Cook,P. Jones,J. Sinclair,Jeffrey

Weeks, 2015-12-30 From 1970 to 1977 a major project to uncover source material for students of contemporary British history and politics was undertaken at the British Library of Political and Economic Science. Financed by the Social Science Research Council and under the direction of Dr Chris Cook, this project has attempted a unique and systematic operation to locate and then to make readily available those archives that provide the indispensable source material for the contemporary historian. This volume, the fifth in the series, provides a guide to the papers of propagandists who were influential in British public life. Included in this volume are the papers of such persons as newspaper editors, leading economists, social reformers, socialist thinkers, trade unionists, industrialists, and a variety of theologians and philanthropists. In all, this volume not only completes the findings of the project but opens up the archive sources of a hitherto neglected area of research into contemporary social and political history. *Guide to Manuscripts in the British Isles Relating to Australia, New Zealand, and the Pacific Islands*, 1965* *Federation Fathers* Crisp F. L., 2013-02-01 The making of the Constitution of the Australian Commonwealth was the work of many hands. In this book, a distinguished political scientist acknowledges seven of the makers by providing a detailed account of their distinctive contributions to the creation of one nation from six British colonies. The result is a valuable study of the political leadership during the Federation period, built from left portraits of figures whose role in the struggle for Federation has not so far received the attention it deserves. *The People's Treasures* John Robert Thompson, 1993 Colourfully illustrated series of articles written to commemorate the 25th anniversary of the opening of the National Library of Australia. Discusses the library's collections which include early Australian manuscripts, documentary paintings, and rare maps and books. Also discusses related topics such as using and interpreting the national collection. Includes chapter notes and sources. The contributors are experts in their fields and include well-known historian Stuart Macintyre and Jonathan Wantrup, author of *Australian Rare Books 1788-1900*. *David Collins* John Currey, 2013-06-05 The life of David Collins, judge, historian, and governor, reflects the story of the European settlement of Australia. Born in London in 1756, Collins joined the Marine Corps at fourteen and in 1775 fought against the Americans at the battle of Bunker Hill. In 1787 he was appointed deputy judge advocate of the impending expedition to Botany Bay. In a remarkable trio of events, Collins was one of the founders of Sydney in 1788, began the first European settlement in Victoria in 1803, and founded Hobart Town the following year. The journal he began on the First Fleet grew into the first substantial history of New South Wales, and his private letters, extensively quoted for the first time in John Currey's fine biography, give a rare insight into the early colonial world. The letters also tell the story of a life that went wrong. Born into a family long connected to the royal court and the military, Collins was expected to have a brilliant career. But the loss of influential patrons left him unemployed and in debt, and he was forced to accept the post of lieutenant governor in Van Diemen's Land. Here he found himself neglected and under-supplied and was castigated by his political masters for waste and extravagance. A bitter confrontation with Governor William Bligh brought the settlement to the brink of civil war, and Bligh accused Collins of mutiny and neglect.

of duty Within the colony contemporary judgements were contradictory Collins was a father figure to his admirers a tyrant to his detractors His interest in the Aboriginal people was strongly humanitarian On the other side of the world from his Nova Scotian novelist wife he had a series of liaisons with female convicts which caused his enemies to brand him a bigamist and debauchee Nevertheless the whole of Hobart Town turned out for his funeral This substantial and comprehensive biography is the first and only full length account of David Collins s life One of the main sources for the book is the major collection of Collins family papers purchased by the Mitchell Library in the early 1960s New material on the early colonial period of Australia is rare and the previously unpublished documents in David Collins including letters written from the First Fleet will create great interest

History Of Australia (Volumes 1 & 2) Manning Clark,1999-09-13 A History of Australia From Earliest Times to 1838 deals with the pre white settlement era and the earliest years of European colonisation through to the establishment of an increasingly settled society and the expeditions of the great inland explorers This is not a general Australian history it does not attempt to cover all aspects and it is not a definitive or quantitative analysis It is a work of art a living and breathing account of the remaking of a primitive continent history come alive

[The Oxford History of the British Empire: Volume V: Historiography](#) Robin Winks,1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

Women in the History of Linguistics Wendy Ayres-Bennett,Helena Sanson,2020 This volume offers a ground breaking investigation into women s contribution to the description analysis and codification of languages across a wide range of linguistic and cultural traditions The chapters explore a variety of spheres of activity from the production of dictionaries and grammars to language teaching methods and language policy

Two Worlds Anne Salmond,1992-01-01 Two Worlds is a penetrating rethinking of that view Drawing on

local tribal knowledge as well as European accounts Anne Salmond shows those first meetings in a new light Both Maori and European protagonists were active all fully human following their own practical political and mythological agendas quite unlike those of their modern day descendants in many ways The result is a work of trail blazing significance in which many popular misconceptions and bigotries to do with common perceptions of traditional Maori society are revealed It also opens up new possibilities in the international study of European exploration and discovery The to Z of Australia James C. Docherty,2010-04 The A to Z of Australia relates the history of this unique and beautiful land which is home to an amazing range of flora and fauna a climate that ranges from tropical forests to arid deserts and the largest single collection of coral reefs and islands in the world Through Routledge Library Editions: The British Empire Various,2021-03-05 The volumes in this set originally published between 1968 and 1989 draw together research by leading academics in the area of the British Empire and provides an examination of related key issues The volumes examine slavery in the British Empire problems encountered in India in the eighteenth and nineteenth century as well as the Empire at its most powerful This set will be of particular interest to students of British colonial and world history *The Search for Security in the Pacific 1901-1914* Neville Meaney,2009 First published in 1976 The Search for Security in the Pacific 1901 1914 is the first volume in a pioneering two volume history of Australia s relations with the world from the founding of the Commonwealth to the Great War and its immediate aftermath This book is based on wide ranging research in collections of personal and official papers in Australia Britain the United States and Canada and offers original insights into Australia s political culture In taking the story up to the outbreak of the European conflict it shows the great impact that the looming presence of East Asia had on Australia s perception of the world and on the evolution of a distinctive defence and foreign policy It tells the story of how in an age of race nationalism the fear of Asia led first to the making of the Commonwealth and the White Australia policy and then after Japan s defeat of Russia in 1905 to the potential prospect of a military invasion from the north This sense of an Australian Crisis pervaded the whole society and found expression in poetry plays novels cartoons at least one film newspaper editorials as well as political speeches To meet this threat Australian leaders against all the advice from the British authorities introduced compulsory military training and established a navy and a fledgling air force The outbreak of the European war found the Australians resentful about the British betrayal and anxious to know what the Empire s involvement in that conflict might mean for the Pacific This divergence of security concerns created tension between Australia s community of culture and its community of interest between its British identity and its geopolitical circumstances
