Mao's People B. Michael FROLIC, B. Michael Frolic, 2009-06-30 How do we apply Chairman Mao's Thought to get fat pigs Squad Leader Ho who knew the most about pigs replied that according to Chairman Mao one must investigate the problem fully from all sides and then integrate practice and theory Ho concluded that the reason for our skinny pigs had to be found in one of three areas the relationship between the pigs and their natural environment excluding man the relationship between the cadres and the pigs and the relationship among the pigs themselves And so the city slickers sent down to the countryside for political reeducation set out to find the Thousand Dollar Pig much to the bemusement of the local peasants The sixteen stories collected in this remarkable book give firsthand accounts of daily life in contemporary China From 250 interviews conducted in Hong Kong between 1972 and 1976 Mr Frolic has created charming vignettes that show how individuals from all parts of China led their lives in the midst of rapid social change and political unrest We hear about oil prospectors rubber growers and factory workers Widow Wang and her sit in to get a larger apartment the thoroughly corrupt Man Who Loved Dog Meat the young people who flew kites to protest antidemocratic tendencies As fresh and original as the individual accounts are common and timeless themes emerge the sluggishness of an agrarian society in responding to modernization the painful lack of resources in a poor and gigantic country the constraints imposed on common people by the bureaucracy the way in which individuals outwardly support the system and inwardly resist it the limitations of heavy and conflicting doses of ideology in motivating individuals But there are also recurrent motifs of economic and social progress production rises illiteracy declines and socialist values have impact A new China has emerged though change is occurring far more slowly than its leaders had intended Mao's People contains much new information on China both for the general reader and for specialists in the field Above all it is a completely engrossing and vivid glimpse into the ways of a nation we are only beginning to discover

China's Use of Military Force Andrew Scobell, 2003-09-08 In this unique study of China's militarism Andrew Scobell examines the use of military force abroad as in Korea 1950 Vietnam 1979 and the Taiwan Strait 1995 1996 and domestically as during the Cultural Revolution of the late 1960s and in the 1989 military crackdown in Tiananmen Square Debunking the view that China has become increasingly belligerent in recent years because of the growing influence of soldiers Scobell concludes that China's strategic culture has remained unchanged for decades Nevertheless the author uncovers the existence of a Cult of Defense in Chinese strategic culture The author warns that this Cult of Defense disposes Chinese leaders to rationalize all military deployment as defensive while changes in the People's Liberation Army's doctrine and capabilities over the past two decades suggest that China's twenty first century leaders may use military force more readily than their predecessors

Living with Reform Timothy Cheek, 2013-07-04 China is huge China is growing more powerful Yet China remains a great mystery to most people in the West This contemporary history based on the latest scholarly research offers a balanced perspective of the continuing legacy of Maoism in the lives not only of China's leaders but China's working people It outlines the ambitious economic reforms taken since the 1980s and shows the complex responses to the consequences of reform in China today Cheek shows the domestic concerns and social forces that shape the foreign policy of one of the world's great powers His analysis will equip the reader to judge media reports independently and to consider the experience and values not only of the Chinese government but China's workers women and minorities

Chang,2023-01-20 Ideas influence people In particular extremely well developed sets of ideas shape individuals groups and societies in far reaching ways This book establishes these idea systems as an academic concept Through three intense episodes of manipulation and mayhem connected to idea systems Europe s witch hunts the Mao Zedong era revolutions and the early campaign of the U S War on Terror this book charts the cognitive and informational matrices that seize control of people s mentalities and behaviors across societies Through these the author reaches two conclusions The first that we are all vulnerable to the dominating influence of our own matrices of ideas and to those woven by others in the social system The second that even the most masterful manipulators of idea programs may lose control of the outcomes of programmatic manipulation Amongst this analysis sixty plus central conceptual terminologies are provided for readers to analyze multiform idea systems that exist across space time and cultural contexts This is an open access book [Radicalism and Education Reform in 20th-Century China](#) Suzanne Pepper,2000-07-10 The first comprehensive book to cover the whole sweep of twentieth century Chinese education **Chinese Business Enterprise** Rajeswary Ampalavanar Brown,1996 **Gated Communities in China** Choon-Piew Pow,2009-09-11 This book examines the nature and dynamics of gated communities within the specificities of reform Shanghai a city that arguably has been at the forefront of China s new urban consumer revolution **Chinese Civilization** Patricia Buckley Ebrey,2009-11-24 Chinese Civilization sets the standard for supplementary texts in Chinese history courses With newly expanded material personal documents social records laws and documents that historians mistakenly ignore the sixth edition is even more useful than its classic predecessor A complete and thorough introduction to Chinese history and culture *China's Scientific Elite* Cong Cao,2004-07-31 China s Scientific Elite is a study of those scientists holding China s highest academic honour membership of the Chinese Academy of Sciences Having carried out extensive systematic data collection of CAS members Cao examines the social stratification system of the Chinese science community and the way in which politics and political interference has effected the stratification The book then goes on to compare the Chinese system to the stratification of the US scientific elite The conclusions are fascinating not least because one national elite resides in a democratic liberal social system and the other in an authoritarian social system

China's New Voices Nimrod Baranovitch, 2003-08 A study of popular music in contemporary China that focuses on how popular music has become a staging area for battles over politics and ethnic differences in China **Problems of Communism** ,1981 **Women Migrant Workers in China's Economic Reform** F. Xu, 2000-09-19 Women Migrant Workers in China's Economic Reform studies unmarried women migrant workers in China As international migrants in China's richest province they work in silk one of China's oldest and most symbolically charged industries Through extensive interviews and a wide ranging interpretation of the secondary literature this book brings an interdisciplinary approach to its study of power and identity Gender class and local identities matter in the factories and streets of a one industry town and municipal and factory leaders seek to rework these over shifting forces to build a low cost reliable labour force The women in question seek to rework these disadvantages by the same forces have other aspirations **Farewell to the God of Plague** Miriam Gross, 2016-01-19 Farewell to the God of Plague reassesses the celebrated Maoist health care model through the lens of Mao's famous campaign against snail fever Using newly available archives Miriam Gross documents how economic political and cultural realities led to grassroots resistance Nonetheless the campaign triumphed but not because of its touted mass prevention campaign Instead success came from its unacknowledged treatment arm carried out jointly by banished urban doctors and rural educated youth More broadly the author reconsiders the relationship between science and political control during the ostensibly antiscientific Maoist era discovering the important role of grassroots science in regime legitimation and Party control in rural areas
