Yugoslavia was a phenomenon of the short twentieth century. Its two incarnations fell between the cataclysm of the First World War which destroyed the old order and the transformation of Europe which followed the collapse of communism in 1989. The task of building a viable unified state was complicated not only by Yugoslavia's diverse cultural composition but also by the pressures which the evolution of international society have placed on the modern state. Yugoslavia Explains and examines the key themes in the history of the former Yugoslavia. Synthesises the main strands in contemporary debate about the origins of the Yugoslav crisis. Presents a truly international history exposing in full the role played by other countries in the rise and fall of the nation. Focussing on both domestic and external factors. Ann Lane presents a balanced analysis of this ultimately failed attempt at state building in a region of cultural diversity.

**New Perspectives on Yugoslavia** Dejan Djokić, James Ker-Lindsay, 2010-10-04. Nearly twenty years after it ceased to exist as a multinational federation Yugoslavia still has the power to provoke controversy and debate. Bringing together contributions from twelve of the leading scholars of modern and contemporary South East Europe this volume explores the history of Yugoslavia from creation to dissolution. Drawing on the very latest historical research this book explains how the country came about how it evolved and why eventually it failed. From the start of the twentieth century through the First World War the interwar years and the Second World War to the road to socialism under President Tito and the wars of Yugoslav succession in the 1990s this volume provides up to date analysis of the causes and consequences of a range of events that shaped the development of this remarkable state across its various iterations. The book concludes by examining post conflict relations in the era of European integration. Traversing ninety years of history this volume presents a fascinating story of how a country that once served as the model for multiethnic states around the world has now become a byword for ethno national fragmentation and conflict.
