It did not sit well with the patriarchy who responded with hysterical crusades and often ludicrous legislation aimed at curbing the hatpin and disarming American women *The Women Who Got America Talking* Kerry Segrave,2017-08-11 When the need for

telephone operators arose in the 1870s the assumption was that they should all be male Wages for adult men were too high so boys were hired They proved quick to argue with the subscribers so females replaced them Women were calmer had reassuring voices and rarely talked back Within a few years telephone operators were all female and would remain so The pay was low and working conditions harsh The job often impaired their health as they suffered abuse from subscribers in silence under pain of dismissal Discipline was stern dress codes were mandated although they were never seen by the public Most were young domestic and anything but militant Yet many joined unions and walked picket lines in response to the severely capitalistic sexist system they worked under **Police Violence in America, 1869-1920** Kerry

Segrave,2016-08-15 Police violence is not a new phenomenon In the late 19th and early 20th centuries police officers in America assaulted or killed many ordinary citizens often during improper detainments or arrests where no threat existed or

no crime had been committed Based on hundreds of newspaper accounts from 1869 through 1920 this history provides a chronological listing of interactions between police and unarmed citizens in which the citizens some of them minors were assaulted or killed Police who committed such acts often lied to protect themselves assisted by fellow officers and encouraging the media to demonize the victims The author provides information on the prosecution and punishment of officers where available *Delinquency and Juvenile Justice in American Society* Randall G. Shelden, Emily I. Troshynski, 2019-07-16

Women and Capital Punishment in America, 1840-1899 Kerry Segrave, 2008-04-30 Perhaps the single medium in which women have been consistently treated as equal to men is the American judicial system. Although the system has met with enormous public condemnation, equality under the law has justified the legal execution of nearly six hundred American women since 1632. This book profiles the lives and cases of selected women sentenced to capital punishment in America between 1840 and 1899, most of whom were executed by hanging. The book is divided into chapters by decades, chronologically following a summary of the long and heated debate regarding women and capital punishment. Also evident is the influence of the 1870s women's rights movement on the issue. Each chapter concludes with a comprehensive list of all women executed in the United States during the respective decade, specifying age, ethnicity, and criminal conviction.

The Sexual Harassment of Women in the Workplace, 1600 to 1993 Kerry Segrave, 2013-04-02 While sexual harassment of women in the workplace has been discussed for decades, it is still a pervasive problem. This book looks at the history of that harassment from the 1600s to the early 1990s, from long-forgotten domestic servants in England of the 1600s to abused Japanese textile workers of 1900 to Anita Hill in 1991. Coverage is worldwide, with emphasis on the United States and the period 1800 to the present. Harassment affects women from all walks of life, from unskilled to professional, those in traditionally female jobs, those in traditionally male jobs, and all the rest. Harassment occurs in factories, coal mines, construction sites, law offices, dental offices, government offices, Capitol Hill, and at every other work site. So bad was it in some factories that women took to carrying knives for self-protection. Women have put their economic existence on the line by striking over sexual harassment.

Snowden Americans have come to realize that many of us may be under surveillance at any time It all started 150 years ago on the battlefields of the Civil War where each side tapped the other s telegraph lines It continued in 1895 when the New York Police Department began to tap telephone lines It was 20 years before it was public knowledge and by then the NYPD was so busy tapping they had a separate room set aside for the purpose Wiretapping really took off in 1910 when the dictograph the first ready to use bug that anyone could operate arrived making it easier still to engage in electronic surveillance Politicians bugged other politicians corporations bugged labor unions stockbrokers bugged other stockbrokers and the police bugged everybody And we were well on our way to the future that George Orwell envisioned the world Edward Snowden revealed Big Brother had arrived *Women Serial and Mass Murderers* Kerry Segrave,2013-04-16 It is at 31 4 years of age that the average woman multiple murderer kills the first of her 17 victims whom she usually knows or is related to The preferred method is poison usually arsenic She is more likely to prey on the vulnerable the very young or the very old than is her male counterpart Her killing spree lasts five years when caught she shows little remorse This study of 85 women focuses on those who have killed at least three people not including themselves in murder suicide cases Though the work is international emphasis is on the United States during the late 19th and 20th centuries Excluded are accomplices who though legally guilty of multiple murders were in fact passive participants The life of each killer is examined as well as descriptions of the murders the methods and the trial **Begging in America, 1850-1940** Kerry Segrave,2011-10-14 The poverty that drives people to begging has been a pressing social issue in the United States since the beginning This historical work explores begging and beggars in the period 1850 to 1940 with emphasis on how the police the courts the media and private charity organizations dealt with them Efforts to suppress mendicancy are explored including legislation police crackdowns and public vouchers for meals and shelter Of particular interest is the way in which media portrayals have guided public perception of mendicants Despite the massive social upheavals the last two centuries have brought all efforts to suppress begging have failed Many of the complaints and arguments made against beggars and begging in 1850 and 1900 and 1940 were also made into the 21st century because in the end the public continued to give alms *Women and Smoking in America, 1880-1950* Kerry Segrave,2005-07-26 During the last 20 years of the 19th century cigarette smoking was transformed from a lower class habit to a favored form of tobacco use for men and practically the only form available to women The trend continued to grow through the 1950s when smoking was a significant part of America s social fabric for both men and women This social history traces the evolution of women s smoking in the United States from 1880 to 1950 From 1880 to 1908 women were not allowed to smoke in public places with strong opposition based on moral concerns Most smoking was done by upper class women in the home at private parties or at socials By 1908 women smokers went public in greater numbers and challenged the prejudices against smoking that applied to them alone By 1919 most restaurants allowed women to smoke though most other public places did not permit it More and more women smokers went public in

the period between 1919 and 1927 with college students leading the way By 1928 advertisers began to target female smokers and over the next two decades women smokers gradually gained equality with male smokers

Abelson,1992-07-09 This book focuses on middle class urban women as participants in new forms of consumer culture Within the special world of the department store women found themselves challenged to resist the enticements of consumption Many succumbed buying both what they needed and what they desired but also stealing what seemed so readily available Pitted against these middle class women were the management detectives and clerks of the department stores Abelson argues that in the interest of concealing this darker side of consumerism women of the middle class but not those of the working class were allowed to shoplift and plead incapacitating illness kleptomania The invention of kleptomania by psychiatrists and the adoption of this ideology of feminine weakness by retailers newspapers the general public the accused women themselves and even the courts reveals the way in which a gender analysis allowed proponents of consumer capitalism to mask its contradictions
