regulation preferred by industry and labour In this regard the latter group raised concerns about jobs income and equipment loss as well as the need to have a holistic approach to waste management rather than targeting a single product at a time whilst the former maintained that this would not be so As such education awareness and stringent antilitter penalties were proposed by industry and labour as sustainable responses to the problem of plastic shopping bags waste rather than regulation These debates continued and resulted in minor amendments to the original regulations as finalised by Government in May 2002 However industry and labour continued lobbying government resulting in the conclusion of the Plastic Bags Agreement in September 2002 and the ultimate repulsion of the May 2002 regulations in May 2003 As revealed by this research these responses led to broader social responses and further tensions as demand for plastic shopping bags went down by about 80% although an estimated 1000 jobs were lost and a number of companies lost equipment and business with some closing down following the implementation of Assessment of Environmental Impact by Grocery Shopping Bags Subramanian Senthilkannan Muthu,Yi Li,2013-09-24 This book reviews the manufacturing processes of different shopping bags used for grocery purposes life cycle impacts modelling of life cycle impacts carbon and eco footprints in different countries consumption of shopping bags in different countries consumer behaviour of shopping bags in various countries and its relation to eco impact assessment of functionality of shopping bags concept and framework of eco functional assessment of shopping bags biodegradation of shopping bags etc *Records and Briefs of the United States Supreme Court* ,1832
