Hochschild,Nathan

Scovronick,2004-10-21 The American Dream and the Public Schools examines issues that have excited and divided Americans for years including desegregation school funding testing vouchers bilingual education and ability grouping While these are all separate problems much of the contention over them comes down to the same thing an apparent conflict between policies designed to promote each student's ability to succeed and those designed to insure the good of all students or the nation as a whole The authors show how policies to promote individual success too often benefit only those already privileged by race or class and often conflict with policies that are intended to benefit everyone They propose a framework that builds on our nation's rapidly changing population in order to help Americans get past acrimonious debates about

schooling Their goal is to make public education work better so that all children can succeed      **Fertilizers, Pills & Magnetic Strips** Gene V Glass, 2008-03-01 Now available for Kindle Click here We shape our tools and then they shape us With these words Kenneth Boulding captured one of the great truths of the modern world In Fertilizers Pills and Magnetic Strips Gene V Glass analyzes how a few key technological inventions changed culture in America and how public education has changed as a result Driving these changes are material self interest and the desire for comfort and security both of which have transformed American culture into a hyper consuming xenophobic society that is systematically degrading public education Glass shows how the central education policy debates at the start of the 21st century vouchers charter schools tax credits high stakes testing bilingual education are actually about two underlying issues how can the costs of public education be cut and how can the education of the White middle class be quasi privatized at public expense Working from the demographic realities of the past thirty years he projects a challenging and disturbing future for public education in America
